

School Nurse Day Acrostic Poem

Jeanne Bryner, Cortney Davis

Meet the School Nurse Elizabeth Vogel,2001-12-30 Describes the typical day of a school nurse.

Angels in Disguise Dolores H. McNany, EdD, MA, RN, NJSCSN,2011-07-26 School nurses serve on the front lines of the everyday struggle for our children's health, yet they are often perceived as little more than glorified dispensers of bandages. This false perception, held by many parents, officials, and administrators, does a serious disservice to this dedicated group of health professionals. *Angels in Disguise* tells the oral history of school nursing through the eyes, ears, and hearts of school nurses serving throughout the United States. By sharing their personal experiences, these nurses illustrate their love and compassion and throw the doors wide open on this often-undervalued profession, enabling readers to see into their world and understand how much they truly care for the children they treat. This collection of heartwarming stories offers unique insight into the daily responsibilities and duties of school nurses and serves to raise public awareness of the dedication, leadership, and exemplary pediatric health care provided by the devoted women and men who care for America's schoolchildren. The sophisticated medical health care required in schools today can only be delivered by qualified professional school personnel, and that challenge is met by having a school nurse in every school facility.

School Nursing Janice Selekman,2006 The only text endorsed by the National Association of School Nurses (NASN), the recognized authority on school-age children and school health issues! NASN's core purpose is to advance the delivery of professional school health services to promote optimal health and learning in students. NASN has over 12,000 members and 51 Affiliate School Nurse Organizations. Experts in the field describe evidence-based, best practices for the care of children while in school, and the role of the school nurse as a vital link in the clinical management of child healthcare. Their common sense, practical approach can be applied to a diversity of school situations across the country. - Highlights the role of the school nurse in coordinating a comprehensive school health program. - Addresses the best practices for child healthcare at school. - Takes a common sense, practical approach that can be applied to schools everywhere. - Written by school nurse and pediatric experts, who provide evidence-based research and policy statements.
