Iran's Language Planning Confronting English Abbreviations Fatemeh Akbari,2020-01-01 This book addresses one of the most crucial and common questions confronting planners of languages other than English, that is, how the impacts of global languages on local languages should be dealt with: internationalization or local language promotion? This empirical study examines the implementation of Iran's governmental language and terminology policy to accelerate rarely used abbreviation methods in Persian in order to preserve the language from the extensiveness of borrowed English abbreviated forms. This book provides an in-depth analysis of relevant linguistic theories as well as the structure and social context of the Persian language itself, rather than relying on personal opinions or beliefs either in favour of or against abbreviation. The text appeals to politicians, language planners, terminologists, lecturers, authors and translators of scientific works, especially those who are speakers of languages other than English and seek to promote their local languages. This book is particularly relevant to linguistics students (both undergraduate and graduate students) and language teachers and researchers in the broader areas of language education and curriculum design.

The Iranian Languages Gernot Windfuhr,2013-05-13 The Iranian languages form the major eastern branch of the Indo-European group of languages, itself part of the larger Indo-Iranian family. Estimated to have between 150 and 200 million native speakers, the Iranian languages constitute one of the world's major language families. This comprehensive volume offers a detailed overview of the principle languages which make up this group: Old Iranian, Middle Iranian, and New Iranian. The Iranian Languages is divided into fifteen chapters. The introductory chapters by the editor present a general overview and a detailed discussion of the linguistic typology of Iranian. The individual chapters which follow are written by leading experts in the field. These provide the reader with concise, non-technical descriptions of a range of Iranian languages. Each chapter follows the same pattern and sequence of topics, taking the reader through the significant features not only of phonology and morphology but also of syntax; from phrase level to complex sentences and pragmatics. Ample examples on all levels are provided with detailed annotation for the non-specialist reader. In addition, each chapter covers lexis, sociolinguistic and typological issues, and concludes with annotated sample texts. This unique resource is the ideal companion for undergraduate and postgraduate students of linguistics and language. It will also be of interest to researchers or anyone with an interest in historical linguistics, linguistics anthropology and language development. Gernot Windfuhr is Professor of Iranian Studies at the University of Michigan; he has published widely on Persian and Iranian languages and linguistics and related languages, as well as on other aspects of Iranian culture including Persian literature and Pre-Islamic Iranian religions.

The Sociolinguistics of Iran's Languages at Home and Abroad Seyed Hadi Mirvahedi,2019-06-29 This book examines the sociolinguistics of some of Iran's languages at home and in the diaspora. The first part of the book examines the politics of minority languages and the presence of hegemonic discourses which favour Persian (Farsi) in Iran, exploring issues such as language maintenance and shift, linguistic ideologies and practices among Azerbaijani and Kurdish-speaking communities. The authors then go on to examine Iranians' linguistic ideologies, practices and (trans)national identity construction in the diaspora, investigating both the challenges of maintaining a home language and the strategies and linguistic repertoires employed when constructing a diasporic identity away from home. This book will be of interest to students and scholars of minority languages and communities, diaspora and migration studies, and language policy and planning.

English in Post-Revolutionary Iran Maryam Borjian,2013-02-20 This book unravels the story of English, the language of 'the

enemies', in post-revolutionary Iran. Drawing on diverse qualitative and quantitative fieldwork data, it examines the nation's English at the two levels of policy and practice to determine the politics, causes, and agents of the two diverging trends of indigenization/localization and internationalization/Anglo-Americanization within Iran's English education. Situating English in the nation's broader social, political, economic, and historical contexts, the volume explores the intersection of the nation's English education with variables such as power, economy, policy, ideology, and information technology over the past three decades. The multidisciplinary insights of the book will be of value to scholars of global English, education policies and reforms and language policy as well as those who are specifically concerned with education in Iran.

