Essentially, you are preparing yourself for a life of freedom. To anyone unfamiliar with the subject matter, living a life in preparation for extreme early retirement can be viewed as a rather thrifty way of living. You must think of this philosophy or way of living as something temporary and in the distant future in which you can ultimately trade it for a permanent and better one. However, the question must still be asked, 'What type of person should adopt extreme early retirement?' It could be anyone; it could be a middle-class man working in a bank, the truck driver you just saw eating a cheeseburger at the diner, or it could be you. The one thing that matters most when it comes to adopting extreme early retirement plans is persistence.
