*Viking-Age Trade* Jacek Gruszczyński,Marek Jankowiak,Jonathan Shepard,2020-10-06 That there was an influx of silver dirhams from the Muslim world into eastern and northern Europe in the ninth and tenth centuries is well known, as is the fact that the largest concentration of hoards is on the Baltic island of Gotland. Recent discoveries have shown that dirhams were reaching the British Isles, too. What brought the dirhams to northern Europe in such large numbers? The fur trade has been proposed as one driver for transactions, but the slave trade offers another – complementary – explanation. This volume does not offer a comprehensive delineation of the hoard finds, or a full answer to the question of what brought the silver north. But it highlights the trade in slaves as driving exchanges on a trans-continental scale. By their very nature, the nexuses were complex, mutable and unclear even to contemporaries, and they have eluded modern scholarship. Contributions to this volume shed light on processes and key places: the mints of Central Asia; the chronology of the inflows of dirhams to Rus and northern Europe; the reasons why silver was deposited in the ground and why so much ended up on Gotland; the functioning of networks – perhaps comparable to the twenty-first-century drug trade; slave-trading in the British Isles; and the stimulus and additional networks that the Vikings brought into play. This combination of general surveys, presentations of fresh evidence and regional case studies sets Gotland and the early medieval slave trade in a firmer framework than has been available before.

**The Oliphant** Avinoam Šālēm,2004-01-01 This book discusses a group of medieval carved ivory horns, namely oliphants. It draws upon medieval visual as well as literary sources both Arabic and Latin, with an eye to providing an original interpretation of these objects. In doing so, it breaks new ground in the understanding of both oliphants and the historical context of medieval artefacts in general.

**The Ottomans and the Mamluks** Cihan Yuksel Muslu,Cihan Yüksel Muslu,2014-07-25 Beginning on the eve of oceanic exploration, and the first European forays into the Indian Ocean and the Middle East, The Ottomans and the Mamluks traces the growth of the Ottoman Empire from a tiny Anatolian principality to a world power, and the relative decline of the Mamluks-historic defenders of Mecca and Medina and the rulers of Egypt and Syria. Cihan Yuksel Muslu traces the intertwined stories of these two dominant Sunni Muslim empires of the early modern world, setting out to question the view that Muslim rulers were historically concerned above all with the idea of Jihad against non-Muslim entities. Through analysis of the diplomatic and military engagements around the Mediterranean and Indian Ocean, Muslu traces the interactions of these Islamic super-powers and their attitudes towards the wider world. This is the first detailed study of one of the most important political and cultural relationships in early-modern Islamic history.

**Experiencing Byzantium** Claire Nesbitt,Mark Jackson,2016-04-22 From the reception of imperial ekphraseis in Hagia Sophia to the sounds and smells of the back streets of Constantinople, the sensory perception of Byzantium is an area that lends itself perfectly to an investigation into the experience of the Byzantine world. The theme of experience embraces all aspects of Byzantine studies and the Experiencing Byzantium symposium brought together archaeologists, architects, art historians, historians, musicians and theologians in a common quest to step across the line that divides how we understand and experience the Byzantine world and how the Byzantines themselves perceived the sensual aspects of their empire and also their faith, spirituality, identity and the nature of 'being' in Byzantium. The papers in this volume derive from the 44th Spring Symposium of Byzantine Studies, held for the Society for the Promotion of Byzantine Studies by the University of Newcastle and University of Durham, at Newcastle upon Tyne in April 2011. They are written by a group of international scholars who have crossed disciplinary boundaries to approach an understanding of experience in the Byzantine world. Experiencing Byzantium is volume 18 in the series published by Ashgate on behalf of the Society for the Promotion of Byzantine Studies.

**Spatialities of Byzantine Culture from the Human Body to the Universe** ,2022-11-14 Compensating a four-decades shortfall, this collective volume is the first reader in Byzantine spatial studies. It offers a diversity of topics and scientific approaches, articulated by up-to-date interdisciplinary dialogue, and reflects on the future challenges of Byzantine spatial studies.

