*Animals at the End of the World* Gloria Susana Esquivel, 2020-03-17 *Animals at the End of the World* begins with an explosion, which six-year-old Inés mistakes for the end of the world that she has long feared. In the midst of the chaos, she meets the maid's granddaughter, Mariá, who becomes her best friend and with whom she navigates the adult world in her grandparents' confined house. Together, they escape the house and confront the "animals" that populate Bogotá in the 1980s. But Inés soon realizes she cannot count on either Mariá or her preoccupied and conflicted parents. Alone, she must learn to decipher her outer and inner worlds, confronting both armies of beasts and episodes of domestic chaos. In the process, she also learns what it means to test boundaries, break rules, and cope with the consequences. The first novel by Colombian author Gloria Susana Esquivel, *Animals at the End of the World* is a poetic and moving coming-of-age story that lingers long after its final page.

Equatoria Richard Price, Sally Price, 2018-10-24 A postmodern romp through the rain forest, *Equatoria* is both travelogue and cultural critique. On the right-hand pages, the Prices chronicle their 1990 artifact-collecting expedition up the rivers of French Guiana, and on the left, stage an accompanying sideshow that enlists the help of Jonathan Swift, Joseph Conrad, Gabriel Garcia-Marquez, Alex Haley, James Clifford, Eric Hobsbawn, Germaine Greer, and even the noted anthropologist James Goodfellow. Charged with acquiring objects for a new museum, the Prices kept a log of their day-to-day adventures and misadventures, constantly confronting their ambivalence about the act of collecting, the very possibility of exhibiting cultures and the future of anthropology. Probing the nature of museums, collecting, and power relations between us and them, the Prices raise many troubling questions.

By examining the changing nature of anthropological knowledge and of the production of that knowledge, this book challenges the notion that only western societies have produced social theories of modernity and of global scope. Knowledge of society can no longer be restricted to a knowledge of face-to-face social relations but must encompass the effect of technology, global consumption patterns and changing geo-political configurations. The Future of Anthropological Knowledge will be of interest to anthropologists and students of culture and society.
