Faithful Education Ali Riaz, 2008-09-03 In the wake of the terrorist attacks on September 11, 2001, discussions on ties between Islamic religious education institutions, namely madrassahs, and transnational terrorist groups have featured prominently in the Western media. In the frenzied coverage of events, however, vital questions have been overlooked: What do we know about the madrassahs? Should Western policymakers be alarmed by the recent increase in the number of these institutions in Muslim countries? Is there

any connection between them and the global jihad? Ali Riaz responds to these questions through an in-depth examination of the madraassahs in Pakistan, Bangladesh, and India. In *Faithful Education*, he examines these institutions and their roles in relation to current international politics.

Consuming Cultural Hegemony Harisur

Rahman, 2019-11-22 This book examines the circulation and viewership of Bollywood films and filmi modernity in Bangladesh. The writer poses a number of fundamental questions: what it means to be a Bangladeshi in South Asia, what it means to

be a Bangladeshi fan of Hindi film, and how popular film reflects power relations in South Asia. The writer argues that partition has resulted in India holding hegemonic power over all of South Asia's nation-states at the political, economic, and military levels—a situation that has made possible its cultural hegemony. The book draws on relevant literature from anthropology, sociology, film, media, communication, and cultural studies to explore the concepts of hegemony, circulation, viewership, cultural taste, and South Asian cultural history and politics.

Many complex sphingolipids, as well as simpler sphingoid bases and derivatives, are highly bioactive as extra- and intracellular regulators of growth, differentiation, migration, survival, senescence, and numerous cellular responses to stress. This book reviews exciting new developments in sphingolipid biology/sphingolipidology that challenge our understanding of how multicellular organisms grow, develop, function, age, and die.

Accessible Elements Dietmar Karl

Kennepohl, Lawton Shaw, 2010 Accessible Elements informs science educators about current practices in online and distance education: distance-delivered methods for laboratory coursework, the requisite administrative and institutional aspects of online and distance teaching, and the relevant educational theory. Delivery of university-level courses through online and distance education is a method of providing equal access to students seeking post-secondary education. Distance delivery offers practical alternatives to traditional on-campus education for students limited by barriers such as classroom scheduling, physical location, finances, or job and family commitments. The growing recognition and acceptance of distance education, coupled with the rapidly increasing demand for accessibility and flexible delivery of courses, has made distance education a viable and popular option for many people to meet their science educational goals.

Burmese Days George Orwell, 2022-09-28 *Burmese Days* is George Orwell's first novel, originally published in 1934. Set in British Burma during the waning days of the British empire, when Burma was ruled from Delhi as part of British India, the novel serves as a portrait of the dark side of the British Raj. At the center of the novel is John Flory, trapped within a bigger system that is undermining the better side of human nature. The novel deals with indigenous corruption and imperial bigotry in a society where native peoples were viewed as interesting, but ultimately inferior. Includes a bibliography and brief bio of the author.
