Verfallssymptome Deutschlands Michael Ghanem,2020-01-10 Deutschland schläft seit 14 Jahren. Dieser Schlaf wurde mehr oder weniger von der politischen Elite, namentlich Angela Merkel und den durch ihr Verhalten geprägten sozialen, ökonomischen und politischen Eliten zelebriert. Sie wurde als alternativlos gepriesen und es wurde ein Hype um sie gemacht. Sie hat dem Volk Valium verabreicht und die Probleme der Gesellschaft bewusst unter den Teppich gekehrt. Dies betrifft nicht nur die Person von Angela Merkel, sondern vor allem die gesamte Berliner Republik, die sich in eine Arche eingekapselt hat. Die Verfallssymptome Deutschlands lassen sich aus dem Ausland mehr denn je erkennen, und zwar in allen Bereichen. Die Zunahme von Gewalt, die Verfehlungen der Gesellschaft, die Schwächung von staatlichen Aufgaben, die Schwächung der inneren Sicherheit, eine falsch durchgeführte Globalisierung, die Angst um den Arbeitsplatz, die Vernachlässigung der Erziehung der Kinder, die Individualisierung der Gesellschaft führen dazu, dass diese Gesellschaft immer mehr zerfällt. All diese Verfallssymptome haben in den letzten 14 Jahren in erheblichem Maße zugenommen. In dem vorliegenden Buch werden alle Bereiche beschrieben, die diese Symptome aufweisen. Der Autor beabsichtigt damit nicht, Deutschland in ein schlechtes Licht zu stellen. Im Gegenteil: Er ist besorgt über den Zustand dieses Landes. Der Autor ist kein Besserwisser, der einfache Lösungen bieten kann. Er besinnt sich lediglich auf Grundsätze der Ethik und Moral zurück und versucht einen langwierigen und schmerzhaften Prozess zu beschreiben, mit dem die Verfallsprozesse gebremst und gestoppt werden. Auf die Herausforderungen durch technische Revolutionen und die unsichere weltweite geopolitische Lage ist die deutsche Gesellschaft nicht vorbereitet.

When Hitler Stole Pink Rabbit Judith Kerr,1997-11-10 Anna is not sure who Hitler is, but she sees his face on posters all over Berlin. Then one morning, Anna and her brother awake to find her father gone! Her mother explains that their father has had to leave and soon they will secretly join him. Anna just doesn't understand. Why do their parents keep insisting that Germany is no longer safe for Jews like them? Because of Hitler, Anna must leave everything behind. Based on the gripping real-life story of the author, this poignant backlist staple gets a brandnew look for a new generation of readers just in time for Holocaust Remembrance Month.

Billiards at Half-past Nine Heinrich Böll,1962 Three-generation story of a family of German architects who, in rebuilding their destroyed abbey, personify the alternate destruction and rebuilding of their country.

Dictionary of Philosophical Terms: English-German Elmar Waibl,Philip Herdina,1997 The dictionary contains some 20,000 technical terms, covering all areas of philosophy including topical and philosophically relevant terminology from related disciplines such as art, religion, psychology, natural sciences, economics, law, poli

The Hitler Book Fyodor Parparov,Igor Saleyev,Otto Günsche,Heinz Linge,2005-11-07 This eyewitness account was compiled for one man's eyes only: those of Josef Stalin. One of the first biographies of Adolf Hitler, it derives from the testimony of his two closest assistants, interrogated at the Soviet leader's command, in order to understand the psychology of his greatest enemy - and to be certain that he was dead.--BOOK JACKET.

The Sleepwalkers Hermann Broch,2023-02-15 First published in the US in 1932, *The Sleepwalkers* is about three protagonists sleepwalking, that is, living between vanishing and emerging ethical systems just as the somnambulist exists in a state between sleeping

and waking. Together they present a panorama of German society and its progressive deterioration of values that culminated in defeat and collapse at the end of World War I. The novel explores what Broch described as the loneliness of the I in its three parts. The protagonists of the first two parts of the book are represented as holding to certain sets of values. Broch describes the struggles they undergo as their codes for living, or values, prove inadequate to the realities of the social environment they find themselves in. Joachim von Pasenow in the first part is the romantic. In the second part, August Esch tries to live according to the motto business is business. Eventually, in the third part, the amoral Huguenau's only standard for behavior is his personal profit. He follows this maxim in all his actions, swindling and murdering without remorse. Ultimately, he reaches a point of zero values without remorse and his dealings bring him finally to the zero point of values. Although Broch doesn't hold Huguenau up as someone to admire, he does present him as the inevitable harbinger of fascism. As one reviewer noted, His characters are sleepwalkers because their own lives are shaped by the forces of the nightmare reality in which they live.

The Development of Autobiographical Memory Hans J. Markowitsch, Harald Welzer, 2009-10-28 Autobiographical memory constitutes an essential part of our personality, giving us the ability to distinguish ourselves as an individual with a past, present and future. This book reveals how the development of a conscious self, an integrated personality and an autobiographical memory are all intertwined, highlighting the parallel development of the brain, memory and personality. Focusing strongly on developmental aspects of memory and integrating evolutionary and anthropological perspectives, areas of discussion include: why non-human animals lack autobiographical memory development of the speech areas in the brain prenatal and transnatal development of memory autobiographical memory in young children. This book offers a unique approach through combining both neuroscientific and social scientific viewpoints, and as such will be of great interest to all those wanting to broaden their knowledge of the development and acquisition of memory and the conscious self.

