Forever After Teachers College Press, 2006 *Forever After* presents the untold stories of what happened in New York City schools on September 11, 2001. These moving, first-hand accounts reveal the amazing wisdom and courage of public school teachers and administrators who cared for and protected the children in schools near the World Trade Center and around the City. The inspiring stories in this beautiful collection bring into clear focus the enormous responsibility that teachers and administrators face every day and the crucial role they play in helping students make sense of the world, especially after terrifying and incomprehensible events like 9/11. Maxine Greene and Michelle Fine, eminent educators, also offer their views on what happened that day and its impact on the lives of teachers and the inner workings of our schools. "I recommend this book to all parents and teachers." —Deborah Meier, New York University "If ever a horror confirms our understanding that learning is mediated by love, surely this is it . . . this book is not to be missed." —Thomas Sobol, Christian A. Johnson Professor of Outstanding Educational Practice, Teachers College, Columbia University "After reading the stories chronicled in *Forever After*, I am confident that you will change the way that you define 'heroism'!" —William H. Schubert, Professor Emeritus, University of Illinois at Chicago

Inside Ocean Hill Brownsville Charles S. Isaacs, 2014-05-09 The story of an Ocean Hill Brownsville teacher who crossed picket lines during the racially charged New York City teachers' strike of 1968. In 1968 the conflict that erupted over community control of the New York City public schools was centered in the black and Puerto Rican community of Ocean Hill Brownsville. It triggered what remains the longest teachers' strike in US history. That clash, between the city's communities of color and the white, predominantly Jewish teachers' union, paralyzed the nation's largest school system, undermined the city's economy, and heightened racial tensions, ultimately transforming the national conversation about race relations. At age twenty-two, when the strike was imminent, Charles S. Isaacs abandoned his full scholarship to a prestigious law school to teach mathematics in Ocean Hill Brownsville. Despite his Jewish background and pro-union leanings, Isaacs crossed picket lines manned by teachers who looked like him, and took the side of parents and children who did not. He now tells the story of this conflict, not only from inside the experimental, community-controlled Ocean Hill Brownsville district, its focal point, but from within ground zero itself: Junior High School 271, which became the nation's most famous, or infamous, public school. Isaacs brings to life the innovative teaching practices that community control made possible, and the relationships that developed in the district among its white teachers and its black and Puerto Rican parents, teachers, and community activists. Inside Ocean Hill Brownsville is one of the finest accounts of this turbulent time in America's educational history. As a firsthand analysis of a teacher embroiled in the Ocean Hill Brownsville community fight for educational justice, it has no peer. From its vantage point forty-five years after the conflict, we finally have a corrective to a plethora of secondhand analyses that have been written over the years. It is a candid picture that I recommend highly. Inside Ocean Hill Brownsville makes a vital contribution to a much-needed reinterpretation of the epochal struggles over community control of the New York City public schools in the 1960s, and the divisive UFT fall 1968 strikes in opposition to that community-based movement. Writing from the firsthand perspective of a young Jewish math teacher at JHS 271, Isaacs brings this important story vividly to life with insight, candor, and humor. He evokes the attitudes and actions of a rich array of ordinary teachers, administrators, students, and parents who fought to defend the community-

control experiment in the face of the lies and distortions perpetrated by UFT officials and the mainstream press. A must read for anyone interested in creating successful public schools, this book helps us remember what democratic public education might look like. □ □ Stephen Brier, The Graduate Center, City University of New York □ Charles Isaacs □ Inside Ocean Hill □ Brownsville is a firsthand account of the dramatic events of New York City □ s greatest school crisis. Isaacs debunks many of the popular myths of black militants waging assaults on teachers. Instead, he demonstrates that the episode in Ocean Hill □ Brownsville was a case of black and Latino parents, with the support of a number of teachers at JHS 271, struggling for the education of their children and for a more democratically run educational system. These parents faced one of the most powerful unions in the city and a bureaucratic board of education that wanted to protect the status quo. There have been many books written on the 1968 teachers □ strike, but Isaacs □ s well-written, detailed account is by far the best. □ □ Clarence Taylor, author of *Knocking at Our Own Door: Milton A. Galamison and the Struggle to Integrate New York City Schools*

The Secret Lives of Teachers Anonymous,2015-09-11 Welcome to “East Hudson,” an elite private school in New York where the students are attentive, the colleagues are supportive, and the tuition would make the average person choke on its string of zeroes. You might think a teacher here would have little in common with most other teachers in America, but as this veteran educator—writing anonymously—shows in this refreshingly honest account, all teachers are bound by a common thread. Stripped of most economic obstacles and freed up by anonymity, he is able to tell a deeper story about the universal conditions, anxieties, foibles, generosityes, hopes, and complaints that comprise every teacher’s life. The results are sometimes funny, sometimes scandalous, but always recognizable to anyone who has ever walked into a classroom, closed the door, and started their day. This is not a how-to manual. Rather, the author explores the dimensions of teaching that no one else has, those private thoughts few would dare put into a book but that form an important part of the day-to-day experience of a teacher. We see him ponder the clothes that people wear, think frankly about money (and the imbalance of its distribution), get wrangled by parents, provide on-the-fly psychotherapy, drape niceties over conversations that are actually all-out warfare, drop an f-bomb or two, and deal with students who are just plain unlikeable. We also see him envy, admire, fear, and hope; we see him in adulation and uncertainty, and in energy and exhaustion. We see him as teachers really are: human beings with a complex, rewarding, and very important job. There has been no shortage of commentary on the teaching profession over the decades, but none quite like this. Unflinching, wry, and at times laugh-out-loud funny, it’s written for every teacher out there who has ever scrambled, smirked, or sighed—and toughed it out nonetheless.

