Managing risks to build climate-smart and resilient agrifood value chains Food and Agriculture Organization of the United Nations, 2022-05-13 This work provides a preliminary analysis of the key climate risks affecting agrifood value chains and opportunities for climate services that reach stakeholders involved in all stages of the value chain, from agrifood production to harvest, storage and refrigeration, processing and packaging, transportation, markets, trade and consumption. Climate services provide opportunities to effectively and comprehensively mainstream climate risk management across the entire agrifood value chain, in addition to increasing sustainability and efficiency in the face of changing climate conditions. This report provides significant primary information and recommendations on the development of climate services across the agrifood value chain with a view to systematically enhance sustainable and resilient opportunities. It also provides a basis for further research and investment funding in this area. Its findings could spark follow-up research and public and private investment.

Finding Our True Home Thich Nhat Hanh, 2001-08-09 Finding Our True Home presents a new definitive translation of the Amitabha Sutra along with Thich Nhat Hanh's first commentary on one of the most practiced forms of Buddhism in the world, the Pure Land school. Introduced in the Buddha's own lifetime, Pure Land practice puts us in touch with the beauty in our own world and brings us the security, solidity, and freedom we need in order to truly enjoy it. Realizing that Buddha is within us, we see that the Pure Land (paradise) is here and now, rather than in the future. Finding Our True Home will open a new Dharma door to many students of meditation.

Financing long-term services and supports Joshua Wiener, Molly Knowles, Erin White, 2017-09-12 This article provides an overview of financing for long-term services and supports (LTSS) in the United States, paying special attention to how it has changed and not changed over the last 30 years. Although LTSS expenditures have increased greatly (like the rest of health care), the broad outline of the financing system has remained remarkably constant. Medicaid—a means-tested program—continues to dominate LTSS financing, while private long-term care insurance plays a minor role. High out-of-pocket costs and spend-down to Medicaid because of those high costs continue to be hallmarks of the system. Although many major LTSS financing reform proposals were introduced over this period, none was enacted—except the Community Living Assistance Services and Supports Act, which was repealed before implementation because of concerns about adverse selection. The one major change during this time period has been the very large increase in Medicare

spending for post-acute services, such as short-term skilled nursing facility and home health care. With the aging of the population, demand for LTSS is likely to increase, placing strain on the existing system.

Global Corporate Citizenship Martin Kleemann, 2005-08-24

Inhaltsangabe: Einleitung: Die vorliegende Arbeit befasst sich mit dem Thema der Global Corporate Citizenship. Im Zentrum der Überlegungen steht die Frage, wie Unternehmen durch die freiwillige Übernahme einer bürgerschaftlichen Verantwortung erfolgreich wirtschaften, den sich wandelnden Anforderungen von Politik und Gesellschaft gerecht werden und dem kapitalistischen Wirtschaftsmodell in Zeiten einer energischen Globalisierungsdynamik die gewünschte Nachhaltigkeit und somit Existenzberechtigung verleihen können. Der weltumspannende Handel ist natürlich kein neuzeitliches Phänomen. Allerdings beinhalten der rasante Anstieg länderübergreifender Güter-, Geld-, Informations- und Menschenströme sowie die hohe Geschwindigkeit, mit welcher sich vormals wirtschaftlich unbedeutende Staaten an das Wirtschaftssystem ankoppeln, ein enormes Konfliktpotenzial. Einem steigenden Lebensstandard auf der einen Seite stehen nicht selten soziale Ausbeutung und ökologisches Missmanagement gegenüber, welche in der Regel von Unternehmen getrieben und der Politik geduldet werden. Die sich weltweit öffnenden Märkte erhöhen darüber hinaus zusehends den Konkurrenzdruck und unterspülen die etablierten Sozialsysteme. Im Gegensatz dazu wird seitens der Politik und der Gesellschaft aber auch gleichzeitig eine neue Balance zwischen ökonomischen, ökologischen und sozialen Grundwerten gefordert. Die Unternehmen sollen in diesem Zuge aktiv an der Lösung der drängenden Probleme beteiligt werden. Diese Widersprüche aufzulösen ist auch Teil der Global Corporate Citizenship-Diskussion. Die negativen Auswüchse des ungelenkten Kapitalismus sollen im Zaum gehalten und die Chancen einer globalisierten Wirtschaft so umfassend wie möglich genutzt werden. Die Ausarbeitung beschäftigt sich daher mit den Möglichkeiten, wie national und international operierende Unternehmen künftig ihre Rolle als verantwortungsbewusste Bürger verstehen, und somit zu einer umfassenden Wohlfahrtssteigerung beitragen können. Gang der Untersuchung: Zu Beginn dieser Arbeit wird eine Grundlage geschaffen, indem gängige Definitionen zum Thema Global Corporate Citizenship diskutiert und abgegrenzt werden. Darauf aufbauend werden der Begriff der Stakeholder näher differenziert und einzelbetriebliche Effekte beleuchtet, welche durch eine erfolgreiche Implementierung einer Global Corporate Citizenship-Strategie entstehen können. Im weiteren Verlauf werden der Bedeutungsgewinn von Unternehmen untersucht und eine [...]

