This made him one of the most popular local rap artists in Miami. He called himself Pitbull and explained how he and the dog were alike: They bite to lock. The dog is too stupid to lose. And they're outlawed in Dade County. They're basically everything that I am. It's been a constant fight.

Getting My Bounce Back Carolee Belkin Walker,2018-02-13 A middle-aged author shares her fitness journey, showing readers how to make time to exercise, get inspired to get fit, and be more confident and happier. You don't have to run a marathon to be fit and healthy, or suffer through a triathlon that includes a half-mile swim in the ocean. But you do need an exercise habit. Especially as we age, exercise is not optional. Yet unless we had been athletes as kids or young adults, and few of us were, we do not know how to find our edge. Learning how to carve out time to meet our fitness needs or to push ourselves physically and mentally is one of the greatest challenges to aging well. Inspired by her popular blog "Be the Dog," Carolee Belkin Walker shares her story of what it's like to be a successful professional woman encountering all things fitness for the first time. Even if readers have never put on a pair of running shoes or repeatedly tried to develop a fitness habit, they'll relate to the highs and lows of Carolee's journey from the back of the pack to stumbling on a path to resilience and well-being. You could fit two Carolees inside what her body looked like in February 2014. But it is the powerful sense of confidence and resilience that's had the greatest impact on her and inspires others. This book is about her digging in, discovering who she is, and seeing how far she can push herself to be strong, fit, healthy, and most important, resilient. Carolee's writing is full of humorous situations as she decides to be an active participant in life and not take the setbacks, or herself, too seriously. Praise for *Getting My Bounce Back* "An autobiographical account of achieving physical fitness in middle age . . . An upbeat, accessible account of one woman's decision to make her body stronger and her life healthier." —Kirkus Reviews "Most books and publications just show the end result, as if we magically appear at the peak of fitness and ideal look, but Carolee allows us to peek into her inner mind, showing us that there is a journey behind those photos . . . For anyone who has ever wondered why everyone else made it seem so easy, this book is for you." —Tina Muir, elite runner and host of the Running for Real podcast

Socio-Cultural Mobility and Mega-Events Rodanthi Tzanelli,2015-04-10 In June 2014, Brazil opened the twentieth FIFA World Cup with a spectacular ceremony. Hosting the World Cup was a strategic developmental priority for Brazil: mega-events such as these allow the country to be ranked amongst the world's political and economic leaders, and are supposed to propel the country to its own unique modernity. But alongside the increased media attention and publicity, came accusations of governmental 'corruption' and overspending. In *Socio-Cultural Mobility and Mega-Events*, Tzanelli uses Brazil's 2014 World Cup to explore how mega-events articulate socio-cultural problems. Critically examining the aesthetics and ethics of mobilities in the mega-event, this book explores these socio-cultural issues and controversies: the background of staging mega-events, including the bidding process and the host's expectations for returns; ceremonial staging and communications between artistic representations and national symbolism; the clear reaction mega-events almost always generate in national, regional and global activist circles, including accusations of overspending and human rights violations. This interdisciplinary study will appeal to scholars and students of the sociology of mobility, sociology of globalisation, cultural sociology, social and anthropological theory, as well as the sociology of sport, human and cultural geography, and leisure and tourism studies.

Globalization Carla Mooney,2018-05-01 Have you noticed that our planet is becoming increasingly connected? At the supermarket, you can buy food from all around the world, including olive oil from Greece, cheese from France, and coffee from South America. At home, you surf the Internet on a computer made in Asia, reading news from many different countries. Your parents might drive a car made in America, Japan, or Germany while you listen to music from American and Canadian pop stars on the radio. In *Globalization: Why We Care About Faraway Events*, kids ages 12 to 15 focus on the definition of globalization, how technology drives globalization, and how globalization affects economies, political systems, human rights, and cultures around the world. The book also explores the future of globalization and discusses issues the global community might face in coming years. For centuries, people from different societies and cultures have made contact with each other and exchanged goods and ideas. Globalization is not a new thing, but in recent years, advances in transportation and technology have made it easier than ever to connect with people everywhere, whether they are sitting next to you on a bus, waiting for you at home, or sitting on a different bus halfway around the globe. Jet airplanes and great ocean ships carry people and goods everywhere in the world. Cell phones, computers, the Internet, and social media allow people to communicate instantly, no matter where they are. Through globalization, the world is becoming more interconnected and interdependent. Is globalization a good thing? Does globalization benefit all world citizens, rich and poor? Or does it only benefit a few, while harming others? In this civics book, middle grade students are encouraged to think critically about how globalization affects local and global communities. *Globalization: Why We Care About Faraway Events* teaches students about a crucial topic in a fact-based way that promotes empowerment and understanding. Investigations and hands-on experiments provide students with problem-solving opportunities that help students determine the right balance between the

benefits and costs associated with globalization. Projects such as tracking the origins of different objects and devices you might find at home lead readers through an inquiry-based, open-ended investigation with plenty of room to explore individual creativity.

