Sharing Poetic Expressions Anna-Teresa Tymieniecka,2011-05-03 A world ever more extensively interlinked is calling out for serving human interests broader and more compelling than those inspiring our technological welfare. The interface between cultures – at the moment especially between the Occident and Islam – presents challenges to mutual understandings and calls for restoring the resources of our human beings forgotten in the struggle of competition and rivalry at the vital spheres of existence. In the evolutionary progress of the living beings the strictly vital concerns, emotions, attributes become sublimed and elevated to the spiritual sphere at which human beings encounter each other and share. Studies presented here bring forth sublimity, generosity, forgiveness, beauty, and are exalting the quest after ciphers and symbols which lead to our sharing the common deepest stream of fraternal reality.

Disenchanted the Caliphate Hayrettin Yücesoy,2023-08-08 The political thought of Muslim societies is all too often defined in religious terms, in which the writings of clerics are seen as representative and ideas about governance are treated as an extension of commentary on sacred texts. *Disenchanted the Caliphate* offers a groundbreaking new account of political discourse in Islamic history by examining Abbasid imperial practice, illuminating the emergence and influence of a vibrant secular tradition. Closely reading key eighth-century texts, Hayrettin Yücesoy argues that the ulema's discourse of religious governance and the political thought of lay intellectuals diverged during this foundational period, with enduring consequences. He traces how notions of good governance and reflections on prudent statecraft arose among cosmopolitan literati who envisioned governing as an art. Competent in nonreligious branches of knowledge and trained in administrative professions, these belletrists articulated and defended secular political practices, reimagining the caliphal realm as politically constituted rather than natural. They sought to improve administrative efficiency and bolster state control for an empire made up of diverse cultures. Their ideas about moral cultivation, temporal reasoning, and governmental rationality endured for centuries as a counterpoint to religious rulership. Drawing on this history, Yücesoy critiques the concept of "Islamic political thought," calling for decolonizing debates about "secular" and "religious" politics. Theoretically rich and historically grounded, *Disenchanted the Caliphate* is an insightful and provocative reconsideration of key strands of political discourse in the intellectual history of Muslim societies.

Globalism in the Middle Ages and the Early Modern Age Albrecht Classen,2023-09-04 Although it is fashionable among modernists to claim that globalism emerged only since ca. 1800, the opposite can well be documented through careful comparative and transdisciplinary studies, as this volume demonstrates, offering a wide range of innovative perspectives on often neglected literary, philosophical, historical, or medical documents. Texts, images, ideas, knowledge, and objects migrated throughout the world already in the pre-modern world, even if the quantitative level compared to the modern world might have been different. In fact, by means of translations and trade, for instance, global connections were established and maintained over the centuries. Archetypal motifs developed in many literatures indicate how much pre-modern people actually shared. But we also discover hard-core facts of global economic exchange, import of exotic medicine, and, on another level, intensive intellectual debates on religious issues. Literary evidence serves best to expose the extent to which contacts with people in foreign countries were imaginable, often desirable, and at times feared, of course. The pre-modern world was much more on the move and reached out to distant lands out of curiosity, economic interests, and political and military concerns. Diplomats crisscrossed the continents, and artists, poets, and craftsmen traveled widely. We can identify, for instance, both the Vikings and the Arabs as global players long before the rise of modern globalism, so this volume promises to rewrite many of our traditional notions about pre-modern worldviews, economic conditions, and the literary sharing on a global level, as perhaps best expressed by the genre of the fable.

The Mirror for Princes: Kalila Wa Dimna Sulayman Al-Bassam,2006 Set in Iraq c. 750 AD, at the dawn of the Abbasid revolution, the poet, wit and radical reformer Ibn Al-Muqaffa is battling against fervent revolutionaries, heretic poets, religious propagandists and a ruler who names himself none other than 'God's shadow on earth'. Part history, part political fable, part personal tragedy, this new drama explores the creation of one of the masterpieces of Eastern literature, *Kalila wa Dimna* or *The Mirror for Princes*, through the life of its most important scribe. Sulayman Al-Bassam's play appeared at the Barbican, London and the Tokyo International Arts Festival, Japan.--BOOK JACKET.

Abdallah Ibn Al-Muqaffa. Kalila Und Dimna Ludwig Reichert Verlag,2009-12-31 *Kalila und Dimna* ist eine Fabelsammlung, die im Arabischen ihre klassische Form erhalten hat, und gehört zu den am weitesten verbreiteten und meistübersetzten Werken neben der Bibel. Es ist ein Buch der Weisheit und eine poetische Annäherung an die condition humaine voll treffender Bilder.