Think Bayes Allen B. Downey, 2021-05-18 If you know how to program, you're ready to tackle Bayesian statistics. With this book, you'll learn how to solve statistical problems with Python code instead of mathematical formulas, using discrete probability distributions rather than continuous mathematics. Once you get the math out of the way, the Bayesian fundamentals will become clearer and you'll begin to apply these techniques to real-world problems. Bayesian statistical methods are becoming more common and more important, but there aren't many resources available to help beginners. Based on

undergraduate classes taught by author Allen B. Downey, this book's computational approach helps you get a solid start. Use your programming skills to learn and understand Bayesian statistics Work with problems involving estimation, prediction, decision analysis, evidence, and Bayesian hypothesis testing Get started with simple examples, using coins, dice, and a bowl of cookies Learn computational methods for solving real-world problems

The Will of the Wanderer Margaret Weis, Tracy Hickman, 2019-12-03 Since time began, twenty Gods have ruled the universe. Though each god possessed different abilities, each was all-powerful within his realm. Now one of the Gods has upset the balance of power, leaving the others scrambling for control in the new order... Here is the epic tale of the Great War of the Gods - and the proud people upon whom the fate of the world depends. When the God of the desert, Akhran the Wanderer, declares that two clans must band together despite their centuries-old rivalry, their first response is outrage. But they are a devout people and so reluctantly bow to his bidding. Enemies from birth, the headstrong Prince Khardan and impetuous Princess Zohra must unite in marriage to stop Quar, the God of Reality, Greed, and Law, from enslaving their people. But can Khardan and Zohra keep from betraying each other? Can their two peoples maintain their fragile alliance until the long-awaited flowering of the legendary Rose of the Prophet? Against the powerful legions of the evil Amir, Khardan and Zohra fight to save the desert people - a fight unexpectedly joined by an exiled wizard named Matthew and the mysterious powers of his alien land.

Revisionism and Diversification in New Religious Movements Eileen Barker, 2016-04-08 New Religious Movements tend to start their lives with a number of unequivocal statements, not only of a theological nature but also about the world and appropriate behaviours for the believer. Yet these apparently inalienable Truths and their interpretations frequently become revised, 'adjusted' or selectively adopted by different believers. This book explores different ways in which, as NRMs develop, stagnate, fade away, or abruptly cease to exist, certain orthodoxies and practices have, for one reason or another, been dropped or radically altered. Sometimes such changes are adapted by only a section of the movement, resulting in schism. Of particular concern are processes that might lead to violent and/or anti-social behaviour. As part of the Ashgate/Inform series, and in the spirit of the Inform Seminars, this book approaches its topic from a wide range of perspectives. Contributors include academics, current and former members of NRMs, and members of 'cult-watching' movements. All the contributions are of a scholarly rather than a polemic nature, and brought together by Eileen Barker, the founder of Inform.

The Prophet of Akhran Margaret Weis, Tracy Hickman, 2019-12-17 The Great War of the Gods means nothing to the proud people on the mortal planet - until Akhran the Wandering God decrees the union of two mighty feuding clans. Though the families are fierce Warriors, they are few in number. Even the marriage of Khardan and Zohra is not enough to over power the strength of the invading army or prevent the imprisonment of their peoples. Now, with Khardan and Zohra mysteriously missing - seemingly cowards who hid from certain defeat - the two clans have lost all hope of ever again seeing their beloved open skies. But Prince Khardan and Princess Zohra, aided by the wizard Matthew, have been given another mission . . . a mission that at first seems less useful than counting the many grains of the desert sands, but soon proves to be of far more lasting importance.

The Political Economy of Aid in Palestine Sahar Taghdisi-Rad,2010-10-04 Despite for many years receiving the highest per capita aid worldwide, the economies of the West Bank and Gaza Strip have failed to achieve any lasting developmental outcomes and suffer from major weaknesses which undermine their very survival. This book argues that the dominant, mainstream approach to the study of aid and aid effectiveness is theoretically and empirically inadequate for a comprehensive understanding and analysis of the workings of aid in developing countries, particularly those undergoing conflict. This book examines the nature of donor operations in Palestine, highlighting the political and ideological determinants of aid allocation and effectiveness, and focussing on the role of trade-related donor assistance in Palestine, more commonly known as Aid for Trade. It discusses how such trade-related assistance is only another instance of donors working 'around' the conflict, as opposed to taking it into account; and how aid to Palestine cannot bring about significant improvement as long as the Palestinian economy is fundamentally affected by Israeli occupation, settlements and blockade. It argues that unless restructured and more carefully targeted, aid can only act as a temporary relief mechanism. Furthermore, the book sheds light on critical areas within Palestinian territories that are in need of development and require significant and immediate attention at both national and international level.
