Cugel the Clever Jack Vance,2000-12-01 Jack Vance is one of the most remarkable talents to ever grace the world of science fiction. His unique, stylish voice has been beloved by generations of readers. One of his enduring classics is his Mazirian the Magician (previously titled The Dying Earth), and its sequels--a fascinating, baroque tale set on a far-future Earth, under a giant red sun that is soon to go out forever. Cugel the Clever is a novel-length adventure of Cugel the trickster, the thief, the very questionable hero in this decadent, dying world. Caught by the magician whose house he was robbing, Cugel is set the task of retrieving certain rare objects as penance. The Urth of the New Sun Gene Wolfe,1997-11-15 The long awaited sequel to Gene Wolfe's four-volume classic, The Book of the New Sun. We return to the world of Severian, now the Autarch of Urth, as he leaves the planet on one of the huge spaceships of the alien Hierodules to travel across time and space to face his greatest test, to become the legendary New Sun or die. The strange, rich, original spaceship scenes give way to travels in time, wherein Severian revisits times and places which fill in parts of the background of the four-volume work, that will thrill and intrigue particularly all readers of the earlier books. But The Urth of the New Sun is an independent structure all of a piece, an integral masterpiece to shelve beside the classics, one itself. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Highway of Eternity Clifford D. Simak,2015-12-01 Two present-day investigators race across time to escape malevolent aliens from the future and their terrible "gift" of immortality in this novel by a Nebula Award-winning author. What is the price of eternal life? Secret agent Jay Corcoran is about to learn the answer when his investigation into an inexplicable disappearance carries him and journalist friend Tom Boone hundreds of years into the past. Corcoran and Boone's powerful extrasensory abilities lead them to an advanced transportation system through time, and back to the bucolic eighteenth-century English countryside. There, they discover a family from the distant future hiding from the Immortals--an alien race that, many centuries on, is seducing human subjects with the promise of eternal life. But at the cost of the corporeal self, there is no place in the aliens' future for anyone unwilling to exist as mind alone. Now that the Evans family's sanctuary has been breached, escape is the only answer--for Boone and Corcoran as well--and the only way out is forward . . . far forward. But racing through space and time can be a hazardous occupation, especially with monstrous beasts, killer robots, and Immortal body-destroyers waiting at every juncture. The last novel from acclaimed science fiction Grand Master Clifford D. Simak, winner of the Hugo, Nebula, and numerous other awards, Highway of Eternity combines breathtaking action with provocative ideas and unparalleled ingenuity, the hallmarks of Simak's exceptional art. It is a fitting finale for the man who stands alongside Heinlein, Asimov, Bradbury, and Clarke as one of the true giants of speculative fiction's Golden Age.

Lest Darkness Fall L. Sprague deCamp,2011-09-29 Against the Fall of Night The Roman Empire had spread order, knowledge, and civilisation throughout the ancient world. When Rome fell, the light of reason flickered out across the Empire. The Dark Ages had begun; they would last a thousand years. Could a man from the 20th century prevent the fall of Rome? When lightning struck and he was hurled backward into the sixth century, the question became anything but academic to Martin Padway, but even forearmed with a knowledge of 20th century technology and of events to come, what could one man do? But Padway must try, lest darkness fall.

Free Science Fiction Books On Kindle: Linked List of over 350 Free SciFi Classic Stories And Early Fantasy Novels Morris Rosenthal,2015-05-10 Latest version free online at <http://www.ifitbreaks.com/free.htm> All links checked and updated on September 6th, 2015, if you have an older version please contact customer service. To download free eBooks directly, you must use Kindle Fire. Amazon has changed their other Kindle reader software (PaperWhite, eInk and Touch) so those users must use this eBook in Amazon's downloadable Cloud Reader (read.amazon.com) on a PC or laptop to select and send the free classics to their Kindle. iPad users must use the Cloud Reader from Manage Your Kindle to use the download links, see From The Author below. Amazon Prime members are welcome to use their free monthly borrow to get this list and download hundreds of the free classics for future reading. This linked list of over 350 free science fiction stories and novels in Amazon's permanent collection was recently updated with hundreds of works from famous science fiction writers who wrote in the 1950's and 1960's and apparently forgot to extend their copyright protection. For the more recent authors SciFi fans will be familiar with, I just list the links (arranged by author) that will take you to their titles in the Kindle store for free download. For the earlier writers, I usually include a one or two line summary of their books. I thought I read all the classic SciFi twenty years ago, but I found a couple dozen authors I'd never heard of while researching Amazon's free collection. Most of the titles in this linked list of the free classic science fiction on Amazon were written before the Golden Age of science fiction, but influenced the authors who came later. I've included several early utopia/dystopia books, a popular subject in the late Victorian period. A few supernatural titles are included when the author also wrote other types of books. I didn't include fairy tales, and I made judgment calls on skipping science fiction/fantasy that was written for children and young adults, or just included a few samples from those authors.

