

THE SPECTACLE OF THE LATE MAYA COURT THE WILLIAM A

DAMIEN B. MARKEN, JAMES L. FITZSIMMONS

[The Spectacle of the Late Maya Court](#) Mary Miller, Claudia Brittenham, 2013-07-01 Located within the deep tropical rainforest of Chiapas, Mexico, the Maya site of Bonampak is home to the most complete and magnificent mural program of the ancient Americas. In three rooms, a pageant of rulership opens up, scene by scene, like pages of an ancient Maya book. Painted c. AD 800, the murals of Bonampak reveal a complex and multifaceted view of the ancient Maya at the end of their splendor during the last days of the Classic era. Members of the royal court engage in rituals and perform human sacrifice, dance in extravagant costumes and strip the clothing from fallen captives, acknowledge foreign nobles, and receive abundant tribute. The murals are a powerful and sophisticated reflection on the spectacle of courtly life and the nature of artistic practice, a window onto a world that could not know its doomed future. This major new study of the paintings of Bonampak incorporates insights from decades of art historical, epigraphic, and technical investigation of the murals, framing questions about artistic conception, facture, narrative, performance, and politics. Lavishly illustrated, this book assembles thorough documentation of the Bonampak mural program, from historical photographs of the paintings—some never before published—to new full-color reconstructions by artist Heather Hurst, recipient of a MacArthur Award, and Leonard Ashby. The book also includes a catalog of photographs, infrared images, and line drawings of the murals, as well as images of all the glyphic texts, which are published in their entirety for the first time. Written in an engaging style that invites both specialists and general readers alike, this book will stand as the definitive presentation of the paintings for years to come.

[The Wonder Trail](#) Steve Hely, 2016-06-14 Steve Hely, writer for *The Office* and *American Dad!*, and recipient of the Thurber Prize for American Humor, presents a travel book about his journey through Central and South America. Part travel book, part pop history, part comic memoir, Hely's writing will make readers want to reach for their backpack and hiking boots. The Wonder Trail is the story of a trip from Los Angeles to the bottom of South America, presented in 102 short chapters. From Mexico City to Oaxaca; into ancient Mayan ruins; the jungles, coffee plantations, and remote beaches of Central America; across the Panama Canal; by sea to Colombia; to the wild Easter celebration of Popayán; to the Amazon rainforest; the Inca sites of Cuzco and Machu Picchu; to the Galápagos Islands; the Atacama Desert of Chile; and down to wind-worn Patagonia at the bottom of the Western Hemisphere; Steve traveled collecting stories, adventures, oddities, marvels, bits of history and biography, tales of weirdos, fun facts, and anything else interesting or illuminating. Steve's plan was to discover the unusual, wonderful, and absurd in Central and South America, to seek and find the incredible, delightful people and experiences that came his way. And the book that resulted is just as fun. A blend of travel writing, history, and comic memoir, *The Wonder Trail* will inspire, inform, and delight.

[Human Adaptation in Ancient Mesoamerica](#) Nancy Gonlin, Kirk D. French, 2015-12-01 This volume explores the dynamics of human adaptation to social, political, ideological, economic, and environmental factors in Mesoamerica and includes a wide array of topics, such as the hydrological engineering behind Teotihuacan's layout, the complexities of agriculture and sustainability in the Maya lowlands, and the nuanced history of abandonment among different lineages and households in Maya centers. The authors aptly demonstrate how culture is the mechanism that allows people to adapt to a changing world, and they address how ecological factors, particularly land and water, intersect with nonmaterial and material manifestations of cultural complexity. Contributors further illustrate the continuing utility of the cultural ecological perspective in framing research on adaptations of ancient civilizations. This book celebrates the work of Dr. David Webster, an influential Penn State archaeologist and anthropologist of the Maya region, and highlights human adaptation in Mesoamerica through the scientific lenses of anthropological archaeology and cultural ecology. Contributors include Elliot M. Abrams, Christopher J. Duffy, Susan Toby Evans, Kirk D. French, AnnCorinne Freter, Nancy Gonlin, George R. Milner, Zachary Nelson, Deborah L. Nichols, David M. Reed, Don S. Rice, Prudence M. Rice, Rebecca Storey, Kirk Damon Straight, David Webster, Stephen L. Whittington, Randolph J. Widmer, John D. Wingard, and W. Scott Zeleznik.

[Politics of the Maya Court](#) Sarah E. Jackson, 2013-06-24 In recent decades, advances in deciphering Maya hieroglyphic writing have given scholars new tools for understanding key aspects of ancient Maya society. This book—the first comprehensive examination of the Maya royal court—exemplifies the importance of these new sources. Authored by anthropologist Sarah E. Jackson and richly illustrated with drawings, photographs, and maps, *Politics of the Maya Court* uses hieroglyphic and iconographic evidence to explore the composition and social significance of royal courts in the Late Classic period (A.D. 600–900), with a special emphasis on the role of courtly elites. As Jackson explains, the Maya region of southern Mexico and Central America was not a unified empire but a loosely aggregated culture area composed of independent kingdoms. Royal courts had a presence in large, central communities from Chiapas to Yucatan and the highlands of Guatemala and western Honduras. Each major polity was ruled by a k'uhul ajaw, or holy lord, who embodied intertwined aspects of religious and political authority. The hieroglyphic texts that adorned walls, furniture, and portable items in these centers of power provide specific information about the positions, roles, and meanings of the courts. Jackson uses these documents as keys to understanding Classic Maya political hierarchy and, specifically, the institution of the royal court. Within this context, she investigates the lives of the nobility and the participation of elites in court politics. By identifying particular individuals and their life stories, Jackson humanizes Maya society, showing how events resulted from the actions and choices of specific people. Jackson's innovative portrayal of court membership provides a foundation for scholarship on the nature, functions, and responsibilities of Maya royal courts.

