To Feed and Be Fed Susan Elizabeth Ramírez,2022 This book reexamines the structure of Inca society on the eve of the Spanish conquest. The author argues that native Andean cosmology, which centered on the idea of divine rulership, principally organized the indigenous political economy as well as spatial and socio-kinship systems. Ramírez begins by establishing that the phrase el Cuzco, picked up from the native peoples by the Spanish invaders, referred not only to a place but also to the Inca leader. This leader acted as the center of the Inca universe, connecting the people to their ancestors, nature, and each other. From this starting point, the author revisits the Inca cosmology and looks at the way in which the ruler and other authorities connected the people to the gods and bound a diverse polity together under divine protection. Next, the book shows how rituals immortalized these leaders and connected the people to past generations. Finally, the author examines how a cosmology, centered on the divine nature of the king, defined the community and identity of the Andean people.

Miracles, Political Authority and Violence in Medieval and Early Modern History Matthew Rowley,Natasha Hodgson,2021-11-11 This volume examines how historical beliefs about the supernatural were used to justify violence, secure political authority or extend toleration in both the medieval and early modern periods. Contributors explore miracles, political authority and violence in Orthodoxy, Roman Catholicism, various Protestant groups, Judaism, Islam and the local religious beliefs of Pacific Islanders who interacted with Christians. The chapters are geographically expansive, with contributions ranging from confessional conflict in Poland-Lithuania to the conquest of Oceania. They examine various types of conflict such as confessional struggles, conversion attempts, assassination and war, as well as themes including diplomacy, miraculous iconography, toleration, theology and rhetoric. Together, the chapters explore the appropriation of accounts of miraculous violence that are recorded in sacred texts to reveal what partisans claimed God did in conflict, and how they claimed to know. The volume investigates theories of justified warfare, changing beliefs about the supernatural with the advent of modernity and the perceived relationship between human and divine agency. Miracles, Political Authority and Violence in Medieval and Early Modern History is of interest to scholars and students in several fields including religion and violence, political and military history, and theology and the reception of sacred texts in the medieval and early modern world.

Drink, Power, and Society in the Andes Justin Jennings,Brenda J. Bowser,2019-11-02 For more than two thousand years, drinking has played a critical role in Andean societies. This collection provides a unique look at the history, ethnography, and archaeology of one of the most important traditional indigenous commodities in Andean South America--fermented plant beverages collectively known as chicha. The authors investigate how these forms of alcohol have played a huge role in maintaining gender roles, kinship bonds, ethnic identities, exchange relationships, and status hierarchies. They also consider how shifts in alcohol production, exchange, and consumption have precipitated social change. Unique among foodways studies for its extensive temporal coverage, Drink, Power, and Society in the Andes also brings together scholars from diverse theoretical, methodological, and regional perspectives.

Art and Vision in the Inca Empire Adam Herring,2015-05-22 In 1500 CE, the Inca empire covered most of South America's Andean region. The empire's leaders first met Europeans on November 15, 1532, when a large Inca army confronted Francisco Pizarro's band of adventurers in the highland Andean valley of Cajamarca, Peru. At few other times in its history would the Inca royal leadership so aggressively showcase its moral authority and political power. Glittering and truculent, what Europeans witnessed at Inca Cajamarca compels revised understandings of pre-contact Inca visual art, spatial practice, and bodily expression. This book takes a fresh look at the encounter at Cajamarca, using the episode to offer a new, art-historical interpretation of pre-contact Inca culture and power. Adam Herring's study offers close readings of Inca and Andean art in a variety of media: architecture and landscape, geoglyphs, sculpture, textiles, ceramics, featherwork and metalwork. The volume is richly illustrated with over sixty color images.

Ancient States and Infrastructural Power Clifford Ando,Seth Richardson,2017-07-05 Ancient States and Infrastructural Power examines how early states built their territorial, legal, and political powers before they had the capacity to enforce them. Contributors trace how state power first developed from the Andes to China, from Babylon to Rome.

A History of Latin America to 1825 ,2009-12-21 The updated and enhanced third edition of A History of Latin America to 1825 presents a comprehensive narrative survey of Latin American history from the region's first human presence until the majority of Iberian colonies in America emerged as sovereign states c. 1825. This edition features new content on the history of women, gender, Africans in the Iberian colonies, and pre-Columbian peoples. Includes more illustrations to aid learning: over 50 figures and photographs, several accompanied by short essays. Concentrates on the colonial period and earlier, expanding coverage of the period and incorporating more social and cultural history with the political narrative. Part of The Blackwell History of the World Series. The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past, for every curious person in every part of the world. It will comprise some two dozen volumes, of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time. The volumes are narrative in form, giving balanced attention to social and cultural history (in the broadest sense) as well as to institutional development and political change. Each provides a systematic account of a very large subject, but they are also both imaginative and interpretative. The Series is intended to be accessible to the widest possible readership, and the accessibility of its volumes is matched by the style of presentation and production.