*A Companion to Islamic Art and Architecture* Finbarr Barry Flood,Gulru Necipoglu,2017-06-16 The two-volume Companion to Islamic Art and Architecture bridges the gap between monograph and survey text by providing a new level of access and interpretation to Islamic art. The more than 50 newly commissioned essays revisit canonical topics, and include original approaches and scholarship on neglected aspects of the field. This two-volume Companion showcases more than 50 specially commissioned essays and an introduction that survey Islamic art and architecture in all its traditional grandeur Essays are organized according to a new chronological-geographical paradigm that remaps the unprecedented expansion of the field and reflects the nuances of major artistic and political developments during the 1400-year span The Companion represents recent developments in the field, and encourages future horizons by commissioning innovative essays that provide fresh perspectives on canonical

subjects, such as early Islamic art, sacred spaces, palaces, urbanism, ornament, arts of the book, and the portable arts while introducing others that have been previously neglected, including unexplored geographies and periods, transregional connectivities, talismans and magic, consumption and networks of portability, museums and collecting, and contemporary art worlds; the essays entail strong comparative and historiographic dimensions. The volumes are accompanied by a map, and each subsection is preceded by a brief outline of the main cultural and historical developments during the period in question. The volumes include periods and regions typically excluded from survey books including modern and contemporary art-architecture; China, Indonesia, Sub-Saharan Africa, Sicily, the New World (Americas).

**Maimonides** Joel L. Kraemer, 2010-02-09. This authoritative biography of Moses Maimonides, one of the most influential minds in all of human history, illuminates his life as a philosopher, physician, and lawgiver. A biography on a grand scale, it brilliantly explicates one man's life against the background of the social, religious, and political issues of his time. Maimonides was born in Córdoba, in Muslim-ruled Spain, in 1138 and died in Cairo in 1204. He lived in an Arab-Islamic environment from his early years in Spain and North Africa to his later years in Egypt, where he was immersed in its culture and society. His life, career, and writings are the highest expression of the intertwined worlds of Judaism and Islam. Maimonides lived in tumultuous times, at the peak of the Reconquista in Spain and the Crusades in Palestine. His monumental compendium of Jewish law, the *Mishneh Torah*, became a basis of all subsequent Jewish legal codes and brought him recognition as one of the foremost lawgivers of humankind. In Egypt, his training as a physician earned him a place in the entourage of the great Sultan Saladin, and he wrote medical works in Arabic that were translated into Hebrew and Latin and studied for centuries in Europe. As a philosopher and scientist, he contributed to mathematics and astronomy, logic and ethics, politics and theology. His *Guide of the Perplexed*, a masterful interweaving of religious tradition and scientific and philosophic thought, influenced generations of Christian, Muslim, and Jewish thinkers. Now, in a dazzling work of scholarship, Joel Kraemer tells the complete story of Maimonides' rich life. *MAIMONIDES* is at once a portrait of a great historical figure and an excursion into the Mediterranean world of the twelfth century. Joel Kraemer draws on a wealth of original sources to re-create a remarkable period in history when Jewish, Christian, and Muslim traditions clashed and mingled in a setting alive with intense intellectual exchange and religious conflict.

*Egyptology: The Missing Millennium* Okasha El Daly, 2016-07-01. *Egyptology: The Missing Millennium* brings together for the first time the disciplines of Egyptology and Islamic Studies, seeking to overturn the conventional opinion of Western scholars that Muslims/Arabs had no interest in pre-Islamic cultures. This book examines a neglected period of a thousand years in the history of Egyptology, from the Moslem annexation of Egypt in the seventh century CE until the Ottoman conquest in the 16th century. Concentrating on Moslem writers, as it is usually Islam which incurs blame for cutting Egyptians off from their ancient heritage, the author shows not only the existence of a large body of Arabic sources on Ancient Egypt, but also their usefulness to Egyptology today. Using sources as diverse as the accounts of travelers and treasure hunters to books on alchemy, the author shows that the interest in ancient Egyptian scripts continued beyond classical writers, and describes attempts by medieval Arab scholars, mainly alchemists, to decipher the hieroglyph script. He further explores medieval Arab interest in Ancient Egypt, discussing the interpretations of the intact temples, as well as the Arab concept of Egyptian kingship and state administration—including a case study of Queen Cleopatra that shows how the Arabic romance of this queen differs significantly from Western views. This book will be of great interest to academics and students of archaeology, Islamic studies and Egyptology, as well as anyone with a general interest in Egyptian history.

**Religious Legal Traditions, International Human Rights Law and Muslim States** Kamran Hashemi, 2008. This book offers an exploration of aspects of the subject, Islam and Human Rights, which is the focus of considerable scholarship in recent years predominantly from Western scholars. Thus it is interesting and important to have the field addressed from a non-Western perspective and by an Iranian scholar. The study draws on Persian language literature that addresses both theological and legal dimensions of the theme. The work is also distinctive in that it tackles three areas that have been largely ignored in the literature. It undertakes a comparative study of the laws of several Muslim States with respect to religious freedom, minorities and the rights of the child. The study offers an optimistic vision of the fundamental compatibility of Islam and international human rights standards.