Race and Cultural Practice in Popular Culture Domino Renee Perez, Rachel González-Martin, 2018-10-17 Race and Cultural Practice in Popular Culture is an innovative work that freshly approaches the concept of race as a social factor made concrete in popular forms, such as film, television, and music. The essays collectively push past the reaffirmation of static conceptions of identity, authenticity, or conventional interpretations of stereotypes and bridge the intertextual gap between theories of community enactment and cultural representation. The book also draws together and melds otherwise isolated academic theories and methodologies in order to focus on race as an ideological reality and a process that continues to impact lives despite allegations that we live in a post-racial America. The collection is separated into three parts: Visualizing Race (Representational Media), Sounding Race (Soundscape), and Racialization in Place (Theory), each of which considers visual, audio, and geographic sites of racial representations respectively.

A New America Tommy Mottola, 2016-11-01 The long-anticipated companion book to the groundbreaking HBO documentary The Latin Explosion by renowned music producer Tommy Mottola. Legendary music mogul, entertainment impresario, and New York Times bestselling author Tommy Mottola explores and expounds on his lifelong love of Latin music, its influence on his life and career, and its ever-growing influence in America. Tommy Mottola discovered a passion for Latin music when he was a small child on the streets of the Bronx, where he fell in love with the energy and rhythm of the legendary Tito Puente. It is a love he carries with him to this day. In A New America, Mottola explores the societal and cultural impact the Latino community and its music has had on America by sharing behind-the-scenes stories from his own life and his connection to the Latin sound throughout the decades—from his initial fascination with Latin music, which started with Puente, to the mainstream success of Ritchie Valens, to the groove-laden guitar wizardry of Carlos Santana. Along the way, Mottola reveals heartfelt accounts of his longtime collaboration and friendship with Gloria Estefan and her husband, Emilio, the meteoric rise and tragic end of Selena, and his orchestration of the Latin Explosion of the 1990s, which launched megastars such as Marc Anthony, Ricky Martin, Shakira, and Jennifer Lopez. But A New America is more than a story about music and musicians. It is the story of a culture that continues to grow and influence America in all its aspects and an irresistible sound that continues to move and inspire the nation.

A Guided Inquiry Approach to Teaching the Humanities Research Project Randell K. Schmidt, Emilia N. Giordano, Geoffrey M. Schmidt, 2015-08-26 Aligned with the Common Core, this book enables teachers and librarians to develop lessons and workshops as well as to teach high school students how to research and write a humanities paper using a guided inquiry approach. Being able to use the inquiry process to successfully research, write, and prepare papers and other types of presentations is not only necessary for a student's preparation for collegiate work, but is truly a requisite life skill. This book provides a solid guided inquiry curriculum for cultivating the skills needed to properly investigate a subject in the humanities, interrogate both textual and non-textual sources, interpret the information, develop an understanding of the topic, and effectively communicate one's findings. It is a powerful and practical guide for high school humanities teachers, school librarians, community college humanities teachers and librarians, and early college-level humanities instructors as well as for high school and college students who want to learn how to conduct and write up humanities research. Part one comprises a teacher's practicum that explains the power of guided inquiry. Part two contains student's workshops with instructions and materials to conduct a guided humanities project and paper on the high school level. The third part provides materials for a professional development session for this assignment as well as assessment tools and other supplementary materials such as student handouts. Based on the authors' 15 years' experience in teaching guided inquiry, the 20 workshops in the book use a step-by-step, constructivist strategy for teaching a sophisticated humanities project that enables college readiness.

Bossa Mundo K. E. Goldschmitt, 2019-10 Bossa mundo: Brazilian music in transnational media industries focuses on watershed moments of musical breakthrough across the world over more than a half century—from bossa nova in the 1960s through to the streaming music era. Reexamining the political

meaning of mass-mediated music, author K.E. Goldschmitt demonstrates that the mediation of Brazilian music in an increasingly crowded transnational marketplace has lasting consequences for Brazilian creative output. Featuring interviews with key figures in the transnational circulation of Brazilian music, and discussions of well-known musicians and artists who redefine what it means to be a Brazilian musician in the twenty-first century, *Bossa mundo* shows the pernicious effects of branding diversity on musicians and audiences alike.--Page [4] of cover.
