**Global Challenges Facing Post COVID-19 Governments and Societies: An Essay** Firend Al. R.,2020-08-19 With an economically devastating pandemic like Covid-19, societies were left stumbling with an economically devastating impact, that far exceeds the health impact of the pandemic. Whatever the liberalization of global economies and free trade has contributed to the uplifting of hundreds of millions of people globally in the past two decades, has been diminished by the 2020 Covid-19. This is happening in a time of growing population, that has been left with depleted savings, and changing economics as we know it as a result of mass-digitalization, robotization and automation, and shrinking global resources. Consequently, governments worldwide are left with a very challenging task of providing services and justifying their existence. This essay explores various publications by world renowned institutions such as the World Bank, the World Economic Forum and others, to present the reader with shocking statistics regarding the future of humanity. This essay also makes suggestions as to best possible approach to deal with rising and eminent challenges.

**Spotlight on Current Events** David E. Newton,2019-04-10 Comprising essays on a variety of topics such as immigration, gun control, abortion, race relations, the environment, and gender, and curated by a veteran scholar, this collection gives readers a go-to resource on multiple contemporary world issues. This collection of perspective essays explores a variety of controversial topics, specifically current events and issues such as free speech, school violence, green energy, substance abuse, abortion, gun control, immigration, and more. A general introduction contextualizes the book in contemporary American discourse and shows why the essays that follow are important. Each chapter provides readers with a selection of persuasive and expository essays that they can cite in papers. Each chapter also has individual introductions, explaining how and why the essays were collected together and curated. Readers of this volume will come away with an understanding of the key points of a variety of important perspectives. In a time when the country is so thoroughly polarized, it is vital to give voice to stakeholders on both sides of the proverbial aisle. This book will be a solid resource for libraries, as readers can explore one or more topics in one easy-to-understand volume.

**Nixon and Mao** Margaret MacMillan,2007-02-13 Margaret MacMillan, praised as “a superb writer who can bring history to life” (The Philadelphia Inquirer), brings her extraordinary gifts to one of the most important subjects today—the relationship between the United States and China—and one of the most significant moments in modern history. In February 1972, Richard Nixon, the first American president ever to visit China, and Mao Tse-tung, the enigmatic Communist dictator, met for an hour in Beijing. Their meeting changed the course of history and ultimately laid the groundwork for the complex relationship between China and the United States that we see today. That monumental meeting in 1972—during what Nixon called “the week that changed the world”—could have been brought about only by powerful leaders: Nixon himself, a great strategist and a flawed human being, and Mao, willful and ruthless. They were assisted by two brilliant and complex statesmen, Henry Kissinger and Chou En-lai. Surrounding them were fascinating people with unusual roles to play, including the enormously disciplined and unhappy Pat Nixon and a small-time Shanghai actress turned monstrous empress, Jiang Qing. And behind all of them lay the complex history of two countries, two great and equally confident civilizations: China, ancient and contemptuous yet fearful of barbarians beyond the Middle Kingdom, and the United States, forward-looking and confident, seeing itself as the beacon for the world. Nixon thought China could help him get out of Vietnam. Mao needed American technology and expertise to repair the damage of the Cultural Revolution. Both men wanted an ally against an aggressive Soviet Union. Did they get what they wanted? Did Mao betray his own revolutionary ideals? How did the people of China react to this apparent change in attitude toward the imperialist Americans? Did Nixon make a mistake in coming to China as a supplicant? And what has been the impact of the visit on the United States ever since? Weaving together fascinating anecdotes and insights, an understanding of Chinese and American history, and the momentous events of an extraordinary time, this brilliantly written book looks at one of the transformative moments of the twentieth century and casts new light on a key relationship for the world of the twenty-first century.

**The Political Classroom** Diana E. Hess,Paula McAvoy,2014-11-13 WINNER 2016 Grawemeyer Award in Education Helping students develop their ability to deliberate political questions is an essential component of democratic education, but introducing political issues into the classroom is pedagogically challenging and raises ethical dilemmas for teachers. Diana E. Hess and Paula McAvoy argue that teachers will make better professional judgments about these issues if they aim toward creating political classrooms, which engage students in deliberations about questions that ask, How should we live together? Based on the findings from a large, mixed-method study about discussions of political issues within high school classrooms, The Political Classroom presents in-depth and engaging cases of teacher practice. Paying particular attention to how political polarization and social inequality affect classroom dynamics, Hess and McAvoy promote a coherent plan for providing students with a nonpartisan political education and for improving the quality of classroom deliberations.

