Love Virtually Daniel Glattauer,2013-12-03 It begins by chance: Leo receives emails in error from an unknown woman called Emmi. Being polite he replies, and Emmi writes back. A few brief exchanges are all it takes to spark a mutual interest in each other, and soon Emmi and Leo are sharing their innermost secrets and longings. The erotic tension simmers, and, despite Emmi being happily married it seems only a matter of time before they will meet in person. Will their feelings for each other survive the test of a real-life encounter? And if so, what then? Love Virtually is a funny, fast-paced and absorbing experience, with plenty of twists and turns, about a love affair conducted by email.

A New Approach to Textual Criticism Tommy Wasserman,Peter J. Gurry,2017-11-17 An essential introduction for scholars and students of New Testament Greek With the publication of the widely used 28th edition of Nestle-Aland's Novum Testamentum Graece and the 5th edition of the United Bible Society Greek New Testament, a computer-assisted method known as the Coherence-Based Genealogical Method (CBGM) was used for the first time to determine the most valuable witnesses and establish the initial text. This book offers the first full-length, student-friendly introduction to this important new method. After setting out the method's history, separate chapters clarify its key concepts, including genealogical coherence, textual flow diagrams, and the global stemma. Examples from across the New Testament are used to show how the method works in practice. The result is an essential introduction that will be of interest to students, translators, commentators, and anyone else who studies the Greek New Testament. Features A clear explanation of how and why the text of the Greek New Testament is changing Step-by-step guidance on how to use the CBGM in textual criticism Diagrams, illustrations, and glossary of key terms

The Dead Are Silent Arthur Schnitzler,2022-10-14 The inspiration behind 'Eyes Wide Shut,' starring Tom Cruise and Nicole Kidman, 'The Dead are Silent' is a tense psychological novella. Exploring the social parameters of 19th century Vienna, Schnitzler introduces us to Franz and Emma who are having an illicit affair. One evening, they hire a carriage with tragic consequences. 'The Dead are Silent' is an evocative exploration of the hypocrisy of middle-class Viennese society and an unflinching dissection of the nature of grief. This novella is ideal for those new to Schnitzler's body of work. The son of a physician, Arthur Schnitzler (1862 - 1931) was born in Vienna. At the age of 17, he enrolled at the city's university, studying medicine. After graduating, he began work as a doctor at the Vienna General Hospital. Despite seeing himself primarily as a man of science, Schnitzler began

writing when he was 31. His first works, poems, and short stories, focusing on the themes of jealousy and adultery, laid the foundations for his first play, 'Anatol.' Due to its psychological nature, 'Anatol' was praised by Sigmund Freud and later adapted for film, starring Gloria Swanson. Schnitzler eventually retired from the medical profession to pursue his literary career. In addition to numerous plays, he also wrote two full-length novels, a dozen short stories, and two non-fiction books.

An Annotated Arthur Schnitzler Bibliography Richard H. Allen, 1966 Originally published in 1967, Richard H. Allen's volume with a foreword by Robert O. Weiss was the first comprehensive bibliography of Arthur Schnitzler's writings, including his literary works (with translation and criticism), philosophical reflections, essays, correspondence, and medical writings, together with general criticism and dissertations on the author. Indices of titles, personal names, and periodicals make the material readily accessible.

TransArea Ottmar Ette, 2016-07-11 Ottmar Ette's *TransArea* proceeds from the thesis that globalization is not a recent phenomenon, but rather, a process of long duration that may be divided into four main phases of accelerated globalization. These phases connect our present, across the world's widely divergent modern eras, to the period of early modern history. Ette demonstrates how the literatures of the world make possible a tangible perception of that which constitutes Life, both of our planet and on our planet, which may only be understood through the application of multiple logics. There is no substitute for the knowledge of literature: it is the knowledge of life, from life. This English translation will be of great interest to English-speaking scholars in the fields of Global and Area Studies, Literary Studies, Cultural Studies, History, Political Science, and many more. About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam, Germany, since 1995. He is Honorary Member of the Modern Language Association of America (MLA) (elected in 2014), member of the Berlin-Brandenburg Academy of Sciences and Humanities (elected in 2013), and regular member of the Academia Europaea (since 2010).

The Doctrine of the Trinity Anthony F. Buzzard, 1998

Writing-between-Worlds Ottmar Ette, 2016-02-22 This book proposes that there is no better, no more complex way to access a community, a society, an era and its cultures than through literature. For millennia, literature from a wide variety of geocultural areas has gathered knowledge about life, about survival, and about living together, without either falling into discursive or disciplinary specializations or functioning as a regulatory mechanism for cultural knowledge. Literature is able to offer its readers knowledge through direct participation in the form of step-by-step intellectual and affective experiences. Through this ability, it can reach and affect audiences across great spatial and temporal distances. Literature - what different times and cultures have been able to understand as such in a broad sense - has always been characterized by its transareal and transcultural origins and effects. It is the product of many logics, and it teaches us to think polylogically rather than monologically. Literature is an experiment in living, and living in a state of experimentation. About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam, Germany, since 1995. He is Honorary Member of the Modern Language Association of America (MLA) (elected in 2014), member of the Berlin-Brandenburg Academy of Sciences and Humanities (elected in 2013), and regular member of the Academia Europaea (since 2010).

