The Voynich Manuscript M. E. D'Imperio, 1978 In spite of all the papers that others have written about the manuscript, there is no complete survey of all the approaches, ideas, background information and analytic studies that have accumulated over the nearly fifty-five years since the manuscript was discovered by Wilfrid M. Voynich in 1912. This report pulls together all the information the author could obtain from all the sources she has examined, and to present it in an orderly fashion. The resulting survey will provide a firm basis upon which other students may build their work, whether they seek to decipher the text or simply to learn more about the problem.

*A Century of Artists Books* Riva Castleman, 1997-09 Published to accompany the 1994 exhibition at The Museum of Modern Art, New York, this book constitutes the most extensive survey of modern illustrated books to be offered in many years. Work by artists from Pierre Bonnard to Barbara Kruger and writers from Guillaume Apollinaire to Susan Sontag. An important reference for collectors and connoisseurs. Includes notable works by Marc Chagall, Henri Matisse, and Pablo Picasso.

**The Continental Army** Robert K. Wright, 1983 A narrative analysis of the complex evolution of the Continental Army, with the lineages of the 177 individual units that comprised the Army, and fourteen charts depicting regimental organization.

**Politics and the Other Scene** Étienne Balibar, 2020-05-05 As one of Louis Althusser's most brilliant students in the 1960s, Étienne Balibar contributed to the theoretical collective masterpiece of *Reading Capital*. Since then he has established himself among the most subtle philosophical and political thinkers in France. In *Politics and the Other Scene* Balibar deepens and extends the work he first developed with Immanuel Wallerstein in *Race, Nation, Class*. Exploring the theme of universalism and difference, he addresses such topical questions as European racism, the notion of the border, whether a European citizenship is possible or desirable, violence and politics, and identity and emancipation.

*Managing Death Investigations* Arthur E. Westveer, 1997

*Death in Jewish Life* Stefan C. Reif, Andreas Lehnardt, Avriel Bar-Levav, 2014-08-27 Jewish customs and traditions about death, burial and mourning are numerous, diverse and intriguing. They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period. In order to examine the accurate historical origins of many of them, an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic. This volume includes most of the papers given then, as well as a few added later. What emerges are a wealth of fresh material and perspectives, as well as the realization that the high Middle Ages saw a set of exceptional innovations, some of which later became central to traditional Judaism while others were gradually abandoned. Were these innovations influenced by Christian practice? Which prayers and poems reflect these innovations? What do the sources tell us about changing attitudes to death and life-after death? Are tombstones an important guide to historical developments? Answers to these questions are to be found in this unusual, illuminating and readable collection of essays that have been well documented, carefully edited and well indexed.

**The Last Utopia** Samuel Moyn, 2012-03-05 Human rights offer a vision of international justice that today's idealistic millions hold dear. Yet the very concept on which the movement is based became familiar only a few decades ago when it profoundly reshaped our hopes for an improved humanity. In this pioneering book, Samuel Moyn elevates that extraordinary transformation to center stage and asks what it reveals about the ideal's troubled

present and uncertain future. For some, human rights stretch back to the dawn of Western civilization, the age of the American and French Revolutions, or the post-World War II moment when the Universal Declaration of Human Rights was framed. Revisiting these episodes in a dramatic tour of humanity's moral history, *The Last Utopia* shows that it was in the decade after 1968 that human rights began to make sense to broad communities of people as the proper cause of justice. Across eastern and western Europe, as well as throughout the United States and Latin America, human rights crystallized in a few short years as social activism and political rhetoric moved it from the hallways of the United Nations to the global forefront. It was on the ruins of earlier political utopias, Moyn argues, that human rights achieved contemporary prominence. The morality of individual rights substituted for the soiled political dreams of revolutionary communism and nationalism as international law became an alternative to popular struggle and bloody violence. But as the ideal of human rights enters into rival political agendas, it requires more vigilance and scrutiny than when it became the watchword of our hopes.

Commentary on the Book of Psalms Jean Calvin, James Anderson, 1845

*Disembodied Souls* Richard C. Steiner, 2015 Biblical scholars have long claimed that the Israelites could not conceive of a disembodied nefesh [soul]. In this book, Richard C. Steiner rejects that claim based on a broad spectrum of textual, linguistic, archaeological, and anthropological evidence spanning the millennia from prehistoric times to the present. The biblical evidence includes a prophecy of Ezekiel condemning women who pretend to trap the wandering souls of sleeping people--a prophecy that has been only partially understood until now because of the obscure technical terms that it contains. The extrabiblical evidence suggests that a belief in the existence of disembodied souls was part of the common religious heritage of the peoples of the ancient Near East.