**Merchants of Doubt** Naomi Oreskes, Erik M. Conway, 2011-10-03 The U.S. scientific community has long led the world in research on such areas as public health, environmental science, and issues affecting quality of life. These scientists have produced landmark studies on the dangers of DDT, tobacco smoke, acid rain, and global warming. But at the same time, a small yet potent subset of this community leads the world in vehement denial of these dangers. *Merchants of Doubt* tells the story of how a loose-knit group of high-level scientists and scientific advisers, with deep connections in politics and industry, ran effective campaigns to mislead the public and deny well-established scientific knowledge over four decades. Remarkably, the same individuals surface repeatedly—some of the same figures who have claimed that the science of global warming is not settled denied the truth of studies linking smoking to lung cancer, coal smoke to acid rain, and CFCs to the ozone hole. Doubt is our product, wrote one tobacco executive. These experts supplied it. Naomi Oreskes and Erik M. Conway, historians of science, roll back the rug on this dark corner of the American scientific community, showing how ideology and corporate interests, aided by a too-compliant media, have skewed public understanding of some of the most pressing issues of our era.

**What's Wrong with the United Nations and How to Fix It** Thomas G. Weiss, 2016-09-01 Seven decades after its establishment, the United Nations and its system of related organizations and programs are perpetually in crisis. While the twentieth-century's world wars gave rise to ground-breaking efforts at international organization in 1919 and 1945, today's UN is ill-equipped to deal with contemporary challenges to world order. Neither the end of the Cold War nor the aftermath of 9/11 has led to the "next generation" of multilateral institutions. But what exactly is wrong with the UN that makes it incapable of confronting contemporary global challenges and, more importantly, can we fix it? In this revised and updated third edition of his popular text, leading scholar of global governance Thomas G. Weiss takes a diagnose-and-cure approach to the world organization's inherent difficulties. In the first half of the book, he considers: the problems of international leadership and decision making in a world of self-interested states; the diplomatic complications caused by the artificial divisions between the industrialized North and the global South; the structural problems of managing the UN's many overlapping jurisdictions, agencies, and bodies; and the challenges of bureaucracy and leadership. The second half shows how to mitigate these maladies and points the way to a world in which the UN's institutional ills might be "cured." Weiss's remedies are not based on pious hopes of a miracle cure for the UN, but rather on specific and encouraging examples that could be replicated. With considered optimism and in contrast to received wisdom, he contends that substantial change is both plausible and possible.

**The Challenges of Globalization** International Society for Universal Dialogue. World Congress, 2007-12-10 This book explores the need to rethink our concepts of nature, culture, and freedom in an age of increased globalization. Topics examined range from global justice, international law, and human rights to ecoterrorism, cultural relativism, and the challenges of autonomy.

**The Law School - Global Issues, Local Questions** Fiona Cownie, 2019-01-04 First published in 1999, this international collection of essays on legal education addresses the following issues: The Law School and the University. Research into legal education has often been regarded as a marginal activity as compared with research into substantive areas of law. However, recent years have seen a growing interest in discussions about the purpose of the university law school and the ways in which law is taught within it. Are we educating professional lawyers or legal scholars? What do we really mean when we say we want to offer 'a liberal education in the law'? What effect are the current changes in higher education funding and policy having on law schools and what takes place within them? The international group of scholars who have contributed to this collection come from very different jurisdictions, but they have written about topics which, while they have local resonances, are of concern globally. *Global Issues, Local Questions* addresses matters which concern all law teachers, whatever their field of substantive legal expertise.

**Woburn High School** Susan Ann Bruno Thifault, Theresa M. Christerson, 2016-09-19 Woburn High School has instilled the importance of education in generations of students for over 160 years. The school opened its doors in 1852 with thirty-four students in a leased room at the Knight Building on Main Street. Increasing enrollment and curriculum requirements necessitated the building of a larger school on Main Street in 1854 and again in 1906 at the Dow Farm property on Montvale Avenue. Woburn's reputation as a leading leather manufacturer during the Civil War inspired the Tanner nickname, bull mascot and school motto: Tanner Pride. With the leadership of thirteen principals throughout its history, over thirty-two thousand students have graduated from this school. Today, more than half the faculty are returning alumni, and generations of Woburn families continue to send their children to this school. Join author Susan Thifault as she explores a history of pride and tradition at Woburn High School.

**Academic Writing, Real World Topics - Concise Edition** Michael Rectenwald, Lisa Carl, 2016-07-20 Academic Writing, Real World Topics fills a void in the writing-across-the-curriculum textbook market. It draws together articles and essays of actual academic prose as opposed to journalism; it arranges material by topic instead of by discipline or academic division; and it approaches topics from multiple disciplinary and critical perspectives. With extensive introductions, rhetorical instruction, and suggested additional resources accompanying each chapter, Academic Writing, Real World Topics introduces students to the kinds of research and writing that they will be expected to undertake throughout their college careers and beyond. This concise edition provides all the features of the complete edition in a more compact and affordable format. Key Features: - Contemporary, cutting-edge readings on relevant topics - Extensive cross-referencing between the rhetoric and the reader to help students make connections - Full-length essays rather than excerpts - Chapter introductions that put readings in context and promote interdisciplinary connections - Sample student essays to demonstrate student contribution - "As You Read" guides to each chapter that encourage readers to locate points of contact among readings - Questions after each reading that enable comprehension, help students identify rhetorical moves, and prompt oral and written response