Primary Inversion Catherine Asaro,2022-11-08 The first book in the Skolian Empire saga by the Nebula Award-winning author. Fast, smart, speculative . . . another stellar debut. -Los Angeles Daily News Soz Valdoria, a bioengineered fighter pilot-and first in line for the military command of her people-has found refuge with her squad on the sanctuary planet of Delos. It offers a respite from the war that rages between her Skolian people and their enemies, the Traders. Looking for rest and relaxation, they must still be on their guard for the Trader soldiers who also visit the sanctuary. In a bar, they confront the worst of the worst: an Aristo from the Trader ruling caste, seemingly on the prowl for a provider he can use for his barbaric impulses. His presence takes Soz back to her days as a prisoner of war, when she became the plaything of a sadistic and soulless Aristo. And yet something is off about this Aristo. Unable to ignore her instincts, Soz searches the city until she finds him in a secured mansion. Breaching its fortifications and eluding its guards, she discovers a devastating truth: this man is no true Aristo. He is a genetic anomaly like Soz, one of the few people who can handle the massive neurological demands of the psibernet, the technological marvel that gives the Skolians their only advantage over the Traders. This false Aristo, this sheep in a wolf's clothing, is heir to the Trader throne. The emperor created him for one reason-to

take control of the Skolian network and conquer Soz's people. But Soz has never felt such a connection as she does to this Trader heir. It may prove her-and the universe's-undoing . . . This is one of the best SF first novels in years. -Booklist

Dark Visions Stephen King, Dan Simmons, George R. R. Martin, Douglas E. Winter, 1989 Collection of seven new horror stories by Stephen King, Dan Simmons and George R R Martin.

A Man of Parts David Lodge, 2012-11-27 A riveting novel about the remarkable life—and many loves—of author H. G. Wells H. G. Wells, author of The Time Machine and War of the Worlds, was one of the twentieth century's most prophetic and creative writers, a man who immersed himself in socialist politics and free love, whose meteoric rise to fame brought him into contact with the most important literary, intellectual, and political figures of his time, but who in later years felt increasingly ignored and disillusioned in his own utopian visions. Novelist and critic David Lodge has taken the compelling true story of Wells's life and transformed it into a witty and deeply moving narrative about a fascinating yet flawed man. Wells had sexual relations with innumerable women in his lifetime, but in 1944, as he finds himself dying, he returns to the memories of a select group of wives and mistresses, including the brilliant young student Amber Reeves and the gifted writer Rebecca West. As he reviews his professional, political, and romantic successes and failures, it is through his memories of these women that he comes to understand himself. Eloquent, sexy, and tender, the novel is an artfully composed portrait of Wells's astonishing life, with vivid glimpses of its turbulent historical background, by one of England's most respected and popular writers.

Blood & Roses Series Book One Callie Hart, 2014-10-29 Sloan meets an mysterious stranger who brings out her inner vixen.