Accelerated Persian Rebecca Joubin, 2019-05-28 Accelerated Persian aims to make the language of Iran, Afghanistan and Tajikistan accessible to everyone wishing to communicate through the language and culture of the Persian speaking world. It is a comprehensive textbook featuring numerous exercises and speaking drills complemented by clear and concise explanations of Persian grammar. Detailed verb conjugation charts and thematic glossaries allow for easy language learning. Various aspects of Persian culture and history are introduced through idioms, proverbs, and cultural and historical references. Because Persian shares its alphabet with Arabic, exercises are included for those who already read Arabic. Reference tools include verb conjugation charts, Persian-English-Arabic glossary/dictionary, Persian-English-French glossary/dictionary, and an introduction to the colloquial language. Accelerated Persian will expose the learner to the richness of Persian history and culture. Students will explore the biography and works of important historical, political and literary figures such as Cyrus, Hafez, Mossadeq, and the novelists Hedayat and Milani, and will produce short spoken and written reports. Each lesson begins with selections from the rich trove of Persian proverbs relating to the chapter's themes. Throughout the book, highlights of Persian culture such as the Persian New Year holiday (Nowruz), music and art are introduced to connect the language with the culture. Visual learning is an essential tool for successfully mastering any language. Artist Hampton Stall has created original illustrations for each chapter to support the lesson's focus. These culminate in numerous interactive exercises in which students draw on their own experiences. They then present their drawings in Persian to their peers, using creativity to expand their language skills. The over 250 interactive illustrations make this the first Persian book of its kind. Persian is the official language of Iran and Tajikistan, where it is referred to as Tajiki. It is also spoken in Afghanistan, where it is called Dari.

Endangered Iranian Languages Saloumeh Gholami, 2018-07-11 Many languages that are spoken today in Iran will fall silent in the near future. A large number of these languages and dialects have never been recorded or described. Many are at risk of falling out of use as their speakers die or members of younger generations shift to speaking different languages. The speed of these developments has increased dramatically over the past century. Furthermore, since language is closely linked to culture, when a community loses its language, it also loses a great deal of its cultural heritage and early history, including traditions of ceremonies, rituals, myths, poetry, songs, humor, habits, and oratory. These traditions and cultural habits are frequently replaced by the habits of the dominant community. This edited volume brings together work by theoretical linguists and field linguists who share a strong commitment to the scientific documentation and investigation of endangered Iranian languages. Five chapters of this volume represent the contributors' findings on endangered Iranian languages and dialects found both inside Iran as well as in other countries. Their work deals with a variety of topics, ranging from documentation methods to aspects of philology, morphology, phonology, syntax, and dialectology.

The Syria-Iran Axis Nadia von Maltzahn, 2013-06-30 Since the Iranian Revolution of 1979, the close alliance between Syria and Iran has endured for over three decades, based on geopolitical interests between the two states and often framed in the language of resistance. In view of their strong relationship at a state-level, what have Syria and Iran each been doing to foster popular exchange and employ cultural tools to build an image in the other country? The Syria-Iran Axis examines the motivations, content and reach of cultural diplomacy between Syria and Iran to determine to what degree the two partners have been successful in bridging their world views and political outlooks. By analysing the extent to which a state-directed cultural exchange can foster bilateral relations in the Middle East, Nadia von Maltzahn offers a unique analysis of the formation of foreign policy and diplomacy in the region.

Identity and Language Learning Bonny Norton, 2013-10-04 Identity and Language Learning draws on a longitudinal case study of immigrant women in Canada to develop new ideas about identity, investment, and imagined communities in the field of language learning and teaching. Bonny Norton demonstrates that a poststructuralist conception of identity as multiple, a site of struggle, and subject to change across time and place is highly productive for understanding language learning. Her sociological construct of investment is an important complement to psychological theories of motivation. The implications for language teaching and teacher education are profound. Now including a new, comprehensive Introduction as well as an Afterword by Claire Kramsch, this second edition addresses the following central questions: - Under what conditions do language learners speak, listen, read and write? - How are relations of power implicated in the negotiation of identity? - How can teachers address the investments and imagined identities of learners? The book integrates research, theory, and classroom practice, and is essential reading for students, teachers and researchers in the fields of language learning and teaching, TESOL, applied linguistics and literacy.

Iranian and Minority Languages at Home and in Diaspora Anousha Sedighi, 2023-02-20 While the typology, syntax, and morphology of Iranian languages have been widely explored, the sociolinguistic aspects remain largely understudied. The present companion addresses this essential yet overlooked area of research in two ways: (i) The book explores multilingualism within Iran and its neighbouring countries. (ii) It also investigates Iranian heritage languages within the diasporic context of the West. The scope of

languages covered is vast: In addition to discussing Iranian minority languages such as Tati and Balochi, the book explores non-Iranian minority languages such as Azeri, Tukmen, Armenian and Mandaic. Furthermore, the companion investigates Iranian heritage languages such as Wakhi, Pashto, and Persian within their diasporic and global contexts. In the current era of migration and globalization, minority and heritage speakers are increasingly valuable resources. By focusing on the speakers, the companion provides new insights into a multitude of sociolinguistic issues including language attitude and identity, language use and literacy practices, language policy, language shift and loss. The companion is an essential reference for those interested in Iranian languages, minority languages, heritage languages, sociolinguistics, bilingualism, language policy and planning, diaspora and migration studies, as well as those researching in related fields.
