Heads in Beds Jacob Tomsy,2016-07-26 In the tradition of Kitchen Confidential and Waiter Rant, a rollicking, eye-opening, fantastically indiscreet memoir of a life spent (and misspent) in the hotel industry. Jacob Tomsy never intended to go into the hotel business. As a new college graduate, armed only with a philosophy degree and a singular lack of career direction, he became a valet parker for a large luxury hotel in New Orleans. Yet, rising fast through the ranks, he ended up working in "hospitality" for more than a decade, doing everything from supervising the housekeeping department to manning the front desk at an upscale Manhattan hotel. He's checked you in, checked you out, separated your white panties from the white bed sheets, parked your car, tasted your room-service meals, cleaned your toilet, denied you a late checkout, given you a wake-up call, eaten M&Ms out of your minibar, laughed at your jokes, and taken your money. In Heads in Beds he pulls back the curtain to expose the crazy and compelling reality of a multi-billion-dollar industry we think we know. Heads in Beds is a funny, authentic, and irreverent chronicle of the highs and lows of hotel life, told by a keenly observant insider who's seen it all. Prepare to be amused, shocked, and amazed as he spills the unwritten code of the bellhops, the antics that go on in the valet parking garage, the housekeeping department's dirty little secrets—not to mention the shameless activities of the guests, who are rarely on their best behavior. Prepare to be moved, too, by his candor about what it's like to toil in a highly demanding service industry at the luxury level, where people expect to get what they pay for (and often a whole lot more). Employees are poorly paid and frequently abused by coworkers and guests alike, and maintaining a semblance of sanity is a daily challenge. Along his journey Tomsy also reveals the secrets of the industry, offering easy ways to get what you need from your hotel without any hassle. This book (and a timely proffered twenty-dollar bill) will help you score late checkouts and upgrades, get free stuff galore, and make that pay-per-view charge magically disappear. Thanks to him you'll know how to get the very best service from any business that makes its money from putting heads in beds. Or, at the very least, you will keep the bellmen from taking your luggage into the camera-free back office and bashing it against the wall repeatedly.

Can't Eat, Can't Breathe and Other Ways Cystic Fibrosis Has F#\$%\*d Me Jay Gironimi,2013-09-15 Jay Gironimi (rhymes with astronomy) is a man who can't eat and can't breathe. Can't Eat, Can't Breathe and Other Ways Cystic Fibrosis Has F#\$%\*d Me is not an inspirational story of triumph over adversity. But if you'd like to read a series of reflections on poop and mucus, it just might be the book for you.

**Community Empowerment, Sustainable Cities, and Transformative Economies** Taha Chaiechi,Jacob Wood,2022-01-12 This edited volume presents the conference papers from the 1st International Conference on Business, Economics, Management, and Sustainability (BEMAS), organized by the Centre for International Trade and Business in Asia (CITBA) at James Cook University. This book argues that the orthodox methods of external risks, climate change adaptation plans, and sustainable economic growth in cities are no longer adequate. These methods, so far, have not only ignored the ongoing structural changes associated with economic development but also failed to account for evolving industries' composition and the emergence of new comparative advantages and skills. Specifically, this book looks at the vulnerable communities and exposed areas, particularly in urban areas, that tend to experience higher susceptibility to external risks (such as climate change, natural disasters, and public health emergencies) have been largely ignored in incremental adaptation plans. Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda. It is essential, therefore, to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution. Social disorganisation and vulnerability are other undesired outcomes of the unpredictable and widespread external economic shocks. This is due to a sudden and tough competition between members of society to acquire precious resources, most of which may be depleted during unprecedented events such as natural disasters or pandemics resulting in an even more chaotic and disorganised conditions.

**Fabless** Daniel Nenni,Paul Michael McLellan,2014 The purpose of this book is to illustrate the magnificence of the fabless semiconductor ecosystem, and to give credit where credit is due. We trace the history of the semiconductor industry from both a technical and business perspective. We argue that the development of the fabless business model was a key enabler of the growth in semiconductors since the mid-1980s. Because business models, as much as the technology, are what keep us thrilled with new gadgets year after year, we focus on the evolution of the electronics business. We also invited key players in the industry to contribute chapters. These In Their Own Words chapters allow the heavyweights of the industry to tell their corporate history for themselves, focusing on the industry developments (both in technology and business models) that made them successful, and how they in turn drive the further evolution of the semiconductor industry.

**My Sister who Travels** Martina Caruso, 2016-08 My Sister Who Travels commemorates an exhibition curated by Martina Caruso, a group show that featured the work of six internationally acclaimed contemporary women artists: Noor Abed, Jananne Al-Ani, Halida Boughriet, Ursula Schulz-Dornburg, Corinne Silva, Esther Boise Van Deman, and Paola Yacoub. In her own way, each artist offers a challenge to the canonical representations of landscape photography. Often straying from conventional tropes, the landscapes presented in this lush catalog articulate places of memory, conflict, colonisation, migration, emptiness, and expanse. The book, beautifully designed to look like a travel journal, also features biographies of the artists and an essay by the curator exploring the role of women in lens-based depictions of landscape.

**Twelve Years a Slave** Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Middle East and North Africa Economic Monitor, October 2018** Rabah Arezki, Lili Mottaghi, Andrea Barone, 2018-10-03 After a sharp fall in 2017, economic growth in MENA is projected to rebound to 3.1 percent in 2018, thanks to the positive global outlook, oil prices stabilizing at relatively higher levels, stabilization policies and reforms, and recovery and reconstruction as conflicts recede. The outlook for MENA remains positive, and the growth rebound is expected to gain momentum over the next two years, exceeding 3 percent in 2020. While stabilization policies have helped economies adjust in recent years, a second phase of reforms is needed should be transformative if the region is to reach its potential and create jobs for hundred million young people who will enter the labor market in coming decades. In this report, we explore the role that public-private partnerships can play. not only in providing an alternative source of financing but in helping change the role of the state from the main provider of employment to an enabler of private sector activity. Studies have shown that the gap between MENA economies and fast-growing ones is the performance of the services sector. The disruptive technology offers new opportunities for boosting private-sector-led growth through enhancement of high-tech jobs in the services sector. The report argues that combining the region's fast-growing pool of university graduates and a heavy penetration of social media and smartphone, could serve as the foundation for a digital sector that could create much-needed private sector jobs for the youth over the next decade.

*The Subtle Art of Not Giving a F\*\*k* Mark Manson,2016-09-13 #1 New York Times Bestseller Over 10 million copies sold In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be positive all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. F\*\*k positivity, Mark Manson says. Let's be honest, shit is f\*\*ked and we have to live with it. In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F\*\*k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault. Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f\*\*k about so we need to figure out which ones really matter, Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F\*\*k* is a refreshing slap for a generation to help them lead contented, grounded lives.