**Commentary on the Epistles of Paul the Apostle to the Corinthians** Jean Calvin, John Pringle, 1849

**Between Crown & Commerce** Junko Takeda, 2011-05-01 This "carefully argued and well-written study" examines French royal statecraft in the globalizing economy of the early modern Mediterranean (Choice). This is the story of how the French Crown and local institutions accommodated one another as they sought to forge acceptable political and commercial relationships. Junko Thérèse Takeda tells this tale through the particular experience of Marseille, a port the monarchy saw as key to commercial expansion in the Mediterranean. At first, Marseille's commercial and political elites were strongly opposed to the Crown's encroaching influence. Rather than dismiss their concerns, the monarchy cleverly co-opted their civic traditions, practices, and institutions to convince the city's elite of their important role in Levantine commerce. Chief among such traditions were local ideas of citizenship and civic virtue. As the city's stature throughout the Mediterranean grew, however, so too did the dangers of commercial expansion as exemplified by the arrival of the bubonic plague. During the crisis, Marseille's citizens reevaluated merchant virtue, while the French monarchy found opportunities to extend its power. *Between Crown and Commerce* deftly combines a political and intellectual history of state-building, mercantilism, and republicanism with a cultural history of medical crisis. In doing so, the book highlights the conjoined history of broad transnational processes and local political change.

**Arts & Humanities Citation Index**, 1981 A multidisciplinary index covering the journal literature of the arts and humanities. **In His Image** William Jennings Bryan, 1922

olam he-zeh v'olam ha-ba Leonard J. Greenspoon, 2017-09-15 Dining on Leviathan. Discursing with Socrates.

Debating the nature of existence in the afterlife. These are among the topics authors address in this wide-ranging account of how Jews have conceptualized the world to come and structured their lives in this world accordingly. Some authorities portrayed the afterlife as an endless round of feasting and drinking of chazerie that would put the fanciest Las Vegas buffets to shame. There were visionaries who mapped out otherworldly climes populated by monstrous creatures. Others, decidedly more staid, saw the world to come as a location where neither food nor wine would be consumed; instead, it would offer the opportunity to bring moral certitude to questionable practices that could not be eradicated in this world. More down to earth are comparisons between Rabbi Akiva and Socrates, and analyses of influential thinkers like Moses Mendelssohn and Emmanuel Levinas. And more practical are discussions of how concepts of the afterlife serve to determine mourning practices, or more broadly, how humans should fashion their lives in the here and now. The chronological range of these chapters also is impressive. The earliest documents discussed are from Apocryphal literature, including apocalypses, that were composed from 400 BCE to 200 CE. There are creative analyses of rabbinic material and documents from the medieval period through the twentieth century. Evolving ritual and liturgical practices bring readers up to the early twenty-first century. Each of the thirteen authors whose works are brought together in this volume shows historical, cultural, and religious sensitivity both to the unique features of these differing manifestations and to the elements that unite them. For the readers of this volume, which is equally rewarding for general audiences and for specialists, the result is a carefully nuanced, creatively balanced exploration of the breadth of Jewish thought and practice concerning some of the most profound and perplexing issues humans face.

**Theater as Metaphor** Elena Penskaya, Joachim Küpper, 2019-05-20 The papers of the present volume investigate the potential of the metaphor of life as theater for literary, philosophical, juridical and epistemological discourses from the Middle Ages through modernity, and focusing on traditions as manifold as French, Spanish, Italian, German, Russian and Latin-American.

*Book of the Dead* Foy Scalf, 2017 Discover how the ancient Egyptians controlled their immortal destiny! This book, edited by Foy Scalf, explores what the Book of the Dead was believed to do, how it worked, how it was made, and what happened to it.

**The Ascetic Imperative in Culture and Criticism** Geoffrey Galt Harpham, 1992-02-15 In this bold interdisciplinary work, Geoffrey Galt Harpham argues that asceticism has played a major role in shaping Western ideas of the body, writing, ethics, and aesthetics. He suggests that we consider the ascetic as the 'cultural' element in culture, and presents a close analysis of works by Athanasius, Augustine, Matthias, Grünewald, Nietzsche, Foucault, and other thinkers as proof of the extent of asceticism's resources. Harpham demonstrates the usefulness of his findings by deriving from asceticism a discourse of resistance, a code of interpretation ultimately more generous and humane than those currently available to us.

**Warfare in a Fragile World** Stockholm International Peace Research Institute, Arthur H. Westing, 1980 Among the crucial problems that confront mankind today are those associated with a degraded environment. This book examines the extent to which warfare and other military activities contribute to such degradation. The military capability to damage the environment and to cause ecological disruption has escalated, and there is no sign that the level of conflict in the world is decreasing. The military use and abuse of each of the several major global habitats -- temperate, tropical, desert, arctic, insular, and oceanic -- are evaluated separately in the light of the civil use and abuse of that habitat--Dust jacket.