[Classic Maya Polities of the Southern Lowlands](#) Damien B. Marken, James L. Fitzsimmons, 2015-11-21 Classic Maya Polities of the Southern Lowlands investigates Maya political and social structure in the southern lowlands, assessing, comparing, and interpreting the wide variation in Classic period Maya polity and city composition, development, and integration. Traditionally, discussions of Classic Maya political organization have been dominated by the debate over whether Maya polities were centralized or decentralized. With new, largely unpublished data from several recent archaeological projects, this book examines the premises, strengths, and weaknesses of these two perspectives before moving beyond this long-standing debate and into different territory. The volume examines the articulations of the various social and spatial components of Maya polity—the relationships, strategies, and practices that bound households, communities, institutions, and dynasties into enduring (or short-lived) political entities. By emphasizing the internal negotiation of polity, the contributions provide an important foundation for a more holistic understanding of how political organization functioned in the Classic period. Contributors include Francisco Estrada Belli, James L. Fitzsimmons, Sarah E. Jackson, Caleb Kestle, Brigitte Kovacevich, Allan Maca, Damien B. Marken, James Meierhoff, Timothy Murtha, Cynthia Robin, Alexandre Tokovinine, and Andrew Wyatt.

[Landscape and Space in Ancient Art](#) J. Elsner, 2022 Landscape has been a key theme in world archaeology and trans-cultural art history over the last half century, particularly in the study of painting in art history and in all questions of human intervention and the placement of monuments in the natural world within archaeology. However, the representation of landscape has been rather less addressed in the scholarship of the archaeologically-accessed visual cultures of the ancient world. The kinds of reliefs, objects, and paintings discussed here have a significant purchase on matters concerned with landscape and space in the visual sphere, but were discovered within archaeological contexts and by means of excavation. Through case studies focused on the invention of wilderness imagery in ancient China, the relation of monuments to landscape in ancient Greece, the place of landscape painting in Mesoamerican Maya art, and the construction of sacred landscape across Eurasia between Stonehenge and the Silk Road via Pompeii, this book emphasises the importance of thinking about models of landscape in ancient art, as well as the value of comparative approaches in underlining core aspects of the topic. Notably, it explores questions of space, both actual and conceptual, including how space is configured through form and representation.

[The Maya](#) Megan E. O'Neil, 2022-07-06 An illuminating look at the myriad communities who have engaged with the ancient Maya over the centuries. This book reveals how the ancient Maya—and their buildings, ideas, objects, and identities—have been perceived, portrayed, and exploited over five hundred years in the Americas, Europe, and beyond. Engaging in interdisciplinary analysis, the book summarizes ancient Maya art and history from the preclassical period to the Spanish invasion, as well as the history of outside engagement with the ancient Maya, from Spanish invaders in the sixteenth century to later explorers and archaeologists, taking in scientific literature, visual arts, architecture, world's fairs, and indigenous activism. It also looks at the decipherment of Maya inscriptions, Maya museum exhibitions and artists' responses, and contemporary Maya people's engagements with their ancestral past. Featuring the latest research, this book will interest scholars as well as general readers who wish to know more about this ancient, fascinating culture.

[The Skyband Group, Copán Honduras](#) David Webster, 2023-09-12 The Skyband Group is an impressive elite site in the urban core of Copán, Honduras, which is dominated by the palatial compounds of Maya sub-royal nobles. Such grandees often bore court titles showing that they were clients and officials of kings, but also competitors for political power, especially just before the dynastic collapse around AD 800.

[A Maya Universe in Stone](#) Stephen Houston, 2021-12-28 The first study devoted to a single sculptor in ancient America, as understood through four unprovenanced masterworks traced to a small sector of Guatemala. In 1950, Dana Lamb, an explorer of some notoriety, stumbled on a Maya ruin in the tropical forests of northern Guatemala. Lamb failed to record the location of the site he called Laxtunich, turning his find into the mystery at the center of this book. The lintels he discovered there, long since looted, are probably of a set with two others that are among the masterworks of Maya sculpture from the Classic period. Using fieldwork, physical evidence, and Lamb's expedition notes, the authors identify a small area with archaeological sites where the carvings were likely produced. Remarkably, the vividly colored lintels, replete with dynastic and cosmic information, can be assigned to a carver, Mayuy, who sculpted his name on two of them. To an extent nearly unique in ancient America, Mayuy can be studied over time as his style developed and his artistic ambition grew. An in-depth analysis of Laxtunich Lintel 1 examines how Mayuy grafted celestial, seasonal, and divine identities onto a local magnate and his overlord from the kingdom of Yaxchilan, Mexico. This volume contextualizes the lintels and points the way to their re-provenancing and, as an ultimate aim, repatriation to Guatemala.
