Choosing Courage Jim Detert,2021-05-18 An inspirational, practical, and research-based guide for standing up and speaking out skillfully at work. Have you ever wanted to disagree with your boss? Speak up about your company's lack of diversity or unequal pay practices? Make a tough decision you knew would be unpopular? We all have opportunities to be courageous at work. But since courage requires risk—to our reputations, our social standing, and, in some cases, our jobs—we often fail to act, which leaves us feeling powerless and regretful for not doing what we know is right. There's a better way to handle these crucial moments—and Choosing Courage provides the moral imperative and research-based tactics to help you become more competently courageous at work. Doing for courage what Angela Duckworth has done for grit and Brene Brown for vulnerability, Jim Detert, the world's foremost expert on workplace courage, explains that courage isn't a character trait that only a few possess; it's a virtue developed through practice. And with the right attitude and approach, you can learn to hone it like any other skill and incorporate it into your everyday life. Full of stories of ordinary people who've acted courageously, Choosing Courage will give you a fresh perspective on the power of voicing your authentic ideas and opinions. Whether you're looking to make a mark, stay true to your values, act with more integrity, or simply grow as a professional, this is the guide you need to achieve greater impact at work.

Bring Me Home Cassia Leo,2015-03-12 Sometimes, letting someone go is the ultimate act of love.Claire has a past full of secrets and heartbreak. Rescued from the edge years ago by Chris, her first love, she put her fears aside and forced him to leave town to pursue his music dreams. They had no idea it would be the biggest mistake of their lives. After a year apart and thousands of miles between them, sexy Adam Parker burst into Claire's life with his awful jokes and profound patience and gradually fixed her shattered heart. Things haven't been easy, but they might just have a future together. But now Chris has returned and he is willing and determined to make Claire's dreams come true - the same way she did when she let him go. With Adam's former girlfriend in the picture, Claire finds herself torn. Both men own a piece of her heart, and one of them will get hurt no matter what she decides... Master Your Raspberry Pi in 30 Days Patrick Fromaget,2020-04-23 From beginner to expert in Raspberry Pi. Learn useful Linux skills and practice multiples project with step-by-step guides How To Become A Raspberry Pi Expert Even If You Are Not Already A Linux Guru? The Raspberry Pi is a device that can scare many people when they are new to this. How can a cheap electronic circuit with a mysterious operating system be a good idea for me? Yes, the Raspberry Pi is a small computer (close to a credit card size) that runs mostly on Linux and that can be plugged to a standard screen, mouse and keyboard. So, this is probably a little different from what you're used to. That's why it may be difficult or at least not motivating to get started on Raspberry Pi. But don't worry, with this book you will get everything you need for a good start, whatever your current level is. About the author Patrick Fromaget graduated from higher school in computer science. He started as a web developer, before specializing in system administration. He has always been passionate about IT and has managed Linux servers for over 15 years. In 2018, he launched the RaspberryTips.com website to share his passion for the Raspberry Pi and help other people to progress. More than 100 tutorials have been written on the site, on various subjects. From the start, the site has enjoyed growing success and a YouTube channel was also launched on the subject in 2020, to help the most visual. What is inside the book? This book is a challenge you take, to lead you from the beginning towards mastering the Raspberry Pi device. The course is divided into 30 steps. The idea is to make one little step a day to be an expert in 30 days. In each step you discover a new concept, go through the details and then go to practice. Each day is a new, progressive step towards your goal. In the beginning you learn more about the hardware, then you will learn how to use the operating system (Raspbian). The second part of the book is more about step-by-step projects, programming, and other operating systems and software. So, it's really a book for all audiences: - If you don't know anything yet, you can read the book in order - If you already have bases on Raspberry Pi or Linux, some chapters can be browsed quickly - And even if you already have a correct level, you will inevitably find information there to go even further Ready to take off? Linux is a skill in great demand in business, and learning it on a different computer is the best way to learn it. The Raspberry Pi was created to teach IT and programming in schools, and it's never too late to learn. To go through this learning process, you need a companion, and you have found it here. This book is a must-have for anyone who wants to improve its skills on Raspberry Pi and Linux in general. Buy it today to become a Raspberry Pi expert in 30 days!
