Lighthouse Designs for Quilters Pat Aho,2006-01-01 Twelve Maine lighthouses inspired the quilt block designs in this collection, mostly done in hand applique. The author includes interesting short histories of the lights along with her always lucid, simple directions and diagrams for making the blocks. She also includes a variety of attractive nautical-related quilting patterns for the final stitching, and provides directions for ways to use the quilt blocks on smaller projects as alternatives to combining them into a quilt.

Hudson River Lighthouses Hudson River Maritime Museum,2019-06-17 Lighthouses were built on the Hudson River in New York between 1826 to 1921 to help guide freight and passenger traffic. One of the most famous was the iconic Statue of Liberty. This fascinating history with photos will bring the time of traffic along the river alive. Set against the backdrop of purple mountains, lush hillsides, and tidal wetlands, the lighthouses of the Hudson River were built between 1826 and 1921 to improve

navigational safety on a river teeming with freight and passenger traffic. Unlike the towering beacons of the seacoasts, these river lighthouses were architecturally diverse, ranging from short conical towers to elaborate Victorian houses. Operated by men and women who at times risked and lost their lives in service of safe navigation, these beacons have overseen more than a century of extraordinary technological and social change. Of the dozens of historic lighthouses and beacons that once dotted the Hudson River, just eight remain, including the iconic Statue of Liberty, New York Harbor's great monument to freedom and immigration, which served as an official lighthouse between 1886 and 1902. Hudson River Lighthouses invites readers to explore these unique icons and their fascinating stories.

Pennsylvania Lighthouses on Lake Erie Eugene H. Ware, 2016
Four lighthouses remain in Pennsylvania, and Lake Erie is home to three. In 1818, Old Presque Isle Light became the first United States lighthouse built on the lake's shore. But a need for even more navigational assistance gave birth to the North Pierhead Lighthouse forty years later. The Presque Isle Light Station first shined on Lake Erie in July 1873. Thanks to the guidance from

these landmarks, Erie's port is one of the busiest in the Great Lakes. Author Eugene Ware offers an edifying history of Erie Harbor lights.

Making Working Wooden Locks Tim Detweiler,2000 This guide to creating fully functional, working locks from wood includes step-by-step instructions, color photos, measured drawings, and advice on wood selection, tools, and finishing. Techniques for creating five different locks, including a combination lock, are also included. Here is a book for all woodworkers who enjoy making moving, mechanically oriented objects such as puzzles, games, gears, and motors.

Pyrography Patterns Sue Walters,2014-02-01 This is a crossover title for both woodworking and art subject areas. It is popularly priced, and focused on a popular topic. Heritage and Identity J.M. Fladmark, Thor

Heyerdahl, 2015-11-17 Was the shaping of nation states in Northern Europe governed by military might, or by Christian and democratic ideals? How has trade and cross-cultural exchange between Scandinavia and the British Isles shaped our historic identities, and what about the impact of global politics and marketing in recent times? These are some of the questions explored by the contributors in the context of forces that shape national identities today. Their analysis highlights the need for historical awareness when developing future cultural policy, brand profiles and marketing strategies. Looking back, Jesse Byock tells how democracy was first embraced in the north by the early settlers of Iceland, Bjorn Myhre delves into the unpredictability of historical interpretation, Edward Cowan discusses the role of 'battles and beddings' in relations across the North Sea, John Purkis writes about William Morris' fascination with Nordic culture, Stephen Harrison presents the 'winning ways' of product development and marketing by Manx National Heritage, whilst Chris Powell looks at 'Cool Britannia' today and Simon Anholt at national branding strategies. This is an inspirational book that sheds new light on old subjects, equally relevant for both public and private sector policy makers alike.
