The Palgrave Handbook of the History of Human Sciences David McCallum,2022-08-27 The Palgrave Handbook of the History of Human Sciences offers a uniquely comprehensive and global overview of the evolution of ideas, concepts and policies within the human sciences. Drawn from histories of the social and psychological sciences, anthropology, the history and philosophy of science, and the history of ideas, this collection analyses the health and welfare of populations, evidence of the changing nature of our local communities, cities, societies or global movements, and studies the way our humanness or 'human nature' undergoes shifts because of broader technological shifts or patterns of living. This Handbook serves as an authoritative reference to a vast source of representative scholarly work in interdisciplinary fields, a means of understanding patterns of social change and the conduct of institutions, as well as the histories of these 'ways of knowing' probe the contexts, circumstances and conditions which underpin continuity and change in the way we count, analyse and understand ourselves in our different social worlds. It reflects a critical scholarly interest in both traditional and emerging concerns on the relations between the biological and social sciences, and between these and changes and continuities in societies and conducts, as 21st century research moves into new intellectual and geographic territories, more diverse fields and global problematics.

Peoples of a Spacious Land Gloria L. Main,2009-07-01 In this book about families--those of the various native peoples of southern New England and those of the English settlers and their descendants--Gloria Main compares the ways in which the two cultures went about solving common human problems. Using original sources--diaries, inventories, wills, court records--as well as the findings of demographers, ethnologists, and cultural anthropologists, she compares the family life of the English colonists with the lives of comparable groups remaining in England and of native Americans. She looks at social organization, patterns of work, gender relations, sexual practices, childbearing and childrearing, demographic changes, and ways of dealing with sickness and death. Main finds that the transplanted English family system produced descendants who were unusually healthy for the times and spectacularly fecund. Large families and steady population growth led to the creation of new towns and the enlargement of old ones with inevitably adverse consequences for the native Americans in the area. Main follows the two cultures into the eighteenth century and makes clear how the promise of perpetual accessions of new land eventually extended Puritan family culture across much of the North American continent.

Sport and Leisure in the Civilizing Process Eric Dunning, Chris Rojek,2016-07-27 How do figurational sociologists approach the subjects of sport and leisure? How does their approach differ from other approaches in the field? This major collection, edited by leading writers on sport and leisure, offers a superb introduction to the figurational sociology of sport and leisure. The distinctive features of the approach are clearly explained and contributors show how figurational sociology is applied in the analysis of concrete problems. However, the collection also gives space to critics of the figurational approach. Included here are contributions which claim that the approach is inaccurate, blinkered and irrelevant.

Off the edge : experiments in cultural analysis Orvar Löfgren, Richard Wilk,2006 Ethnologia Europaea has set itself the task of breaking down not only the barriers which divided research into Europe from general ethnology, but also the barriers between the various national schools within the continent. With this manifesto Ethnologia Europaea was started in 1969. Since then, it has acquired a central position in the international co-operation between ethnologists in the various European

countries, in the East as well as the West. It is, however, a journal of topical interest, not only for ethnologists, but also for anthropologists, social historians and others studying the social and cultural forms of everyday life in recent and historical European societies.

Das Konfessionelle Zeitalter Harm Klueting, Europa zwischen Renaissance und Frühaufklärung, Religion und Kirche, Glaube und Unglaube, Politik und materielle Kultur vom 15. bis 17. Jahrhundert - das ist Gegenstand der großen kirchengeschichtlichen und allgemeingeschichtlichen Monographie, deren erster Band einen Rezensenten an Fernand Braudels La Méditerranée et le monde méditerranéen à l'époque de Philipp II erinnerte, der meinte, in Kluetings Werk so etwas ähnliches für die Kirchengeschichte vor sich zu haben. Band 1 des Werkes erschien 2007 im Primus Verlag Darmstadt und als Lizenzausgabe bei der Wissenschaftlichen Buchgesellschaft Darmstadt. Band 2 im Lit Verlag erschließt die internationale Forschungsliteratur, die für dieses Werk, das sich über ganz Europa erstreckt und die außereuropäischen Missionsräume einbezieht, vor allem auf Deutsch, Englisch, Französisch, Italienisch und Spanisch vorliegt. Berücksichtigt wird aber u.a. auch Literatur in niederländischer, russischer, polnischer und portugiesischer Sprache.