The Math Teacher's Toolbox Bobson Wong,Larisa Bukalov,2020-04-28 Math teachers will find the classroom-tested lessons and strategies in this book to be accessible and easily implemented in the classroom The Teacher’s Toolbox series is an innovative, research-based resource providing teachers with instructional strategies for students of all levels and abilities. Each book in the collection focuses on a specific content area. Clear, concise guidance enables teachers to quickly integrate low-prep, high-value lessons and

strategies in their middle school and high school classrooms. Every strategy follows a practical, how-to format established by the series editors. The Math Teacher's Toolbox contains hundreds of student-friendly classroom lessons and teaching strategies. Clear and concise chapters, fully aligned to Common Core math standards, cover the underlying research, required technology, practical classroom use, and modification of each high-value lesson and strategy. This book employs a hands-on approach to help educators quickly learn and apply proven methods and techniques in their mathematics courses. Topics range from the planning of units, lessons, tests, and homework to conducting formative assessments, differentiating instruction, motivating students, dealing with "math anxiety," and culturally responsive teaching. Easy-to-read content shows how and why math should be taught as a language and how to make connections across mathematical units. Designed to reduce instructor preparation time and increase student engagement and comprehension, this book: Explains the usefulness, application, and potential drawbacks of each instructional strategy Provides fresh activities for all classrooms Helps math teachers work with ELLs, advanced students, and students with learning differences Offers real-world guidance for working with parents, guardians, and co-teachers

The Math Teacher's Toolbox: Hundreds of Practical ideas to Support Your Students is an invaluable source of real-world lessons, strategies, and techniques for general education teachers and math specialists, as well as resource specialists/special education teachers, elementary and secondary educators, and teacher educators.

Research Methods for the Self-Study of Practice Deborah Tidwell, Melissa Heston, Linda Fitzgerald, 2009-06-12 This is a book designed with the teacher educator in mind. It provides in depth examination of specific methods used effectively in self-study research. The chapters are written by researchers engaged in self-study of their practice.

The Discipline of Hope (Large Print 16pt) Herbert Kohl, 2010-10 The first paperback edition of the master educator's insights from four decades in the classroom. The Discipline of Hope chronicles veteran educator Herb Kohl's love affair with teaching since his first encounter forty years ago, chronicled in his now-classic *36 Children*. Beginning with his years in New York public schools and continuing throughout his four decades of working with students from kindergarten through college across the country, Kohl has been an ardent advocate of the notion that every student can learn and every teacher must find creative ways to facilitate that learning. In *The Discipline of Hope* he distills the major lessons of an attentive lifetime in the classroom.

The Education We Need for a Future We Can't Predict Thomas Hatch, Jordan Corson, Sarah Gerth van den Berg, 2021-01-16 Improve Schools and Transform Education In order for educational systems to change, we must reevaluate deep-seated beliefs about learning, teaching, schooling, and race that perpetuate inequitable opportunities and outcomes. Hatch, Corson, and Gerth van den Berg challenge the narrative when it comes to the grammar of schooling--or the conventional structures, practices, and beliefs that define educational experiences for so many children—to cast a new vision of what school could be. The book addresses current systemic problems and solutions as it: Highlights global examples of successful school change Describes strategies that improve educational

opportunities and performance Explores promising approaches in developing new learning opportunities Outlines conditions for supporting wide-scale educational improvement This provocative book approaches education reform by highlighting what works, while also demonstrating what can be accomplished if we redefine conventional schools. We can make the schools we have more efficient, more effective, and more equitable, all while creating powerful opportunities to support all aspects of students' development. You won't find a better book on system change in education than this one. We learn why schools don't change; how they can improve; what it takes to change a system; and, in the final analysis, the possibilities of system change. Above all, *The Education We Need* renders complexity into clarity as the writing is so clear and compelling. A powerful read on a topic of utmost importance. ~Michael Fullan, Professor Emeritus, OISE/Universtiy of Toronto I cannot recommend this book highly enough - Tom tackles long-standing and emerging educational issues in new ways with an impressive understanding of the challenging complexities, but also feasible possibilities, for ensuring excellence and equity for all students. ~Carol Campbell, Associate Professor, Ontario Institute for Studies in Education, University of Toronto