Republics of Difference Karen B. Graubart,2022-08-10 Spanish monarchs recognized the jurisdictions of many self-governing corporate groups, including Jews and Muslims on the peninsula, indigenous peoples in their American colonies, and enslaved and free people of African descent across the empire. Republics of Difference examines fifteenth-century Seville and sixteenth- and seventeenth-century Lima to show how religiously- and racially-based self-governance functioned in a society with many kinds of law, what effects it had on communities, and why it mattered. By comparing these minoritized communities on both sides of the Spanish Atlantic world, this study offers a new understanding of the distinct standings of those communities in their urban settings. Drawing on legal and commercial records from late medieval Spain and colonial Latin America, Karen B. Graubart paints

insightful portraits of residents' everyday lives to underscore the discriminatory barriers as well as the occupational structures, social hierarchies, and networks in which they flourished. In doing so, she demonstrates the limits, benefits, and dangers of living under one's own law in the Spanish empire, including the ways self-governance enabled some communities to protect their practices and cultures over time.

Canons and Values Larry Silver, Kevin Terraciano, 2019-08-27 A critical rethinking of the way canons are defined, constructed, dismantled, and revised. A century ago, all art was evaluated through the lens of European classicism and its tradition. This volume explores and questions the foundations of the European canon, offers a critical rethinking of ancient and classical art, and interrogates the canons of cultures and regions that have often been left at the margins of art history. It underscores the historical and geographical diversity of canons and the local values underlying them. Twelve international scholars consider how canons are constructed and contested, focusing on the relationship between canonical objects and the value systems that shape their hierarchies. Deploying an array of methodologies—including archaeological investigations, visual analysis, and literary critique—the authors examine canon formation throughout the world, including Africa, India, East Asia, Mesoamerica, South America, ancient Egypt, classical Greece, and Europe. Global studies of art, which are dismantling the traditionally Eurocentric canon, promise to make art history more inclusive. But enduring canons cannot be dismissed. This volume raises new questions about the importance of canons—including those from outside Europe—for the wider discipline of art history.

Cacicas Margarita R. Ochoa, Sara V. Guengerich, 2021-03-11 The term cacica was a Spanish linguistic invention, the female counterpart to caciques, the Arawak word for male indigenous leaders in Spanish America. But the term's meaning was adapted and manipulated by natives, creating a new social stratum where it previously may not have existed. This book explores that transformation, a conscious construction and reshaping of identity from within. Cacicas feature far and wide in the history of Spanish America, as female governors and tribute collectors and as relatives of ruling caciques—or their destitute widows. They played a crucial role in the establishment and success of Spanish rule, but were also instrumental in colonial natives' resistance and self-definition. In this volume, noted scholars uncover the history of colonial cacicas, moving beyond anecdotes of individuals in Spanish America. Their work focuses on the evolution of indigenous leadership, particularly the lineage and succession of these positions in different regions, through the lens of native women's political activism. Such activism might mean the intervention of cacicas in the economic, familial, and religious realms or their participation in official and unofficial matters of governance. The authors explore the role of such personal authority and political influence across a broad geographic, chronological, and thematic range—in patterns of succession, the settling of frontier regions, interethnic relations and the importance of purity of blood, gender and family dynamics, legal and marital strategies for defending communities, and the continuation of indigenous governance. This volume showcases colonial cacicas as historical subjects who constructed their consciousness around their place, whether symbolic or geographic, and articulated their own unique identities. It expands our understanding of the significant influence these women exerted—within but also well beyond the native communities of Spanish America.

Tenahaha and the Wari State Justin Jennings, Willy Yépez Álvarez, 2015 Tenahaha and the Wari State presents new findings and interpretations that challenge existing theories of Wari state dominance during the Middle Horizon period (A.D. 600-1000) in Peru.

