**Ocean of Sound** David Toop,1995 Ocean of Sound begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are Rap Attack 3 and Exotica,

*The Complete Classical Music Guide* DK,2020-08-11 Packed with photographs, composer biographies, analyses of major works, and essential information on every musical genre, style, form, instrument, and ensemble, DK's Complete Classical Music Guide is a portable encyclopedic guide to more than one thousand years of Western classical music. From Bach to Berlioz, Glinka to Gershwin, Stravinsky to Shostakovich, and everyone in between, the Complete Classical Music Guide contains more than three hundred composer profiles, and offers a clear definition of the particular styles and characteristics of seven key eras: Early Music (1000-1600); The Baroque Era (1600-1750); The Classical Era (1750-1820); The Romantic Era (1810-1920); Romantic Opera (1810-1920); National Schools (1830-1950); and Modern Music (1900-). The Complete Classical Music Guide also includes a timeline that charts the evolution of musical styles and forms, instruments, and provides explanations of the building blocks of music — melody, harmony, rhythm, texture, form, tempo, and dynamics. Previously published as Eyewitness Companion: Classical Music, this book has been reformatted and designed and now comes packaged in an exclusive presentation slipcase.

*Musicians' Mobilities and Music Migrations in Early Modern Europe* Gesa zur Nieden,Berthold Over,2016-10-31 During the 17th and 18th century musicians' mobilities and migrations are essential for the European music history and the cultural exchange of music. Adopting viewpoints that reflect different methodological approaches and diversified research cultures, the book presents studies on central scopes, strategies and artistic outcomes of mobile and migratory musicians as well as on the transfer of music. By looking at elite and non-elite musicians and their everyday

mobilities to major and minor centers of music production and practice, new biographical patterns and new stylistic paradigms in the European East, West and South emerge.

Crescendo of the Virtuoso Paul Metzner,2018-09-25 During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1999.

**Musical Composition in the Context of Globalization** Christian Utz,2021-03-31 Since the early transformation of European music practice and theory in the cultural centers of Asia, Latin America, and Africa around 1900, it has become necessary for music history to be conceived globally - a challenge that musicology has hardly faced yet. This book discusses the effects of cultural globalization on processes of composition and distribution of art music in the 20th and 21st century. Christian Utz provides the foundations of a global music historiography, building on new models such as transnationalism, entangled histories, and reflexive globalization. The relationship between music and broader changes in society forms the central focus and is treated as a pivotal music-historical dynamic.

*A Dictionary of Musical Terms* Theodore Baker,1923

**Stefan Wolpe and the Avant-Garde Diaspora** Brigid Maureen Cohen,2012-09-13 Cohen traces a history of modernism in migration through the composer Stefan Wolpe, from the Bauhaus to Black Mountain College.

**The Cambridge Haydn Encyclopedia** Caryl Clark,Sarah Day-O'Connell,2019-04-30 For well over two hundred years, Joseph Haydn has been by turns lionized and misrepresented - held up as celebrity, and disparaged as mere forerunner or point of comparison. And yet, unlike many other canonic composers, his music has remained a fixture in the repertoire from his day until ours. What do we need to know now in order to understand Haydn and his music? With over eighty entries focused on ideas and seven longer thematic essays to bring these together, this distinctive and richly illustrated encyclopedia offers a new perspective on Haydn and the many cultural contexts in which he worked and left his indelible mark during the Enlightenment and beyond. Contributions from sixty-seven scholars and performers in Europe, the Americas, and Oceania, capture the vitality of Haydn studies today - its variety of perspectives and methods - and ultimately inspire further exploration of one of western music's most innovative and influential composers.
