The Confidence Game (2016) lays bare the psychology behind pyramid schemes, get-rich-quick scams, and every other con artist trick in the book to help us understand why we so easily fall prey to manipulators. If you've ever wondered why we fall for con artists or even why we can be easily manipulated by others in everyday life, The Confidence Game has the answers. What Do You Say After You Say Hello? Eric Berne,1975 As a psychiatrist, Dr. Berne found that each person, in early childhood--under the powerful influence of his parents--writes his own script that will determine the general course of his life. That script dictates what kind of person he will marry, how many children he will have, even what kind of bed he will die in. Most of all, it determines whether he will be a winner or a loser, a spendthrift or a skinflint, a tower of strength or a doomed alcoholic. Some people, says Berne, have scripts that call for them to fail in their professions, or to be repeatedly disappointed in love, or to be chronic invalids. Here, he demonstrates how each life script gets written, how it works, and how each of us can break free of it to help us attain real autonomy and true fulfillment.

Games Alcoholics Play Claude M. Steiner, Ph.D.,2011-03-09 The most lucid account of the patterns of problem drinkers ever set down in a book! Drawing on soundly tested theories of transactional behavior, Dr. Steiner describes the three distinct types of alcoholics -- Drunk and Proud, Lush and Wino -- and their games, scripts and rackets: Debtor... Kick... Cops and robbers... Plastic Woman... Captain Marvel...Ain't it awful... Schlemiel... Look how hard I've tried... and others. His approach is the single most useful tool for dealing with alcoholism since A.A. and the Twelve Steps, and offers the first real help -- and hope -- for problem drinkers and their families.

Transactional Analysis in Psychotherapy Eric Berne,2021-11-04 2021 Hardcover Reprint of 1961 Edition. Full Facsimile of the original edition. Not reproduced with Optical Recognition Software. Berne is the originator of transactional analysis, which he made famous with his landmark publication Games People Play. In this work Berne lays the groundwork for a rational method for understanding and analyzing human behavior. Transactional analysis (TA), is a theory in psychology that examines the interactions, or 'transactions', between a person and other people. The underlying precept is that humans are social creatures and that a person is a multi-faceted being that changes when in contact with another person in their world. Berne developed the concept and paradigm of TA in the late 1950s and it has gone on to have continuing influence in popular psychology. Contents: Psychiatry of the Individual and Structural Analysis -- The structure of personality -- Personality function -- Psychopathology -- Pathogenesis -- Symptomatology -- Diagnosis -- Social Psychiatry and Transactional Analysis -- Social intercourse -- Analysis of transactions -- Analysis of games -- Analysis of scripts -- Analysis of relationships -- Psychotherapy -- Therapy of functional psychoses -- Therapy of neuroses -- Group therapy -- Frontiers of Transactional Analysis -- Finer structure of the personality -- Advanced structural analysis -- Therapy of marriages -- Regression analysis -- Theroretical and technical considerations -- A terminated case with follow-up.

A Handbook for Constructive Living David K. Reynolds,2002-04-30 Here, in plain language, is the definitive guide for taking control of your life and imbuing it with greater meaning and productivity. Constructive Living is an action-based way of looking at the world that combines good, old-fashioned straight talk and the celebrated Japanese psychotherapies Morita and Naikan. David Reynolds, the father of this brilliantly simple and effective therapy, shows us how to live thoughtfully and economically, to regard our actions as if they were divine rituals, and to perform them with the utmost care. He contends that contentment is achieved, not

bestowed--attaining peace and satisfaction takes daily practice and learning. With user-friendly anecdotes, practical exercises, and a sense of humor, he refreshes the experienced student and takes the novice to the beginning, laying out the essence of Constructive Living.

Life Scripts Richard G. Erskine,2018-05-08 *Life Scripts: A Transactional Analysis of Unconscious Relational Patterns* is an exciting collection of contemporary writings on Life Script theory and psychotherapeutic methods. Each chapter describes an evolution of Eric Berne's original theory and brings together a stimulating range of international perspectives, theoretical positions, clinical experiences and psychotherapy practices, as well as a psychotherapy story that illustrates the theory. The concept of Life Scripts has frequently been associated with the determinism represented in theoretical scripts, yet, this book offers some new and diverse perspectives. A few contributors address the significance of early childhood experiences in forming a Life Script, while others reflect the perspectives of post-modernism, constructivism, existential philosophy, neuroscience, developmental research, mythology and the importance of narrative. An illustrious group of authors has integrated a broad professional perspective into their understanding of a theory of mind, theories of personality and the methods of psychotherapy. Each chapter provides a unique theoretical perspective; some are provocative and challenge Berne's and others long held notions about Life Scripts.

The Art of Psychological Warfare Michael T. Stevens,2016-03-24 Do you feel like other people always get the best of you? Do you wish you were more assertive in dealing with others? Learn from psychology experts and military black-ops experiments alike, as we explore the maze of the human mind and discover some access panels that weren't meant to be discovered. It's time you asserted yourself! Get in touch with your inner Jedi and learn a few mind tricks of your own. If you even use it to argue your way out of one traffic ticket, this book has paid for itself right there.