Heads of State Denise Y Arnold, Christine A Hastorf, 2016-07 The human head has had important political, ritual and symbolic meanings throughout Andean history. Scholars have spoken of captured and trophy heads, curated crania, symbolic flying heads, head imagery on pots and on stone, head-shaped vessels, and linguistic references to the head. In this synthesizing work, cultural anthropologist Denise Arnold and archaeologist Christine Hastorf examine the cult of heads in the Andes—past and present—to develop a theory of its place in indigenous cultural practice and its relationship to political systems. Using ethnographic and archaeological fieldwork, highland-lowland comparisons, archival documents, oral histories, and ritual texts, the authors draw from Marx, Mauss, Foucault, Assadourian, Viveiros del Castro and other theorists to show how heads shape and symbolize power, violence, fertility, identity, and economy in South American cultures.

The Routledge History of Food Carol Helstosky, 2014-10-03 The history of food is one of the fastest growing areas of historical investigation, incorporating methods and theories from cultural, social, and women's history while forging a unique perspective on the past. The Routledge History of Food takes a global approach to this topic, focusing on the period from 1500 to the present day. Arranged chronologically, this title contains 17 originally commissioned chapters by experts in food history or related topics. Each chapter focuses on a particular theme, idea or issue in the history of food. The case studies discussed in these essays illuminate the more general trends of the period, providing the reader with insight into the large-scale and dramatic changes in food history through an understanding of how these developments sprang from a specific geographic and historical context. Examining the history of economic, technological, and cultural interactions between cultures and charting the corresponding developments in food history, The Routledge History of Food challenges readers' assumptions about what and how people have eaten, bringing fresh perspectives to well-known historical developments. It is the perfect guide for all students of social and cultural history.

Unearthly Powers Alan Strathern, 2019-03-21 This ground-breaking study sets out a new understanding of transformations in the interaction between religion and political authority throughout history.

A Sense of Place David Spafford, 2020-05-11 A Sense of Place examines the vast Kantō region as a locus of cultural identity and an object of familial attachment during the political and military turmoil of the late fifteenth and early sixteenth centuries in Japan. Through analysis of memoirs, letters, chronicles, poetry, travelogues, lawsuits, land registers, and archeological reports, David Spafford explores the relationships of the eastern elites to the space they inhabited: he considers the region both as a whole, in its literary representations and political and administrative dimensions, and as an aggregation of discrete locales, where struggles over land rights played out alongside debates about the meaning of ties between families and their holdings. Spafford also provides the first historical account in English of medieval castle building and the castellan revolution of the late fifteenth century, which militarized the countryside and radically transformed the exercise of authority over territory. Simultaneously, the book reinforces a sense of the eastern elite's anxieties and priorities, detailing how, in their relation to land and place, local elites displayed a preference for past precedent and inherited wisdom. Even amidst the changes wrought by war, this inclination, although quite at odds with their conventional reputation for ruthless pragmatism and forward thinking, prevailed.

The Chankas and the Priest Sabine Hyland, 2016-05-02 How does society deal with a serial killer in its midst? What if the murderer is a Catholic priest living among native villagers in colonial Peru? In *The Chankas and the Priest*, Sabine Hyland chronicles the horrifying story of Father Juan Bautista de Albadán, a Spanish priest to the Chanka people of Pampachiri in Peru from 1601 to 1611. During his reign of terror over his Andean parish, Albadán was guilty of murder, sexual abuse, sadistic torture, and theft from his parishioners, amassing a personal fortune at their expense. For ten years, he escaped punishment for these crimes by deceiving and outwitting his superiors in the colonial government and church administration. Drawing on a remarkable collection of documents found in archives in the Americas and Europe, including a rare cache of Albadán's candid family letters, Hyland reveals what life was like for the Chankas under this corrupt and brutal priest, and how his actions sparked the instability that would characterize Chanka political and social history for the next 123 years. Through this tale, she vividly portrays the colonial church and state of Peru as well as the history of Chanka ethnicity, the nature of Spanish colonialism, and the changing nature of Chanka politics and kinship from the fifteenth to the eighteenth century.

Conflict in the Early Americas Rebecca M. Seaman, 2013-08-27 This detailed study is the only reference work of its kind to address Spain's conquest of Central and South America, providing in-depth coverage of native and European ideologies, political motivations, and cultural practices of the region. As the study of world history evolves from a Eurocentric perspective to a more global viewpoint, formerly marginalized groups are now the focus of discussion, revealing a background rich with important military, political, social, and economic achievements. This book examines the once prosperous and powerful native civilizations in Central and South America, discussing the key individuals, strategies, and politics that made these countries strong and indomitable. In spite of this, the author shows how, in only a few generations, Spain defeated these mini-empires, eventually dominating much of the Western Hemisphere. *Conflict in the Early Americas: An Encyclopedia of the Spanish Empire's Aztec, Incan, and Mayan Conquests* focuses primarily on the defeat of the Aztec, Incan, and Mayan civilizations, but also includes Spanish interactions with lesser-known native groups. Supporting documents including primary sources, maps, and visual aids provide necessary context to this once-untold story.