The Slynx Tatyana Tolstaya, 2016-10-25 "A postmodern literary masterpiece." —The Times Literary Supplement Two hundred years after civilization ended in an event known as the Blast, Benedikt isn't one to complain. He's got a job—transcribing old books and presenting them as the words of the great new leader, Fyodor Kuzmich, Glorybe—and though he doesn't enjoy the privileged status of a Murza, at least he's not a serf or a half-human four-legged Degenerator harnessed to a troika. He has a house, too, with enough mice to cook up a tasty meal, and he's happily free of mutations: no extra fingers, no gills, no cockscombs sprouting from his eyelids. And he's managed—at least so far—to steer clear of the ever-vigilant Saniturations, who track down anyone who manifests the slightest sign of Freethinking, and the legendary screeching Slynx that waits in the wilderness beyond. Tatyana Tolstaya's The Slynx reimagines dystopian fantasy as a wild, horripilating amusement park ride. Poised between Nabokov's Pale Fire and Burgess's A Clockwork Orange, The Slynx is a brilliantly inventive and shimmeringly ambiguous work of art: an account of a degraded world that is full of echoes of the sublime literature of Russia's past; a grinning portrait of human inhumanity; a tribute to art in both its sovereignty and its helplessness; a vision of the past as the future in which the future is now.

Deviant Callie Hart, 2014-02-12 Sloane I'm not proud of the things I've done. The things I've had to do. The things I've given away. but I'd give it all over again to find her. Even if i die trying, I have to find Alexis. Zeth She wants me to help her, But I won't. She wants me to save her sister, But I can't. She wants me to be her hero, But I'm not a good man. I am her damnation.

The Butcher Alina Reyes, 2009-12-01 This novel is a frank and vivid account of sexual awakening. A young woman spending her summer holiday in a seaside town is drawn towards an inevitable sexual encounter with the butcher she is working for. This volume also contains the stories Lucie's Long Voyage and The Fatal Bodice

Sylvia Wynter Katherine McKittrick, 2014-12-08 The Jamaican writer and cultural theorist Sylvia Wynter is best known for her diverse writings that pull together insights from theories in history, literature, science, and black studies, to explore race, the legacy of colonialism, and representations of humanness. Sylvia Wynter: On Being Human as Praxis is a critical genealogy of Wynter's work, highlighting her insights on how race, location, and time together inform what it means to

be human. The contributors explore Wynter's stunning reconceptualization of the human in relation to concepts of blackness, modernity, urban space, the Caribbean, science studies, migratory politics, and the interconnectedness of creative and theoretical resistances. The collection includes an extensive conversation between Sylvia Wynter and Katherine McKittrick that delineates Wynter's engagement with writers such as Frantz Fanon, W. E. B. DuBois, and Aimé Césaire, among others; the interview also reveals the ever-extending range and power of Wynter's intellectual project, and elucidates her attempts to rehistoricize humanness as praxis.

Margaret of York, Simon Marmion, and The Visions of Tondal Thomas Kren, 1992-07-16 Presented at a symposium held in 1990 to celebrate the Getty Museum's acquisition of the only known illuminated copy of *The Visions of Tondal*, twenty essays address the celebrated bibliophilic activity of Margaret of York; the career of Simon Marmion, a favorite artist of the Burgundian court; and *The Visions of Tondal* in relation to illustrated visions of the Middle Ages. Contributors include Maryan Ainsworth, Wim Blockmans, Walter Cahn, Albert Derolez, Peter Dinzelbacher, Rainald Grosshans, Sandra Hindman, Martin Lowry, Nigel Morgan, and Nigel Palmer.

The Relative Native Eduardo Batalha Viveiros de Castro, 2015 This volume is the first to collect the most influential essays and lectures of Eduardo Viveiros de Castro. Published in a wide variety of venues, and often difficult to find, the pieces are brought together here for the first time in a one major volume, which includes his momentous 1998 Cambridge University Lectures, *Cosmological Perspectivism in Amazonia and Elsewhere*. Rounded out with new English translations of a number of previously unpublished works, the resulting book is a wide-ranging portrait of one of the towering figures of contemporary thought--philosopher, anthropologist, ethnographer, ethnologist, and more. With a new afterword by Roy Wagner elucidating Viveiros de Castro's work, influence, and legacy, *The Relative Native* will be required reading, further cementing Viveiros de Castro's position at the center of contemporary anthropological inquiry.

Literary Translation, Reception, and Transfer Norbert Bachleitner, 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.
