Korean For Everyone - Complete Self-Study Program Bridge Education,2023-06-02 NOTE: THIS IS A NEW EDITION OF THE BOOK - SAME GREAT CONTENT AND BIGGER SIZE! Are you a complete beginner trying to learn Korean but don't know where to start? Well, suppose you're trying to build a beautiful house. What's the most important thing you have to do? That's right! Building a strong foundation! And how do you go about doing that? With a comprehensive layout plan that shows you where each piece of brick goes! Not surprisingly, learning a language is pretty much the same. Our book, as the title KOREAN FOR EVERYBODY - COMPLETE SELF-STUDY PROGRAM: BEGINNER LEVEL suggests, is designed to help anyone, including a complete beginner with zero knowledge in Korean, learn the fundamentals of Korean language on their own using our step-by-step courses with supplementary quizzes. Yes, there are many books about learning Korean out there that overpromise yet under-deliver, leaving you in the middle of the road confused. We came up with this book because we understand the plight. As a result, we focused solely on helping you build a strong foundation. Here's what makes this book different: ♦ Downloadable Audio Tracks Recorded By A Native Korean Speaker ♦ Intuitive Illustrations To Help You Learn Korean Visually ✓ PRONUNCIATION - How can you learn correct pronunciation without knowing what it sounds like? Learn each vowel and consonant with our free downloadable audio tracks recorded by a native Korean speaker. Just listen, and learn! ✓ KOREAN ALPHABET, HANGUL - Learn Korean alphabet system in a fun and engaging way! We provide detailed lessons on what they are and how they came about. Also, we have an ample amount of example vocabulary words to get you familiarized with them. They are easy as ABC, I mean, GA-NA-DA, as Koreans would say! ✓ PENMANSHIP - Learn how to write Korean alphabet! With our guided practice blocks, not only will you hit the ground running, but also master the correct stroke order for each letter in no time! ✓ GRAMMAR - To beat a game, you have to know the rules of the game, and knowing grammar is essentially the same for learning a language! In our book, we cover everything you need to know, from syllable formation to sentence structure to complex verb conjugation, with intuitive illustrations to help you visually understand some of the confusing concepts. ✓ SPELLING - Korean spelling can get quite tricky because there are many exceptions and irregularities, but rest assured because we'll help you learn to correctly identify common mistakes and avoid them! ✓ VOCABULARY - Your language skills can go only so far with a limited vocabulary! That's why we incorporated fun and engaging ways to pick up many different words as you go along the lessons. You'll learn many words from our example sentences! ✓ PRACTICE QUIZ - What's the best way to make sure you learned something and made it yours? At the end of each lesson, there's a set of practice questions where you can test yourself to see what you know and what you don't. Don't worry! For difficult questions, we embedded little quick tips to help you get through them on your own. So by the time you close our book, you would have learned so much about the fundamentals of Korean. The best part of the book is that you can study Korean on your own, without having to attend a class! So start today and master the fundamentals of Korean with just this one book!

Teaching Korean as a Foreign Language Young-mee Yu Cho,2020-10-20 Teaching Korean as a Foreign Language: Theories and Practices is designed for prospective or in-service Korean as a Foreign Language (KFL) teachers. With contributions from leading experts in the field, readers will gain an understanding of the theoretical framework and practical applications of KFL education in the context of Second Language Acquisition (SLA). The eight chapters explore the history of and current issues in language education, the practicalities of being a classroom teacher, and teaching and evaluation techniques for developing language and cultural proficiency. This comprehensive volume also includes an annotated bibliography which lists over 500 of the most recent and pertinent research articles and doctoral dissertations in the area. This bibliography will be of great service to students, teachers, and any researchers in applied linguistics and second language acquisition interested in Korean language education.

South Korean Education and Learning Excellence as a Hallyu Young Chun Kim,Jae-seong Jo,Jung-Hoon Jung,2023-08-11 This book constitutes a sociological, anthropological, and curricular inquiry into the factors surrounding high academic achievement rates of students in South Korea. Taking root in similar studies conducted around the exemplary nature of the Finnish education model, it explores the phenomenon of success in South Korea, uniquely

connecting it to the scholarship and models for examining the recent shift in attention and popularity of Korean culture. The authors argue that Korean education or K-edu can also be studied and understood as a Hallyu and an exemplary form of education. Drawing on longitudinal qualitative studies spanning over 15 years, the authors advance understandings of Korean academic success beyond more generalized understandings of how Asian students learn and towards a holistic explanation for the case of Korea. As such, the book challenges the perception of Korean students as passive learners with a controlled learning culture and instead advocates the ways in which Korean students are leading a changing culture by utilizing all available resources and opportunities in the space of South Korea's evolving ecological system of education. In addition, this book provides one explanation as to how students from East Asian countries achieve such excellent academic performance. A crucial exploration of the culture and growth of education systems in Asian countries, this book will appeal to scholars and researchers with interests in Korean education and Korean students' academic achievement as an emerging inquiry for both Korean studies and East Asian Cultural Studies. In addition, this book will also be informative for scholars of comparative education, sociology of education, educational policy, and postcolonial educational research in the world.
