Car Stereo Cookbook Mark Rumreich,2005-05-21 The first edition of this book was written six years ago. Since then, there have been some significant developments in the area of car audio (and video). In addition, many of the products featured in the first edition are now obsolete. While the first edition of the book continues to sell, we have seen a bit of a slow-down at major accounts. This edition promises to be even more successful than the last. Car Stereo Cookbook, 2e is a completely revamped edition of a hugely successful title that continues to sell. This revised book will include new information on mobile video, satellite radio, mp3, wma, digital broadcast radio, and will eliminate the out-of-date products that are no longer pertinent.

Serving Their Communities Stephen Warley, 2005 The New York State Broadcasters Association was founded in 1955 with a mission to provide radio and television broadcasters a stronger voice in government--and in the shaping of policies affecting media. This book chronicles in detail the history--and impact--of one of the nation's most influential media organizations. Representing television and radio broadcasting in the largest market in the country, NYSBA has helped set a national political agenda, just as it has worked for smaller stations and markets throughout the state. Stephen Warley tracks the way the Association has responded to a host of important issues--technological, economic, political, legal, and cultural--as it serves not only the profession but also the larger public interest in effective media access during an era of rapid consolidation. He also includes personal accounts from almost one hundred well-known broadcasters.
