Auch bei solchen schwersten Schädigungen unterschiedlichster Art und Auswirkungen gibt es verschiedenste Möglichkeiten, wie Betroffene sich helfen können, um körperliche und seelische Verletzungen zur Heilung zu bringen. Meine Lebensgeschichte soll Mut machen und zeigen, dass es möglich ist in ein gutes Leben zu finden. Dark New World Order Part 1 Marcel Polte,2019-10-02 Since the 1950s, U.S. military and intelligence agencies have systematically tortured and abused children. Their goal: the creation of mind-controlled slaves to be used for child prostitution (blackmailing), child pornography, drug trafficking and assassinations. A natural protective mechanism makes this possible. If the agony becomes unbearable, the victim uncouples parts of his perception (dissociation). In the most extreme form this means: the child's personality splits. The new inner person can then be programmed as desired by the perpetrators. What sounds like a cruel horror story is frightening reality. The German lawyer Dr. Marcel Polte presents in this book the evidence for the CIA's inhuman program called Project MKULTRA. He not only evaluates released intelligence documents and investigation files, but also minutes of court hearings, Senate hearings and an advisory committee appointed by President Clinton, as well as the testimonies of survivors and their therapists. This shows a disturbing connection: the victims often come from old satanic families, and their cults are not only internationally networked, they use the same highly complex mind control techniques as the CIA. In addition - largely unnoticed by the public - there are rituals, human sacrifices and cannibalism, in the USA and in Germany as well. The author now reveals for the first time what lies behind all this.

Solomon Speaks on Reconnecting Your Life Eric Pearl,Frederick Ponzlov,2014-05-20 Why are prominent doctors, quantum physicists, and researchers all over the world interested in the seemingly chance encounter that Dr. Eric Pearl had with one of his patients? What was it about that encounter that would not only radically accelerate the trajectory of his life, but ultimately affect the lives of millions . . . and will most likely profoundly affect your life as well? What is this phenomenon? In his international bestseller, *The Reconnection: Heal Others, Heal Yourself*, Dr. Pearl taught readers how to access and tap into a comprehensive spectrum of energy, light, and information previously inaccessible to anyone, anywhere. In doing so, he allowed us to entirely transcend complex energy-healing techniques and bring about dramatic, often instantaneous, lifelong healings and life transformations! Since then, the world has clamored for Eric's second book. His response? When I have something else to say. Today Dr. Pearl, in collaboration with Frederick Ponzlov, indeed has something else to say. You might have to reconsider everything you've read up until now about healing, consciousness, and our four-dimensional existence here on Earth. As guided by the spirit of Solomon, an extradimensional intelligence that speaks through Frederick, experience firsthand the insights imparted during the evolution of this unique transmodality known today as Reconnective Healing. Now you can discover these insights and apply them to your life—insights that have revolutionized the healing world and given us the key to access the immense power that we each have within our lives. Solomon speaks. . . .

The Memory Illusion Dr Julia Shaw,2016-06-16 THE INTERNATIONAL BESTSELLER 'Truly fascinating.' Steve Wright, BBC Radio 2 - Have you ever forgotten the name of someone you've met dozens of times? - Or discovered that your memory of an important event was completely different from everyone else's? - Or vividly recalled being in a particular place at a particular time, only to discover later that you couldn't possibly have been? We rely on our memories every day of our lives. They make us who we are. And yet the truth is, they are far from being the accurate record of the past we like to think they are. In *The Memory Illusion*, forensic psychologist and memory expert Dr Julia Shaw draws on the latest research to show why our memories so often play tricks on us – and how, if we understand their fallibility, we can actually improve their accuracy. The result is an exploration of our minds that both fascinates and unnerves, and that will make you question how much you can ever truly know about yourself. Think you have a good memory? Think again. 'A spryly paced, fun, sometimes frightening exploration of how we remember – and why everyone remembers things that never truly happened.' Pacific Standard