SS Peiper Charles Whiting, 2012 On the night of 14 July, 1976 - Bastille Day - an elderly German was brutally murdered in a little French village where he had taken refuge from the evil shadow which had dogged him for the past thirty-two years. His killers were never brought to justice; indeed, no real attempt was ever made to track them down, the affair being politically embarrassing to both the French and the German governments. The murdered man was Jochen Peiper, once the dashing leader of one of the most renowned units in the German Army. The shadow which hung over him was his alleged complicity in the murder of over seventy unarmed American soldiers during the Ardennes offensive in the winter of 1944/45. It is certain that Peiper was not at the fateful crossroads near Malmédy at the time the men died, but that is not to say that they were not killed on his orders. Guilty or not, Peiper was tried and imprisoned after the war and on his release might have been said to have paid his debt for his supposed part in what had become known as the Malmédy Massacre. But there were those who thought otherwise. After exhaustive research, this classic work sees Charles Whiting tell the story of this enigmatic man, regarded by some as a brilliant and dashing leader of men, by others as a Nazi war criminal, with the vividness and punch which characterized Peiper's military career. All the facts may never be uncovered but all that are known are recorded here. What is certain is that Jochen Peiper remains one of the most controversial military figures to emerge from the maelstrom of the Second World War.--Publisher description.

Harmloses, Bitte Erica Pedretti, 1970

The Red Lion Mária Szepes, 1997 The harrowing adventures of a 16th century alchemist's apprentice who murders his master to possess a potion rumoured to confer immortality.

When We Get to the End-- Per Krogh Hansen, Marianne Wolff Lundholt, 2005 The

foundation of the modern science of narrative texts-narratology-has, to a great extent, been the folktale and the fairy tale. This book directs the narratological focus towards another tale-genre, namely the literary imitation of the traditional tale known as the art Märchen in its undoubtedly most famous expression, the stories of the Danish author Hans Christian Andersen. This volume provides for new readings of Andersen's stories and throws new light on narratology through the exploration of his highly complex tales.

The Decline of the West Oswald Spengler, Arthur Helps, Charles Francis Atkinson, 1991 Spengler's work describes how we have entered into a centuries-long world-historical phase comparable to late antiquity, and his controversial ideas spark debate over the meaning of historiography.

On Cosmogonic Eros Ludwig Klages, 2023-06-25 Ludwig Klages' 1922 book, *On Cosmogonic Eros (Vom kosmogonischen Eros)*, delves into the realms of mythology, the esotericism of ancient mystery cults, and the science of consciousness to construct a profound metaphysics of life. At its core, Klages presents Eros as an Eros of distance, from which springs forth the essence of ecstasy and de-selfing. This intriguing concept suggests that experiencing separation and distance can lead to extraordinary states of transcendent bliss and a dissolution of the self. Furthermore, Klages argues that this ecstatic experience serves as the foundation for the emergence of symbolism, the cult of the dead, ancestor worship, as well as the creation of original poetry and art. Klages' work offers a concise and engaging exploration of these key concepts, intertwining mythology, esoteric knowledge, and the study of consciousness to illuminate the enigmatic nature of life and the transformative power of Eros.

Lexical Creativity, Texts and Contexts Judith Munat, 2007-11-06 The coining of novel lexical items and the creative manipulation of existing words and expressions is heavily dependent on contextual factors, including the semantic, stylistic, textual and social environments in which they occur. The twelve specialists contributing to this collection aim to illuminate creativity in word formation with respect to functional discourse roles, but also examine 'critical creativity' determined by language policy, as well as diachronic phonetic variation in creatively-coined words. The data, based either on large corpora or smaller hand-collected samples, is drawn from advertising, the daily press, electronic communication, literature, spoken interaction, cartoons, lexical ontologies and style guides. The coining of novel lexical items and the creative manipulation of existing words and expressions is heavily dependent on contextual factors, including the semantic, stylistic, textual and social environments in which they occur. The twelve specialists contributing to this collection aim to illuminate creativity in word formation with respect to functional discourse roles, but also examine 'critical creativity' determined by language policy, as well as diachronic phonetic variation in creatively-coined words. The data, based either on large corpora or smaller hand-collected samples, is drawn from advertising, the daily press, electronic communication, literature, spoken interaction, cartoons, lexical ontologies and style guides. Each study analyses novel formations in relation to their contexts of use and inevitably leads to the crucial question of creativity vs. productivity. By focussing on creative lexical formations at the level of parole, these studies provide insights into morphological theory at the level of langue, and ultimately seek to explain lexical creativity as a function of language use.

The Problem of Atheism Augusto Del Noce, 2022-01-05 In 1964, Augusto Del Noce

assembled in a book some of his best works on Marxism, atheism, and the history of modern philosophy. The result was *Il problema dell'ateismo*, which he always regarded as foundational to his way of thinking. The book remains his best-known work and is still in print in Italy almost sixty years later. *The Problem of Atheism* offers the first English translation of this landmark book, one of the earliest works to recognize the new secularizing trends in Western culture following World War II. Del Noce situates atheism historically, reconstructing its philosophical trajectory through European modernity. Documenting the author's entire intellectual experience, these essays explore the birth of modern philosophy, reckon with the great European crisis of 1917 to 1945 and the Cold War that followed, and mine the opposition between Marxism and the rise of the affluent society. The result is rich with premonitions of the cultural landscape that would take shape throughout the 1960s and the decades that followed. Proving its English translation to be long overdue, *The Problem of Atheism* remains relevant to contemporary debates about secularization, political theology, and modernity.
