The Future Was Here Jimmy Maher, 2012-04-13 Exploring the often-overlooked history and technological innovations of the world's first true multimedia computer. Long ago, in 1985, personal computers came in two general categories: the friendly, childish game machine used for fun (exemplified by Atari and Commodore products); and the boring, beige adult box used for business (exemplified by products from IBM). The game machines became fascinating technical and artistic platforms that were of limited real-world utility. The IBM products were all utility, with little emphasis on aesthetics and no emphasis on fun. Into this bifurcated computing environment came the Commodore Amiga 1000. This personal computer featured a palette of 4,096 colors, unprecedented animation capabilities, four-channel stereo sound, the capacity to run multiple applications simultaneously, a graphical user interface, and powerful processing potential. It was, Jimmy Maher writes in *The Future Was Here*, the world's first true multimedia personal computer. Maher argues that the Amiga's capacity to store and display color photographs, manipulate video (giving amateurs access to professional tools), and use recordings of real-world sound were the seeds of the digital media future: digital cameras, Photoshop, MP3 players, and even YouTube, Flickr, and the blogosphere. He examines different facets of the platform—from Deluxe Paint to AmigaOS to Cinemaware—in each chapter, creating a portrait of the platform and the communities of practice that surrounded

it. Of course, Maher acknowledges, the Amiga was not perfect: the DOS component of the operating systems was clunky and ill-matched, for example, and crashes often accompanied multitasking attempts. And Commodore went bankrupt in 1994. But for a few years, the Amiga's technical qualities were harnessed by engineers, programmers, artists, and others to push back boundaries and transform the culture of computing.

Salt & Silver Johannes Riffelmacher,2016-04-26 Two surfers look for Latin America's best waves—and best food: “Part travelogue, part cookbook, and all outstanding . . . an epic trip that's well worth taking.” –Publishers Weekly (starred review) This book traces the journey of surfers Johannes Riffelmacher and Thomas Kosikowski as they make their way through Central and South America—reporting on the best surfing locations, chronicling the stories of local surfers and restaurant owners, and compiling recipes representative of each area. The narrative begins in Cuba with beautiful images of the city and the beaches, as well as stories related to the Cuban surfing community and a discussion of popular Cuban dishes. Next is a tour of Mexico—first with street tacos, a trip through Mexican markets, and a day spent in the urban graffiti scene of Guadalajara; then with Tostadas de Pulpo (Octopus Crackers), Shrimp and Portobello Burgers, and a glimpse into life in the remote surfing town of San Pancho. The Mexican leg of the journey draws to a conclusion with seven-meter-waves, BBQ, and Tajine in Rio Nexpa, as well as “a perfect righthander barreling of a point” in scenic La Ticla. Then the two men make their way through Nicaragua, Costa Rica, Panama, Ecuador, Peru, and finally Chile, exploring the beaches as well as the kitchens of each location. Interspersed throughout are more than ninety regional recipes, over 250 stunning photographs, and a wide array of tips and stories ranging from social commentary to pointers on how to rent a “Hamaquera” in La Ticla for three dollars a night. “The recipes . . . are real-deal, the photography is breathtaking, and the tales of full immersion are inspiring.” –Nick McGregor, Eastern Surf Magazine
