The Change Your Name Store Leanne Shirliffe, 2014-05-20 Who am I? It's a question a lot of children seem to ask themselves, at which point being "them" simply isn't enough. They want to be someone better. Many kids want to change their names. This is what happened to Wilma Lee Wu. One day, Wilma decides she no longer likes her name, and she sets off for the Change Your Name Store to find a new one. Once at the store, the possibilities seem endless. Mrs. Zeena McFooz, the store-owner, says that Wilma can try out any new name she wants with one catch: she must "go for a ride" to discover what it means to be that name. Will being Babette Bijou from France be better than Wilma Lee Wu? What about Dominga Delfino from Belize? Featuring an exciting story of discovery from author and humor blogger Leanne Shirliffe (of IronicMom.com), and fun, simple illustrations by Tina Kügler, *The Change Your Name Store* takes children on a journey to find their true identity and to celebrate who they are—name and all. Children ages 3 to 6 will be able to relate to Wilma's search for who she really is. The book promotes diversity, which is an important topic to kids to understand at an early age, and will be a good addition to preschool classrooms and urban homes in particular. Zeena McFooz is gentle and matter-of-fact, and the tone of the book is one of exploration and celebration of our individuality. The illustrations are sure to captivate kids' attention while helping to bring this important message to life. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Our list includes bestsellers for children who love to play Minecraft; stories told with LEGO bricks; books that teach lessons about tolerance, patience, and the environment, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Ditch That Textbook Matt Miller,2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. He empowers them to evolve and improve on old, standard, teaching methods. The Happiness Passport Megan C Hayes,2018-10-30 Exploring the global dictionary, from common languages to obscure dialects, The Happiness Passport takes the reader on a joyful journey around the world seeking out the secrets of wellbeing. The wonderfully evocative words in this collection resonate with universal emotions: the deep longing for home conjured up by the Welsh word hiraeth, or the transportive ability of good storytelling captured in the Urdu goya. Yet at the same time each is deeply ingrained in its place of origin: long, dark Danish days encourage the warmth and cosiness of hygge, while the satisfied chatter after a sun-soaked meal - sombremesa - resonates uniquely with Spanish hospitality. These words are simultaneously all-inclusive and peculiar to place; they are

on the tip of our tongue and yet not in our vocabulary. The Happiness Passport delves into this treasure trove of delights, examining the cultural context of each and the lessons that we can apply in our own lives to achieve greater contentment. A must-read for all those seeking a more balanced life, this beautiful guide features original illustrations that conjure up each elusive expression.

The Zones of Regulation Leah M. Kuypers,2011 ... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called zones, with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD.--Publisher's website.
