*Netsuke* Joe Earle,1982

Japanese Inrō Julia Hutt,Victoria and Albert Museum,1997 This is a comprehensive study of the inro, the small lacquer container used by Japanese men wearing traditional dress to carry items in daily use, drawing on the V&A's collection. Suspended from the belt by means of a netsuke and originally intended to hold a seal and ink or a supply of medicines, the inro gradually developed as a highly decorative dress accessory and became an object of high fashion, which is now prized by collectors. The majority of inro were made of lacquer, and include some of the finest and most innovative examples of the Japanese lacquerer's craft. The book traces the diverse origins of the inro from around 1600 until the early-20th century, and includes sections on construction and techniques of manufacture, on materials used, as well as on individual craftsmen, with photographs of their signatures. The sources of inro designs are explored, from paintings, ukiyoe prints and woodblock-printed books, with many examples illustrated. Methods of dating are also discussed, making this a useful reference for collectors and experts, while those with a general interest in Japanese art should be drawn to the craftsmanship of the individual pieces.

Japanese Netsuke Julia Hutt,2003-08-12 Drawing on the Victoria and Albert Museum's fine collection, Japanese Netsuke examines these appealing, accessible, and often humorous works of art in the broadest possible context. In a text that is both comprehensive and entertaining, Julia Hutt traces the history of netsuke, showing how these highly collectible objects originated from belt hangings used by nomads along the Silk Road. The stunning color photographs reveal the full range of subjects portrayed--images of animals, birds, and sea creatures, portraits of dancers and demons, droll cameos of characters from everyday urban life, even a rare poetic evocation of landscape--and the high level of skill involved in their creation. The richness and diversity of the materials used, as well as the different sources of inspiration, are also discussed, providing an indispensable guide for collectors and all those interested in Japanese decorative arts.

**Japanese Netsuke: (Updated Edition)** Julia Hutt,2012-09-01 The netsuke is a thing of wonder: a tiny utilitarian accessory to traditional Japanese dress that has become an art form in itself, prized by collectors from East to West. The V&A's collection of netsuke is world-famous, and this stunning book draws on its many highlights to explore the origins of netsuke and to trace the sources of these designs in prints, paintings, and woodblock-printed books. It records the evolution of materials and techniques and the patterns of craftsmanship, and is illustrated with some of the very finest examples. A foreword by renowned ceramics artist Edmund de Waal, author of *The Hare with Amber Eyes*, sheds new light on the beauty and value of these miniature works of art.

Netsukes Albert Brockhous,2018-12-14 First published in 1924, no book had ever before emerged dealing with Netsukes, one of the most fascinating and interesting forms of expression of the Japanese in art. Netsukes are the exquisitely carved and infinitely varied little knobs used by the Japanese to keep from slipping all kinds of articles which are hung from girdles. For collectors who cannot afford originals in most of the arts, Netsukes offer an alluring field. Here is a branch in which originals are accessible. The Netsuke is a work of art that can only exist once in this world. It is found in Japan only and like the leaves of the trees, there are never two pieces of it alike. This book describes, in a fascinating way, whether you are a collector or the subject is new to you, the use and various kinds of Netsukes, the method of their carving, their subjects, the many extant collections, their history and their mythology.

The Materials of Sculpture Nicholas Penny,1993-01-01 Surveying the sculpture of many civilizations from ancient Egypt to 20th-century North America, this book provides a basic introduction to the nature of materials used by sculptors, examining how these were regarded as well as how they were worked in different periods and in different cultures.

*The Victoria and Albert Museum* Elizabeth James,2013-10-15 A comprehensive bibliography and exhibition chronology of the world's greatest museum of the decorative arts and design. The Victoria and Albert Museum, or South Kensington Museum as it used to be known, was founded by the British Government in 1852, out of the proceeds from the Great Exhibition of 1851. Like the Exhibition, it aimed to improve the expertise of designers, and the taste of the public, by exposing them to examples of good design from all countries and periods. 2,500 publications have to date been produced by, for, or in association with the V&A. The National Art Library, which is part of the Museum, has prepared this detailed catalogue, supplemented by a secondary list of 500 other books closely related to the V&A. The 1,500 exhibitions and displays recorded include those held in the main Museum and at its branches, the Bethnal Green Museum (now the National Museum of Childhood) and the Theatre Museum, Covent Garden, and additionally those it has organized at external venues, in Great Britain and abroad. The exhibitions and publications are fully cross-referenced, and there are name, title and subject indexes to the whole work, as well as an explanatory introduction.

**Japanese Art and Design** Joe Earle,2000 Originally published for the opening of the Toshiba Gallery of Japanese art at the Victoria & Albert Museum, this book celebrates and sets in context many of its greatest treasures. The Musuem's superb Japanese holdings, acquired over a period of one hundred and fifty years, started with the international exhibitions of the second half of the nineteenth century and the great private collections formed in Britain at the beginning of the twentieth. More recently they have been extended by the purchase of major pieces including exciting contemporary works by leading artists. The result is an unrivalled panorama of Japan's achievements in art

and design from the earliest times, with particular emphasis on ceramics, lacquer, textiles, prints and metalwork of the last four centuries.
