**Rubber Band Jewellery** Pam Leach (Beadworker),2014 Rubber band jewellery is a relative newcomer to the crafts world, and is about to make a big splash in the UK market, although it has been massive in the US for some time. Many items can be made just using a crochet hook; other more complex items are made using a special loom, which is very widely available from outlets such as Amazon, Argos and Toys R Us, for about 15. The most popular loom is the Rainbow Loom, but other makes, such as Cra-Z-Loom and Fun Loom are also available. Bags of very brightly coloured rubber bands are also easily available, together with plastic connecting clips, charms and other embellishments. In the book, there will be 20 pieces of rubber band jewellery -- 10 made using just a crochet hook-like tool, and 20 using the loom -- including bracelets, earrings, necklaces, rings, bag charms and hand/foot accessories. Each project is accompanied by a beautiful full-colour photograph of the finished piece, clear step-by-step instructions, a list of the materials and tools needed. Two versions of each project are included, each made by following the same step-by-step instructions but by varying the colours of the rubber bands.

**Postcolonial Netherlands** Gert Oostindie, 2011 The Netherlands is home to one million citizens with roots in the former colonies Indonesia, Suriname and the Antilles. Entitlement to Dutch citizenship, pre-migration acculturation in Dutch language and culture as well as a strong rhetorical argument ('We are here because you were there') were strong assets of the first generation. This 'postcolonial bonus' indeed facilitated their integration. In the process, the initial distance to mainstream Dutch culture diminished. Postwar Dutch society went through serious transformations. Its once lily white population now includes two million non-Western migrants and the past decade witnessed heated debates about multiculturalism. The most important debates about the postcolonial migrant communities centeracknowledgment and the inclusion of colonialism and its legacies in the national memorial culture. This resulted in state-sponsored gestures, ranging from financial compensation to monuments. The ensemble of such gestures reflect a guilt-ridden and inconsistent attempt to 'do justice' to the colonial past and to Dutch citizens with colonial roots. *Postcolonial Netherlands* is the first scholarly monograph

to address these themes in an internationally comparative framework. Upon its publication in the Netherlands (2010) the book elicited much praise, but also serious objections to some of the author's theses, such as his prediction about the diminishing relevance of postcolonial roots--Publisher's description.

**The Netherlands Indies and the Great War, 1914-1918** Kees van Dijk,2007-01-01 Kees van Dijk examines how in 1917 the atmosphere of optimism in the Netherlands Indies changed to one of unrest and dissatisfaction, and how after World War I the situation stabilized to resemble pre-war political and economic circumstances.

**Luxury Arts of the Renaissance** Marina Belozerskaya,2005-10-01 Today we associate the Renaissance with painting, sculpture, and architecture—the “major” arts. Yet contemporaries often held the “minor” arts—gem-studded goldwork, richly embellished armor, splendid tapestries and embroideries, music, and ephemeral multi-media spectacles—in much higher esteem. Isabella d’Este, Marchesa of Mantua, was typical of the Italian nobility: she bequeathed to her children precious stone vases mounted in gold, engraved gems, ivories, and antique bronzes and marbles; her favorite ladies-in-waiting, by contrast, received mere paintings. Renaissance patrons and observers extolled finely wrought luxury artifacts for their exquisite craftsmanship and the symbolic capital of their components; paintings and sculptures in modest materials, although discussed by some literati, were of lesser consequence. This book endeavors to return to the mainstream material long marginalized as a result of historical and ideological biases of the intervening centuries. The author analyzes how luxury arts went from being lofty markers of ascendancy and discernment in the Renaissance to being dismissed as “decorative” or “minor” arts—extravagant trinkets of the rich unworthy of the status of Art. Then, by re-examining the objects themselves and their uses in their day, she shows how sumptuous creations constructed the world and taste of Renaissance women and men.