What is Dada??? Theo van Doesburg, 2006 This volume collects together the Dada writings of Theo van Doesburg, the celebrated De Stijl architect. Apart from the title lecture these texts appeared under the pseudonym of I.K. Bonset and were generally published in Van Doesburg's magazine *Mecano* (four issues 1922-23). Also included is his novel *The Other Sight*. Michael White's introduction describes the Dada tour of Holland undertaken by Van Doesburg

and his friends at the beginning of 1923.

The Air Raid Killer Frank Goldammer, 2018 As World War II ends, a killer's game begins. In the final days of the Nazi regime, with the historic city of Dresden on the brink of destruction, terrifying rumors spread about the Fright Man, a demonic killer who exploited the cover of a nighttime air raid siren to mutilate and kill a young nurse. Just as seasoned detective Max Heller begins investigating, the Fright Man kills again... The investigation seems hopeless. Desperate refugees flood the streets, all of Heller's resources are depleted, and his new boss is a ruthless SS officer. And like so many others, Heller and his wife, Karin, survive on meager rations while fearing for the lives of their sons at the front. But as tensions mount and enemy firebombs decimate the city, dangerous new clues come to light--and the determined Heller pursues a violent and twisting path to unmask a monster.

Grammatical theory Stefan Müller , 2018 This book introduces formal grammar theories that play a role in current linguistic theorizing (Phrase Structure Grammar, Transformational Grammar/Government & Binding, Generalized Phrase Structure Grammar, Lexical Functional Grammar, Categorical Grammar, Head-Driven Phrase Structure Grammar, Construction Grammar, Tree Adjoining Grammar). The key assumptions are explained and it is shown how the respective theory treats arguments and adjuncts, the active/passive alternation, local reorderings, verb placement, and fronting of constituents over long distances. The analyses are explained with German as the object language. The second part of the book compares these approaches with respect to their predictions regarding language acquisition and psycholinguistic plausibility. The nativism hypothesis, which assumes that humans possess genetically determined innate language-specific knowledge, is critically examined and alternative models of language acquisition are discussed. The second part then addresses controversial issues of current theory building such as the question of flat or binary branching structures being more appropriate, the question whether constructions should be treated on the phrasal or the lexical level, and the question whether abstract, non-visible entities should play a role in syntactic analyses. It is shown that the analyses suggested in the respective frameworks are often translatable into each other. The book closes with a chapter showing how properties common to all languages or to certain classes of languages can be captured.

Rational Theology and Christian Philosophy in England in the Seventeenth Century John Tulloch, 1874

Russian Literature and Its Demons Pamela Davidson, 2000 Merezhkovsky's bold claim that all Russian literature is, to a certain degree, a struggle with the temptation of demonism is undoubtedly justified. And yet, despite its evident centrality to Russian culture, the unique and fascinating phenomenon of Russian literary demonism has so far received little critical attention. This substantial collection fills the gap. A comprehensive analytical introduction by the editor is followed by a series of fourteen essays, written by eminent scholars in their fields. The first part explores the main shaping contexts of literary demonism: the Russian Orthodox and folk tradition, the demonization of historical figures, and views of art as intrinsically demonic. The second part traces the development of a literary tradition of demonism in the works of authors ranging from Pushkin and Lermontov, Gogol and Dostoevsky, through to the poets and prose writers of modernism (including Blok, Akhmatova, Bely, Sologub, Rozanov, Zamiatin), and through to the end of the 20th century.

In Strange Gardens and Other Stories Peter Stamm, 2010-02-23 With the precision of a surgeon, Peter Stamm cuts to the heart of the fragile and revealing moments of everyday life. They are bankers, students, mothers, or retirees. They live in New York City or somewhere in Switzerland, they work in London or Riga, they cross paths in a Fado bar in Lisbon. They breathe the banal routine of daily life. It is to these ordinary people that Peter Stamm

grants center stage in his latest collection of short stories. Henry, a cowherd turned stuntman, crisscrosses the country, dreaming of meeting a woman. Inger, the Dane, refuses her skimpy life and takes off for Italy. Regina, so lonely in her big house since her children left and her husband passed away, discovers the world anew thanks to the Australian friend of her granddaughter, who helps Regina envision her next voyage. In these stories, Stamm's clean style expresses despair without flash, through softness and small gestures, with disarming retorts full of derision and infinite tenderness. There, where life hesitates, ready to tip over—with nothing yet played out—is where these people and their stories exist. For us, they all become exceptional. Praise for *Unformed Landscape*: Sensitive and unnerving. . . . An uncommonly intimate work, one that will remind the reader of his or her own lived experience with a greater intensity than many of the books that are published right here at home. —The New Republic Online

Larenopfer Rainer Maria Rilke, 2005 This translation of the *Larenopfer*, or offerings to the household god Lar, are songs that Rilke sings to his hometown Prague and to his beloved Bohemia, short poems on the parks, fountains, churches, bridges and palaces of Prague, not forgetting Rabbi Löw's legends, the Jewish cemetery, the Thirty Years War and, of course, young love. This cycle of 90 poems offers the reader a unique view into Rilke's fascinating world, the turn-of-the-century atmosphere of Prague, then the third largest city in the Austro-Hungarian Empire. Here a young German of the ruling bourgeoisie shows great appreciation of contemporary Czech literary works and enthusiasm for the cause of Czech cultural identity. The book therefore possesses not only literary merit but is also of considerable sociological and historical interest. --Red Hen Press.