The Mirror for Princes: Kalila Wa Dimna Sulayman Al Bassam,2006-05-11 New writing based on the fables *Kalila wa Dimna*, one of the masterpieces of Eastern culture. Intended originally as a book of Council for

Kings, literally, a 'mirror' for princes, these subtle and philosophical animal fables carry immense significance to all sections of Arab and Persian society, to this day. From India, via Persia, the tales reached the Arab world through the pen of Ibn Al-Muqaffa, court scribe, wit, and radical reformer. The production locates Ibn Al-Muqaffa's work in its original historical context – Iraq circa 750 AD and the dawn of the Abbasid revolution – one of the most turbulent moments in Islamic history, and an age with all too many parallels to our own. The Mirror for Princes opened at the Barbican in May 2006, in a production by Sulayman Al-Bassam Theatre.

CDA and PDA Made Simple Bahaa-eddin M. Mazid, 2014-11-24 CDA and PDA Made Simple cuts many long stories short and encapsulates a long-standing tradition in modern and contemporary linguistics. The theoretical scope of the book encompasses a lengthy review of relevant studies in the area of critical discourse analysis (CDA), and, more broadly, in the areas of power, control, ideology and politics as realized and enacted in discourse. The book also brings together a detailed theoretical background on the main tenets and assumptions, tools and recipes, trends and extensions and critiques and applications of critical and political discourse analysis (PDA). Its analytical focus is predominantly on how ideology and power are linguistically and meta-linguistically realized, specifically through transitivity, modality, metadiscourse and presupposition in some discourse genres in English.

Abdullah Bin Abdul Kadir Munshi (In 2 Volumes) Hadijah Bte Rahmat, 2020-12-10 This book, Abdullah bin Abdul Kadir Munshi, is the most comprehensive, multi-disciplinary studies on Abdullah bin Abdul Kadir, widely known as Munshi Abdullah (1796-1854). He was a prominent literary figure and thinker in the Malay world in the 19th century and was also an early 'pioneer' of Singapore. The author, Professor Hadijah Rahmat, has spent more than 25 years studying Munshi Abdullah since her PhD studies in the School of Oriental and African Studies (SOAS), University of London, in 1992 to date. This book is covered in two volumes and is based on her research conducted using unexplored primary sources at several missionaries' archives at SOAS, London, Houghton Library, University Harvard, Library of Congress, Leiden University, KITVL, Holland, and the Perpustakaan Nasional Indonesia, Jakarta. The book consists of numerous academic papers presented at the regional and international seminars, and also published in international journals and as chapters of books. Besides academic papers, the excerpt of play titled Munsyi, sketches, poetry, and song, and interviews by the national media are also included. This book provides new insight into Abdullah's life, backgrounds, writings, his influences and legacies and the reactions and thought provoking views of the western and eastern scholars on Abdullah. The book is indeed the key reference for studies on Munshi Abdullah, Malay literature, and the history of Singapore, Malaysia, and colonialism in Southeast Asia.

Recontextualizing Resistance Emily Golson, 2018-01-23 Resistance is a concept that rose to the forefront of several areas of study when Max Weber made careful distinctions between authority, force, violence, domination, and legitimation. It gained strong attention when the well-known Palestinian journalist, activist, fiction writer and critic Ghassan Kanafani (1936–1972) published a study entitled the Literature of Resistance in Occupied Palestine: 1948–1966, a work that contributed to postcolonial theories of power, race, ethnicity and gender, and second generation theories of orientalism, feminism, and disability. Initially identified by philosophers, historians, and social critics as a focal point for situations in which oppressors brutally destroy the identity or subjectivity of the oppressed, resistance has been transformed by fiction writers, filmmakers, lyricists and speechmakers into a process in which responses and counter-responses to some type of injustice create difficult situations with complicated nuances. These works now form the foundation for what has come to be recognized as “resistance art.” This book gathers the insight, knowledge, and wisdom found in different manifestations of this art to further our understanding of the impact of resistance on contemporary life.

Law and New Media Delage Christian Delage, 2019-05-03 Will social media lead to social law? The force of legal remediation? Virtual courts and online judges? Paperless trials? Electronic discovery? All of these novel legal developments impact how we conceive of the practice of law. Here, international specialists from new and established domains of law, media, film and virtual studies address the emergence of the jurist in the era of digital transmission. From the cinema of the early 20th century to social media, this volume explores the multiple intersections of these visual technologies and the law from the theoretical insight they generate to the nature of law to the impact they have on doctrinal development.

Encyclopaedia of Islam Ian Richard Netton, 2013-12-19 The Encyclopedia of Islamic Civilization and Religion provides scholarly coverage of the religion, culture and history of the Islamic world, at a time when that world is undergoing considerable change and is a focus of international study and debate. The non-Muslim world's perceptions of Islam have often tended to be dominated by unrepresentative radical extremist movements and media interpretations of events involving such movements, to the extent that many people are unaware of the depth and variety of Islamic thought. At the same time, many who have had a formal training in Islamic studies

have tended to concentrate on the traditional, to the exclusion of the contemporary. The Encyclopedia of Islamic Civilization and Religion covers the full range of Islamic thought, in historical depth, but it also provides substantial coverage of contemporary trends across the Muslim world. With well over a thousand entries on Islamic theology, history, arts, science, law and institutions, and coverage of Islam in individual countries and cities around the world, the Encyclopedia of Islamic Civilization and Religion provides an extremely rich resource for students and researchers in religious studies and Middle Eastern studies. Entries are cross-referenced and bibliographies are provided. There is a full index. Routledge published *The Qura'n: An Encyclopedia* in 2005, an excellent companion to the Encyclopedia of Islamic Civilization and Religion.

