*The Passion Trap: How to Right an Unbalanced Relationship* Dean C. Delis, 2015-09-02 Who gets caught in the Passion Trap? It's the catch-22 of romantic relationships: The more deeply one partner falls in love, the more distant the other becomes. This is the passion trap, an emotional dynamic that results in increasing desire and desperation in the one-down lover, and dissatisfaction, often mingled with guilt and withdrawal, in the one-up. Now Dr. Dean Delis, a renowned psychologist who believes the passion trap is both common and curable, shows you how to change the patterns that threaten your relationship. Drawing from his counseling work with individuals and couples, he offers fresh insights and powerful, proven techniques--from Trial Closeness to Healthy Distance--to help you and your partner rekindle romance and discover a new equilibrium of love and desire for a lifetime of happiness.

**The Passion Trap** Dean C. Delis, Cassandra Phillips, 2002 Renowned psychologist Dr. Dean Delis shows how to change the patterns that threaten romantic relationships. Formerly published as *The Passion Paradox*.

The Passion Paradox Brad Stulberg, Steve Magness, 2019-03-19 The coauthors of the bestselling *Peak Performance* dive into the fascinating science behind passion, showing how it can lead to a rich and meaningful life while also illuminating the ways in which it is a double-edged sword. Here's how to cultivate a passion that will take you to great heights--while

minimizing the risk of an equally great fall. Common advice is to find and follow your passion. A life of passion is a good life, or so we are told. But it's not that simple. Rarely is passion something that you just stumble upon, and the same drive that fuels breakthroughs—whether they're athletic, scientific, entrepreneurial, or artistic—can be every bit as destructive as it is productive. Yes, passion can be a wonderful gift, but only if you know how to channel it. If you're not careful, passion can become an awful curse, leading to endless seeking, suffering, and burnout. Brad Stulberg and Steve Magness once again team up, this time to demystify passion, showing readers how they can find and cultivate their passion, sustainably harness its power, and avoid its dangers. They ultimately argue that passion and balance--that other virtue touted by our culture--are incompatible, and that to find your passion, you must lose balance. And that's not always a bad thing. They show readers how to develop the right kind of passion, the kind that lets you achieve great things without ruining your life. Swift, compact, and powerful, this thought-provoking book combines captivating stories of extraordinarily passionate individuals with the latest science on the biological and psychological factors that give rise to—and every bit as important, sustain—passion.

The Donut Trap Julie Tieu,2021-11-09 Julie Tieu

sparkles in this debut romantic comedy, which is charmingly reminiscent of the TV show *Kim's Convenience* and *Frankly in Love* by David Yoon, about a young woman who feels caught in the life her parents have made for her until she falls in love and finds a way out of the donut trap. Jasmine Tran has landed herself behind bars—maple bars that is. With no boyfriend or job prospects, Jasmine returns home to work at her parents' donut shop. Jasmine quickly loses herself in a cyclical routine of donuts, Netflix, and sleep. She wants to break free from her daily grind, but when a hike in rent threatens the survival of their shop, her parents rely on her more than ever. Help comes in the form of an old college crush, Alex Lai. Not only is he successful and easy on the eyes, to her parents' delight, he's also Chinese. He's everything she should wish for, until a disastrous dinner reveals Alex isn't as perfect as she thinks. Worse, he doesn't think she's perfect either. With both sets of parents against their relationship, a family legacy about to shut down, and the reappearance of an old high school flame, Jasmine must scheme to find a solution that satisfies her family's expectations and can get her out of the donut trap once and for all.

**The Paradox of Passion** Dean Delis, 2016-03-07  
Professor, University of California psychiatrist,  
psychologist Medical Center San Diego Dean C.  
Delis, together with the journalist and writer  
Cassandra Phillips in his book *The Paradox of  
passion: she loves him, but he did not*, offers a  
new approach to one of the most important issues  
of relationships and powerful, proven methods  
that will help you and your partner rekindle the  
romance and achieve a new balance in love.

**So Good They Can't Ignore You** Cal  
Newport, 2012-09-18 In an unorthodox approach,  
Georgetown University professor Cal Newport  
debunks the long-held belief that follow your  
passion is good advice, and sets out on a quest to  
discover the reality of how people end up loving  
their careers. Not only are pre-existing passions  
rare and have little to do with how most people  
end up loving their work, but a focus on passion  
over skill can be dangerous, leading to anxiety  
and chronic job hopping. Spending time with  
organic farmers, venture capitalists,  
screenwriters, freelance computer programmers, and  
others who admitted to deriving great satisfaction  
from their work, Newport uncovers the strategies  
they used and the pitfalls they avoided in  
developing their compelling careers. Cal reveals  
that matching your job to a pre-existing passion  
does not matter. Passion comes after you put in  
the hard work to become excellent at something  
valuable, not before. In other words, what you do  
for a living is much less important than how you  
do it. With a title taken from the comedian Steve

Martin, who once said his advice for aspiring entertainers was to be so good they can't ignore you, Cal Newport's clearly written manifesto is mandatory reading for anyone fretting about what to do with their life, or frustrated by their current job situation and eager to find a fresh new way to take control of their livelihood. He provides an evidence-based blueprint for creating work you love, and will change the way you think about careers, happiness, and the crafting of a remarkable life.

**The Trouble with Passion** Erin Cech, 2021-11-09  
Probing the ominous side of career advice to follow your passion, this data-driven study explains how the passion principle fails us and perpetuates inequality by class, gender, and race; and it suggests how we can reconfigure our relationships to paid work. Follow your passion is a popular mantra for career decision-making in the United States. Passion-seeking seems like a promising path for avoiding the potential drudgery of a life of paid work, but this passion principle—seductive as it is—does not universally translate. *The Trouble with Passion* reveals the significant downside of the passion principle: the concept helps culturally legitimize and reproduce an exploited, overworked white-collar labor force and broadly serves to reinforce class, race, and gender segregation and inequality. Grounding her investigation in the paradoxical tensions between capitalism's demand for ideal workers and our cultural expectations for self-expression, sociologist Erin A. Cech draws on interviews that follow students from college into the workforce,

surveys of US workers, and experimental data to explain why the passion principle is such an attractive, if deceptive, career decision-making mantra, particularly for the college educated. Passion-seeking presumes middle-class safety nets and springboards and penalizes first-generation and working-class young adults who seek passion without them. The ripple effects of this mantra undermine the promise of college as a tool for social and economic mobility. The passion principle also feeds into a culture of overwork, encouraging white-collar workers to tolerate precarious employment and gladly sacrifice time, money, and leisure for work they are passionate about. And potential employers covet, but won't compensate, passion among job applicants. This book asks, What does it take to center passion in career decisions? Who gets ahead and who gets left behind by passion-seeking? *The Trouble with Passion* calls for citizens, educators, college administrators, and industry leaders to reconsider how we think about good jobs and, by extension, good lives.
