The Healing Experience Malcolm S. Southwood,2003

The Power of the Healing Field Peter Mark Adams,2021-11-23 • Illustrates the role of transpersonal fields of consciousness in healing a range of issues, from inherited family and ancestral problems, to past lives and womb trauma, to near-death experiences, merged identities, and spirit attachment • Shares remarkable cases of healing and personal transformation from the author's more than 20 years of energy healing work, as well as experiences from other gifted healers, psychics, and shamans • Provides diagrams of the human energy body, the spectrum of states of awareness, the multilayered fields of consciousness, and the psycho-energetic dynamics of the transformation process

Sharing remarkable cases of healing and personal transformation from his and his wife's more than 20 years of intensive professional energy healing work as well as experiences from other gifted healers, psychics, and shamans, Peter Mark Adams illustrates the role of transpersonal fields of consciousness in healing a range of issues--from inherited family and ancestral problems to past lives and womb trauma to near-death experiences, merged identities, and spirit attachment. Drawing on esoteric tradition as well as scientific research, such as Rupert Sheldrake's morphic field studies, the author maps out the human energy field in all its subtleties, providing diagrams of the human energy body, the spectrum of states of awareness, the multilayered fields of consciousness, and the psychoenergetic dynamics of the transformation process. Through compelling testimonials of powerful healings, Adams demonstrates how the processes of healing and of peak spiritual experience are closely aligned with harmony within the larger energetic field of consciousness. Proposing a new model of consciousness, reality, and energy healing that incorporates the anomalous phenomena that occurs on the outermost edges of human experience, the author draws these many strands together to outline not only a multilayered approach for different kinds of energy healing modalities, such as Reiki, breathwork, EFT, and remote healing, but also a useful program of self-help that anyone can follow to make lasting improvements to their physical, emotional, and spiritual health.

The Healing Field Peter Mark Adams,2014 THE HEALING FIELD examines remarkable cases of healing and personal transformation made possible by a range of natural energy based healing techniques. The anomalous experiences arising in these contexts throw fresh light on the timeless issues of the nature of consciousness, reality and selfhood. Through the unique lens of the energy healer we are able to discern a far more expansive, positive and empowering view of our place within the larger web of life. The experiences recorded in *The Healing Field* are based upon live cases derived from over 15 years of professional experience. The insight and understanding arising from people's lived experience goes far to relieving the anxiety, fear and doubt that otherwise overshadows the vast majority of people. Back Cover Text: *The Healing Field* presents a collection of real-life cases drawn from intensive energy healing work. For over 15 years, Peter and his wife Gulcan have been practicing and teaching energy psychology methods such as Emotional Freedom Techniques, Tapas Acupressure Technique, Reiki and breathwork to thousands of people. Their research reinforces the idea of a healing and morally self-correcting field of consciousness. This concept is compatible with Rupert Sheldrake's "Morphic Field". *The Healing Field* illustrates how transpersonal fields of consciousness connect all life forms and provides powerful leverage to heal the vast range of issues not addressed by conventional medicine and therapy. These issues often relate to: • Contracts made in the womb • Merged identities • Problems inherited from ancestors • Past life traumas • Near death experiences • Interactions with deceased persons • Spirit and entity attachment • Spiritual experiences • Encounters with higher order beings Each section carefully references scientific research, making this book a unique bridge between science and energy healing. Using simple, natural techniques we can heal our emotional and physical issues. In doing so, we contribute towards healing the fields of consciousness that connect us all. *The Healing Field* provides a reliable roadmap to help you chart a new course towards realizing your full potential in life.

Afterwards, You're a Genius Chip Brown,1998 Brown witnesses healing sessions in which

injuries incurred in past lives are healed, torn auras are sewn, and then, incredibly, submits to such treatment himself - an intrepid traveler sending wildly colorful dispatches back from the outer frontiers.--BOOK JACKET.

Remarkable Recovery Caryle Hirshberg, Marc Ian Barasch, 1996 Based on thousands of medical case reports from all over the world, this book aims to prove that spontaneous remission is more than just folklore.

The Animal Healer Elizabeth Whiter, 2010-04-05 With clear, concise and immensely practical advice on how animals communicate, behave and self-medicate, *The Animal Healer* is ideal for anyone who wishes to understand more about animals, healing and themselves. When her horse 'Wow' was seriously injured, Elizabeth Whiter discovered her incredible talent for hands-on healing and also observed how Wow took steps to heal himself. Now with over 1,000 animals treated, Elizabeth shares her remarkable journey, knowledge and experience. She also explains many of the theories that inform her practice, including: • how to provide hands-on healing • sensing and aligning the energies • zoopharmacognosy - an emerging science that refers to the instinctive methods animals use to self-medicate • and how to feed your animals, providing delicious recipes that are healthy for both you and your pets. *The Animal Healer* shows how a remarkable experience has led to wisdom that anyone who cares about animals will find invaluable.

Reincarnation Roy Stemman, 1998 Roy Stemman has had a lifelong interest in reincarnation. Working for *Psychic News*, and now editor of *Reincarnation International*, he has access to the most interesting cases worldwide. In this book, he introduces some of those cases.