Nordic Homicide in Deep Time Janne Kivivuori, Mona Rautelin, Jeppe Büchert Netterstrøm, Dag Lindström, Guðbjörg S. Bergsdóttir, Jónas O. Jónasson, Martti Lehti, Sven Granath, Mikkel M. Okholm, Petri Karonen, 2022-02-16 Nordic Homicide in Deep Time draws a unique and detailed picture of developments in human interpersonal violence and presents new findings on rates, patterns, and long-term changes in lethal violence in the Nordics. Conducted by an interdisciplinary team of criminologists and historians, the book analyses homicide and lethal violence in northern Europe in two eras - the 17th century and early 21st century. Similar and continuous societal structures, cultural patterns, and legal cultures allow for long-term and comparative homicide research in the Nordic context. Reflecting human universals and stable motives, such as revenge, jealousy, honour, and material conflicts, homicide as a form of human behaviour enables long-duration comparison. By describing the rates and patterns of homicide during these two eras, the authors unveil continuity and change in human violence. Where and when did homicide typically take place? Who were the victims and the offenders, what were the circumstances of their conflicts? Was intimate partner homicide more prevalent in the early modern period than in present times? How long a time elapsed from violence to death? Were homicides often committed in the context of other crime? The book offers answers to these questions among others, comparing regions and eras. We gain a unique and empirically grounded view on how state consolidation and changing routines of everyday life transformed the patterns of criminal homicide in Nordic society. The path to pacification was anything but easy, punctuated by shorter crises of social turmoil, and high violence. The book is also a methodological experiment that seeks to assess the feasibility of long-duration standardized homicide analysis and to better understand the logic of homicide variation across space and over time. In developing a new approach for extending homicide research into the deep past, the authors have created the Historical Homicide Monitor. The new instrument combines wide explanatory scope, measurement standardization, and articulated theory expression. By retroactively expanding research data to the pre-statistical era, the method enables long-duration comparison of different periods and areas. Based on in-depth source critique, the approach captures patterns of criminal behaviour, beyond the control activity of the courts. The authors foresee the application of their approach in even remoter periods. Nordic Homicide in Deep Time helps the reader to understand modern homicide by revealing the historical continuities and changes in lethal violence. The book is written for professionals, university students and anyone interested in the history of human behaviour.

Politics, Patronage, and Class Conflict in Central Luzon Willem Wolters, 1983

Conceptualizing Power in Dynamics of Securitization Regina Kreide, Andreas Langenohl, 2019-01-03 Der Band stellt erstmalig die 'Machtfrage' in der gegenwärtigen konstruktivistischen Sicherheitsforschung. Wie lassen sich Machtverhältnisse, die Probleme der Sicherheit und Unsicherheit betreffen, aus transdisziplinärer und historischer Sicht analysieren? Der Band führt Beiträge aus der Geschichtswissenschaft, Kunstgeschichte, Politikwissenschaft, Soziologie, Kulturanthropologie und Rechtswissenschaft zusammen, um die bislang eher implizit gestellte Frage

nach der konzeptuellen Bedeutung von Macht in Prozessen der Versicherheitlichung zu eruieren. Durch konzeptuell-theoretische Aufsätze und durch historische Fallstudien, die vom 16. bis zum 21. Jahrhundert reichen, werden die dominanten Paradigmen der Critical Security Studies, die zumeist aus den Internationalen Beziehungen stammen und oftmals den Staat ins Zentrum der Analyse rücken, in ein neues Licht gerückt.