Social Studies Anthology ,1998 A collection of stories and songs from around the world. A audiocassette with recordings of some of the speeches and songs is included.

Beyond the Dunes Salma Jayyusi,2006-04-28 Saudi Arabia has changed beyond all recognition in the past few decades, and the country's writers have been pre-eminent in grappling with the dilemmas, the cultural jarring and the identity problems thrown up by such an accelerated pace of change. *Beyond The Dunes* opens up for the first time the diversity and richness of contemporary Saudi Arabian literature to an English-speaking audience in this uniquely accessible book. Mansour al Hazimi, Salma Khadra Jayyusi and Ezzat Khattab have put together a varied selection of poetry, short stories, novel extracts, personal accounts, drama and essays which provide a fascinating insight into the challenges and tensions of a culture that is striving to balance globalisation and modernity with highly cherished traditional values. The social dislocation experienced by Saudi Arabians finds vivid formal expression in the dramas included in this volume, which may surprise many Western readers with their bold experimentalism and surrealist elements. Novelist Ahmad al Siba'I, a more traditional writer, offers a reflective, humanistic response to the world, whilst poets such as Ghassan al-Khunaizi, Ahmad al Mulla and Huda al Daghfaq reflect both the rich stylistic heritage of Saudi literature and the new techniques and outlook of modern Arabic poetry. Even when they are harking back to the vanished world of pre-modern Saudi Arabia, many of these writers reflect generational dialogues and an awareness of contemporary resonances. *Beyond the Dunes* places women's voices firmly in the centre of the Saudi literary canon for the first time, reflecting the increasing pre-eminence of writers such as Raja' 'Alem, Qumasha al-Ulayyan, Noura al-Ghamidi and Fawziyya Abu Khalid. This ground-breaking book provides an indispensable introduction to the thoughts, forms and expressions of one of the most complex and fascinating of world literatures at a moment of pivotal transformation.

Arabisch-orientalische Sprachkontakte in der Romania Gustav Ineichen,2015-03-10 Dieses Arbeitsheft ist eine Einführung in die Arabistik, des weiteren in die Orientalistik und die Islamwissenschaft, soweit diese Disziplinen für Romanisten relevant sind. Es geht dabei nicht nur um die Gesichtspunkte der Linguistik, die sich heutzutage ohne allzu große Schwierigkeiten aufarbeiten lassen, sondern auch um die Gegebenheiten der Kulturkontakte im Mittelmeerraum bis nach Nordafrika und nach Asien. Die einzelnen Punkte sind kurz gefaßt und entsprechen der Einteilung der Kapitel: 1. Historische und soziokulturelle Voraussetzungen, 2. Das Arabische und die Romania, 3. Ergänzende Begriffe zum Islam, 4. Die Sprachsituation in Spanien und das Mozarabische, 5. Die Verhältnisse in Süditalien und auf Sizilien, 6. Der Orienthandel und die italienischen Seestädte, 7. Die Wortwanderung rund um das Mittelmeer, 8. Die Wissenschaft in der arabischen Übersetzungstradition, 9. Der Orient in der europäischen Sentenzenliteratur, 10. Die Übersetzung des Korans, 11. Sprache und Überlieferung der Hargas, 12. Der Islam in der Überlieferung der Aljamía. Dieses Buch ist keine Einführung in das Arabische für Romanisten, aber es versucht, den Orient dem europäischen Verständnis näherzubringen.

Peerless Images Vice-President Eleanor G Sims,Eleanor Sims,Boris Illich Marshak,Ernst J. Grube,Boris Marshak, I.,2002-01-01 This book is the first survey of the figural arts of the Iranian world from prehistoric times to the early twentieth century ever to consider themes, rather than styles. Analyzing primarily painting - in manuscripts and albums, on walls and on lacquered, painted pen boxes and caskets - but also the related arts of sculpture, ceramics, and metalwork, the author finds that the underlying themes depicted on them through the ages are remarkably consistent. Eleanor Sims demonstrates that all these arts display similar concerns: kingship and legitimacy; the righteous exercise of princely power and the defense of national territory; and the performance of rituals and the religious duties called for by the paramount cult of the day. She describes a variety of superb works of art inside and outside these categories, noting not only how they illustrate archetypal themes but also what it is about them that is unique. She also discusses the ways that Iranian art both influenced and was influenced by invaders and neighboring lands. Boris I. Marshak discusses pre-Islamic and also Central Asian art, in particular the earliest Iranian wall paintings and their pictorial parallels in rock carvings and metalwork, and the richly painted temples and houses of Panjikent. Ernst J. Grube considers religious imagery, and provides an informative bibliography.