Alluvium and Empire Parker VanValkenburgh, 2021-05-18 *Alluvium and Empire* uncovers the stories of Indigenous people who were subject to one of the largest waves of forced resettlement in human history, the Reducción General. In 1569, Spanish administrators attempted to move at least 1.4 million Indigenous people into a series of planned towns called reducciones, with the goal of reshaping their households, communities, and religious practices. However, in northern Peru's Zaña Valley, this process failed to go as the Spanish had planned. In *Alluvium and Empire*, Parker VanValkenburgh explores both the short-term processes and long-term legacies of Indigenous resettlement in this region, drawing particular attention to the formation of complex relationships between Indigenous communities, imperial institutions, and the dynamic environments of Peru's north coast. The volume draws on nearly ten years of field and archival research to craft a nuanced account of the Reducción General and its aftermath. Written at the intersections of history and archaeology, *Alluvium and Empire* at once bears witness to the violence of Spanish colonization and highlights Indigenous resilience in the aftermath of resettlement. In the process, VanValkenburgh critiques previous approaches to the study of empire and models a genealogical approach that attends to the open-ended—and often unpredictable—ways in which empires take shape.

Graphic Indigeneity Frederick Luis Aldama, 2020-06-04 Honorable Mention Recipient for the Comics Studies Society Prize for Edited Book Collection Contributions by Joshua T. Anderson, Chad A. Barbour, Susan Bernardin, Mike Borkent, Jeremy M. Carnes, Philip Cass, Jordan Clapper, James J. Donahue, Dennin Ellis, Jessica Fontaine, Jonathan Ford, Lee Francis IV, Enrique García, Javier García Liendo, Brenna Clarke Gray, Brian Montes, Arij Ouweneel, Kevin Patrick, Candida Rifkind, Jessica Rutherford, and Jorge Santos Cultural works by and about Indigenous identities, histories, and experiences circulate far and wide. However, not all films, animation, television shows, and comic books lead to a nuanced understanding of Indigenous realities. Acclaimed comics scholar Frederick Luis Aldama shines light on how mainstream comics have clumsily distilled and reconstructed Indigenous identities and experiences. He and contributors emphasize how Indigenous comic artists are themselves clearing new visual-verbal narrative spaces for articulating more complex histories, cultures, experiences, and narratives of self. To that end, Aldama brings together scholarship that explores both the representation and misrepresentation of Indigenous subjects and experiences as well as research that analyzes and highlights the extraordinary work of Indigenous comic artists. Among others, the book examines Daniel Parada's *Zotz*, Puerto Rican comics *Turey el Taíno* and *La Borinqueña*, and *Moonshot: The Indigenous Comics Collection*. This volume's wide-armed embrace of comics by and about Indigenous peoples of the Americas and Australasia is a first step to understanding how the histories of colonial and imperial domination connect the violent wounds that still haunt across continents. Aldama and contributors resound this message: Indigeneity in comics is an important, powerful force within our visual-verbal narrative arts writ large.

On the Wings of Time Sabine MacCormack, 2021-08-10 Historians have long recognized that the classical heritage of ancient Rome contributed to the development of a vibrant society in Spanish South America, but was the impact a one-way street? Although the Spanish destruction of the Incan empire changed the Andes forever, the civil society that did emerge was not the result of Andeans and Creoles passively absorbing the wisdom of ancient Rome. Rather, Sabine MacCormack proposes that civil society was born of the intellectual endeavors that commenced with the invasion itself, as the invaders sought to understand an array of cultures. Looking at the sixteenth- and seventeenth-century people who wrote about the Andean region that became Peru, MacCormack reveals how the lens of Rome had a profound influence on Spanish understanding of the Incan empire. Tracing the varied events that shaped Peru as a country, MacCormack shows how Roman and classical literature provided a framework for the construal of historical experience. She turns to issues vital to Latin American history, such as the role of language in conquest, the interpretation of civil war, and the founding of cities, to paint a dynamic picture of the genesis of renewed political life in the Andean region. Examining how missionaries, soldiers, native lords, and other writers employed classical concepts to forge new understandings of Peruvian society and history, the book offers a complete reassessment of the ways in which colonial Peru made the classical heritage uniquely its own.
