Burning Boy Paul Auster,2021-10-26 A LOS ANGELES TIMES BOOK PRIZE WINNER A BOSTON GLOBE BEST BOOK OF 2021 Booker Prize-shortlisted and New York Times bestselling author Paul Auster's comprehensive, landmark biography of the great American writer Stephen Crane. With *Burning Boy*, celebrated novelist Paul Auster tells the extraordinary story of Stephen Crane, best known as the author of *The Red Badge of Courage*, who transformed American literature through an avalanche of original short stories, novellas, poems, journalism, and war reportage before his life was cut short by tuberculosis at age twenty-eight. Auster's probing account of this singular life tracks Crane as he rebounds from one perilous situation to the next: A controversial

article written at twenty disrupts the course of the 1892 presidential campaign, a public battle with the New York police department over the false arrest of a prostitute effectively exiles him from the city, a star-crossed love affair with an unhappily married uptown girl tortures him, a common-law marriage to the proprietress of Jacksonville's most elegant bawdyhouse endures, a shipwreck results in his near drowning, he withstands enemy fire to send dispatches from the Spanish-American War, and then he relocates to England, where Joseph Conrad becomes his closest friend and Henry James weeps over his tragic, early death. In *Burning Boy*, Auster not only puts forth an immersive read about an unforgettable life but also, casting a dazzled eye on Crane's astonishing originality and productivity, provides uniquely knowing insight into Crane's creative processes to produce the rarest of reading experiences—the dramatic biography of a brilliant writer as only another literary master could tell it.

Basic Radar Tracking Mervin C. Budge, Shawn R.

German, 2018-10-31 Detailed closed-loop bandwidth and transient response approach is a subject rarely found in current literature.

This innovative resource offers practical explanations of closed-loop radar tracking techniques in range, Doppler and angle

tracking. To address analog closed loop trackers, a review of basic control theory and modeling is included. In addition, control theory,

radar receivers, signal processors, and circuitry and algorithms necessary to form the signals needed in a tracker are presented.

Digital trackers and multiple target tracking are also covered, focusing on g-h and g-h-k filters. Readers learn techniques for

modeling digital, closed-loop trackers. The radar circuitry/block diagrams necessary for range, Doppler and angle tracking are

presented and described, with examples and simulations included.

Factors such as noise and Swerling type fluctuations are taken into account. In addition to numerous worked examples, this

approachable reference includes MATLAB® code associated with analysis, simulations and figures. The book contains solutions to

practical problems, making it useful for both novice and advanced

radar practitioners. Software will be available for download on this page.

Fragments of an Infinite Memory Maël Renouard, 2021-02-09 A deeply informed, yet playful and ironic look at how the internet has changed human experience, memory, and our sense of self, and that belongs on the shelf with the best writings of Roland Barthes and Jean Baudrillard. “One day, as I was daydreaming on the boulevard Beaumarchais, I had the idea—it came and went in a flash, almost in spite of myself—of Googling to find out what I’d been up to and where I’d been two evenings before, at five o’clock, since I couldn’t remember on my own.” So begins Maël Renouard’s *Fragments of an Infinite Memory*, a provocative and elegant inquiry into life in a wireless world. Renouard is old enough to remember life before the internet but young enough to have fully accommodated his life to the internet and the gadgets that support it. Here this young philosopher, novelist, and translator tries out a series of conjectures on how human experience, especially the sense of self, is being changed by our continual engagement with a memory that is impersonal and effectively boundless. Renouard has written a book that is rigorously impressionistic, deeply informed historically and culturally, but is also playful, ironic,

personal, and formally adventurous, a book that withstands comparison to the best of Roland Barthes and Jean Baudrillard.

Familiar Moon Diane L. Thompson,2014-05-13 A chance email begins a friendship with one of the founders of the new Townsend moon colony and Quinn Alexander finds himself with access to one of the most sought after stories on earth. As a reporter—even though still a rookie—he could hardly pass up a trip to the moon and unlimited access to the colony's denizens.Should he be surprised, then, to learn that the colonists have an ulterior motive? Or, maybe more than one? As Quinn explores the colony, learning its beginnings and inner workings, he is also learning its secrets and one of these secrets keeps him awake at night.Back on earth, groups known as Earth Firsters spread lies and half-truths

demonizing the colony and its inhabitants. Their disinformation campaign and big-money backers worked to suppress publication of Quinn's book, a glowing account of the colony's first year. What other acts of sabotage, even terrorism, are these dark forces planning? Who is financing these groups, religious fundamentalists or corporations wanting to keep the moon's resources to themselves? Quinn knows that if the world knew the colony's secret, the Earth Firsters would win. Quinn follows his instincts and returns to earth without revealing the entire truth. Five years pass, and while pursuing a story on the International Space Station, Quinn recognizes a UN intelligence operative. However, the man is introduced to Quinn as the new colony administrator. He follows the operative to the moon where he learns of a plot to destroy the Townsend colony and discredit his friends. Quinn finds that he can no longer simply be an observer and, willing or not, becomes a part of the colony's story.

A Family Looks Like Love Kaitlyn Wells, 2022-05-31 A heartening picture book about a young pup who looks different from her siblings and ultimately learns that love, rather than how you look, is what makes a family. Sutton Button has always looked different from her family. While her siblings had short, stout legs,

Sutton's legs were long like noodles. And while her siblings had scruffy, yellow fur, Sutton was a tricolor puppy with soft fur. But when others don't believe that Sutton and her siblings are actually related, Sutton starts to wonder if she really belongs in her family at all--until she realizes that her and her family are the same in all the most important ways and that love, rather than what you look like, is what makes a family. With heartwarming text and adorable illustrations, *A Family Looks Like Love* is a story about the enduring power of love and teaches readers that family comes in all shapes and sizes.
