Linked Gordon Korman,2021-07-20 An unforgettable novel from the New York Times bestseller Gordon Korman Link, Michael, and Dana live in a quiet town. But it's woken up very quickly when someone sneaks into school and vandalizes it with a swastika. Nobody can believe it. How could such a symbol of hate end up in the middle of their school? Who would do such a thing? Because Michael was the first person to see it, he's the first suspect. Because Link is one of the most popular guys in school, everyone's looking to him to figure it out. And because Dana's the only Jewish girl in the whole town, everyone's treating her more like an outsider than ever. The mystery deepens as more swastikas begin to appear. Some students decide to fight back and start a project to bring people together instead of dividing them further. The closer Link, Michael, and Dana get to the truth, the more there is to face-not just the crimes of the present, but the crimes of the past. With *Linked*, Gordon Korman, the author of the acclaimed novel *Restart*, poses a mystery for all readers where the who did it? isn't nearly as important as the why?

The Ride of a Lifetime Robert Iger, 2019-09-23 #1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing

one of the world's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including:

- Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming.
- Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity.
- Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale.
- Fairness. Treat people decently, with empathy, and be accessible to them.

This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. "The ideas in this book strike me as universal" Iger writes. "Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more

confidently themselves, as they navigate their professional and even personal lives.”

Before We Were Strangers Renée Carlino, 2015-08-18 From the USA TODAY bestselling author of *Sweet Thing* and *Nowhere But Here* comes a love story about a Craigslist “missed connection”

post that gives two people a second chance at love fifteen years after they were separated in New York City. To the Green-eyed Lovebird: We met fifteen years ago, almost to the day, when I moved my stuff into the NYU dorm room next to yours at Senior House. You called us fast friends. I like to think it was more. We lived on nothing but the excitement of finding ourselves through music (you were obsessed with Jeff Buckley), photography (I couldn't stop taking pictures of you), hanging out in Washington Square Park, and all the weird things we did to make money. I learned more about myself that year than any other. Yet, somehow, it all fell apart. We lost touch the summer after graduation when I went to South America to work for National Geographic. When I came back, you were gone. A part of me still wonders if I pushed you too hard after the wedding... I didn't see you again until a month ago. It was a Wednesday. You were rocking back on your heels, balancing on that thick yellow line that runs along the subway platform, waiting for the F train. I didn't know it was you until it was too late, and then you were gone. Again. You said my name; I saw it on your lips. I tried to will the train to stop, just so I could say hello. After seeing you, all of the youthful feelings and memories came flooding back to me, and now I've spent the better part of a month wondering what your life is like. I might be totally out of my mind, but would you like to get a drink with me and catch up on the last decade and a half? M

Family theme parks, happiness and children's consumption: From roller-coasters to Pippi Longstocking David Cardell, 2016-09-24 This book provides an ethnographic contribution to research on children's consumption, family life and happiness. Various and shifting notions of happiness are explored, as well as conditions for and challenges to happiness, through an analysis of video-recorded interviews and mobile ethnography conducted in two of the most popular theme parks in Sweden. Initially, the study outlines how previous research has conceptualized happiness in

association with time and place in a rather static way. Based on a treatise of notions of happiness in philosophy and the social sciences, there is a turn in this thesis towards practice. It generates fundamental knowledge about the complexity of happiness. By employing this approach, it is possible to highlight how happiness is enacted as part of and in relation to ideals of family life, time, childhood, money, consumption, experiences and material things. As we explore the practices of children and their families, we discover that shifting meanings of happiness are located in contemporary culture, where emotions and consumption are of central importance. The approach is interdisciplinary, and draws on theoretical and methodological contributions in sociology, anthropology and Science and Technology Studies (STS). Notions of meshwork and enactment become important for the exploration of happiness as a complex and changing matter, which productively involves social relations and material things. Throughout the thesis there is a dialogue with previous research on happiness, consumption and childhood which highlights the importance of exploring messy practices, in movement. It is argued that explorations of practice contribute to a critical understanding of how happiness and contemporary ideals of childhood can be approached – through consumption and as part of citizenship in a consumer society where happiness is of central importance. Abstract [sv] Denna avhandling utgör ett etnografiskt bidrag till forskning om barns konsumtion, familjeliv och lycka. Genom en analys av videoinspelade intervjuer samt familjebesök till två av Sveriges mest välbesökta temaparker utforskas skiftande betydelser av lycka, liksom dess förutsättningar och utmaningar. Tidigare temaparks-forskning har generellt tagit lyckans existens för given. Utifrån en inledande diskussion om bland annat olika filosofiska och samhällsvetenskapliga lyckoteorier argumenterar avhandlingen för att studier av praktik tillför ny och grundläggande kunskap om lyckans komplexa sammansättningar. Avhandlingen visar därigenom

att lycka iscensätts som en del av – och i förhållande till – ideal om familjeliv, tid, barndom, pengar, konsumtion, upplevelser och materiella ting. Genom att fokusera på barn och deras familjers praktiker lokaliseras lyckans skiftande betydelser i en samtidskultur där emotioner och konsumtion är centrala. Avhandlingens ansats är tvärvetenskaplig och hämtar teoretisk och metodologisk inspiration från sociologi, antropologi samt teknik- och vetenskapsstudier (STS). Genom denna ansats synliggörs sammanflätningar av sociala relationer och materiella ting som produktiva i iscensättandet av lycka. Genom en dialog mellan empiriska beskrivningar och forskning om lycka, konsumtion och barndom belyser avhandlingen nödvändigheten av att synliggöra och utforska rörliga och rörliga praktiker. Det bidrar till en kritisk förståelse av praktik som kan förändra hur vi närmar oss lycka och samtida barndomsideal – som konsumenter och medborgare i ett lyckosträvande konsumtionssamhälle.

& Human Behavior Book of the Year In a world where addictive technology is designed to buy and sell our attention, and our value is determined by our 24/7 data productivity, it can seem impossible to escape. But in this inspiring field guide to dropping out of the attention economy, artist and critic Jenny Odell shows us how we can still win back our lives. Odell sees our attention as the most precious—and overdrawn—resource we have. And we must actively and continuously choose how we use it. We might not spend it on things that capitalism has deemed important ... but once we can start paying a new kind of attention, she writes, we can undertake bolder forms of political action, reimagine humankind's role in the environment, and arrive at more meaningful understandings of happiness and progress. Far from the simple anti-technology screed, or the back-to-nature meditation we read so often, *How to do Nothing* is an action plan for thinking outside of capitalist narratives of efficiency and techno-determinism. Provocative, timely, and utterly persuasive, this book will change how you see your place in our world.
