Body and Spirit in the Middle Ages Gaia Gubbini,2020-08-10 A crucial question throughout the Middle Ages, the relationship between body and spirit cannot be understood without an interdisciplinary approach – combining literature, philosophy and medicine. Gathering contributions by leading international scholars from these disciplines, the collected volume explores themes such as lovesickness, the five senses, the role of memory and passions, in order to shed new light on the complex nature of the medieval Self.

The J. Paul Getty Museum Journal The J. Paul Getty Museum,1993-01-28 The J. Paul Getty Museum Journal has been published annually since 1974. It contains scholarly articles and shorter notes pertaining to objects in the Museum's seven curatorial departments: Antiquities, Manuscripts, Paintings, Drawings, Decorative Arts, Sculpture and Works of Art, and Photographs. The Journal also contains an illustrated checklist of the Museum's acquisitions for the previous year, a staff listing, and a statement by the Museum's Director outlining the year's most important activities. Volume 19 of the J. Paul Getty Museum Journal includes articles by Nicholas Penny, Ariane van Suchtelen, Thomas DaCosta Kaufmann and Virginia Roehrig Kaufmann, Frits Scholten, David Harris Cohen, and Dawson W. Carr.

Biowarfare in America Jim Keith,1999 The era of chemical and biological megadeath is upon us, and the potential of deadly biowarfare attacks from governments, militant independent groups, and even individuals is far greater than it has been at any time in the past. At this time, more than twenty-five countries are developing, or have stockpiles of chemical and biological weapons, in many cases in sufficient quantities to wipe out the entire population of the world. So far the danger of chemical and biological aggression has been little acknowledged, and, at least in America, little prepared for by federal and local government. Most terrorist threats and attacks are not widely reported in the mainstream media. Although information about the proliferation of man-made diseases is carefully suppressed by governments and the media they will be covered in the pages of this book. Not only is America unprepared and ignorant of what is happening, but the people in government and scientific professions who do know, who should be warning the American public about the dangers of chemical and biological terrorism, are instead doing their utmost to hide this information from us; information that is vital for our survival. The information that is contained in the pages of this book will not be measured or calculated to reassure people that everything is fine, when reassurance is the exact opposite of what is needed at this time. It may even give you nightmares when you realise the real circumstance that we are in. The information in the pages that follow will be the truth about the biowarfare threat to America.

Exiting war Romain Fathi,Margaret Hutchison,Andrekos Varnava,Michael Walsh,2022-01-18 Exiting war explores a particular 1918–20 'moment' in the British Empire's history, between the First World War's armistices of 1918, and the peace treaties of 1919 and 1920. That moment, we argue, was a challenging and transformative time for the Empire. While British authorities successfully answered some of the post-war tests they faced, such as demobilisation, repatriation, and fighting the widespread effects of the Spanish flu, the racial, social, political and economic hallmarks of their imperialism set the scene for a wide range of expressions of loyalties and disloyalties, and anticolonial movements. The book documents and conceptualises this 1918–20 'moment' and its characteristics as a crucial three-year period of transformation for and within the Empire, examining these years for the significant shifts in the imperial relationship that occurred and as laying the foundation for later change in the imperial system.

The Book of Prophecies Christopher Columbus,Roberto Rusconi,2004-04-09 Christopher Columbus returned to Europe in the final days of 1500, ending his third voyage to the Indies not in triumph but in chains. Seeking to justify his actions and protect his rights, he began to compile biblical texts and excerpts from patristic writings and medieval theology in a manuscript known as the Book of Prophecies. This unprecedented collection was designed to support his vision of the discovery of the Indies as an important event in the process of human salvation - a first step toward the liberation of Jerusalem and the Holy Land from Muslim domination. This work is part of a twelve-volume series produced by U.C.L.A.'s Center for Medieval and Renaissance Studies which involved the collaboration of some forty scholars over the course of fourteen years. In this volume of the series, Roberto Rusconi has written a complete historical introduction to the Book of Prophecies, describing the manuscript's history and analyzing its principal themes. His edition of the documents, the only modern one, includes a complete critical apparatus and detailed commentary, while the facing-page English translations allow Columbus's work to be appreciated by the general public and scholars alike.

Beckett in Black and Red Alan Warren Friedman,2014-07-15 In 1934, Nancy Cunard published *Negro: An Anthology*, which brought together more than two hundred contributions, serving as a plea for racial justice, an exposé of black oppression, and a hymn to black achievement and endurance. The anthology stands as a virtual ethnography of 1930s racial, historic, artistic, political, and economic culture. Samuel Beckett, a close friend of the flamboyant and unconventional Cunard, translated nineteen of the contributions for *Negro*, constituting Beckett's largest single prose publication. Beckett traditionally has been viewed as an apolitical postmodernist rather than as a willing and major participant in *Negro*'s racial, political, and aesthetic agenda. In *Beckett in Black and Red*, Friedman reevaluates Beckett's contribution to the project, reconciling the humanism of his life and work and valuing him as a man deeply engaged with the greatest public issues of his time. Cunard believed racial justice and equality could be achieved only through Communism, and thus black and red were inextricably linked in her vision. Beckett's contribution to *Negro* demonstrates his support for Cunard's interest in surrealism as well as her political causes, including international republicanism and anti-fascism. Only in recent years have Cunard's

ideas begun to receive serious consideration. Beckett in Black and Red radically revalues Cunard and reconceives Beckett. His work in Negro shows a commitment to cultural and individual equality and worth that Beckett consistently demonstrated throughout his life, both in personal relationships and in his writing.

Radicalism in Mediterranean France Leo A. Loubère, 1974-01-01 Exploring the geographic area of southern France that has been largely neglected by historians, this book attempts to identify the forces producing change. Concentrating on an analysis of the Radical movement and the wine industry, the author combines four approaches to the study: those of history, electoral sociology, quantitative analysis, and human geography.

Culture: urban future UNESCO, 2016-12-31 Report presents a series of analyses and recommendations for fostering the role of culture for sustainable development. Drawing on a global survey implemented with nine regional partners and insights from scholars, NGOs and urban thinkers, the report offers a global overview of urban heritage safeguarding, conservation and management, as well as the promotion of cultural and creative industries, highlighting their role as resources for sustainable urban development. Report is intended as a policy framework document to support governments in the implementation of the 2030 Agenda for Sustainable Urban Development and the New Urban Agenda.
