Mountains Beyond Mountains Tracy Kidder,2009-08-25 NEW YORK TIMES BESTSELLER • “[A] masterpiece . . . an astonishing book that will leave you questioning your own life and political views.”—USA Today “If any one person can be given credit for transforming the medical establishment’s thinking about health care for the destitute, it is Paul Farmer. . . . [Mountains Beyond Mountains] inspires, discomforts, and provokes.”—The New York Times (Best Books of the Year) In medical school, Paul Farmer found his life’s calling: to cure infectious diseases and to bring the lifesaving tools of modern medicine to those who need them most. Tracy Kidder’s magnificent account shows how one person can make a difference in solving global health problems through a clear-eyed understanding of the interaction of politics, wealth, social systems, and disease. Profound and powerful, *Mountains Beyond Mountains* takes us from Harvard to Haiti, Peru, Cuba, and Russia as Farmer changes people’s minds through his dedication to the philosophy that “the only real nation is humanity.” WINNER OF THE LETTRE ULYSSES AWARD FOR THE ART OF REPORTAGE This deluxe paperback edition includes a new Epilogue by the author

Mountains Beyond Mountains Tracy Kidder,2013-04-09 Traces the efforts of Harvard-educated Dr. Paul Farmer to transform healthcare on a global scale, documenting his visits to some of the world's most impoverished regions and the unconventional methods that enabled him to improve and save lives.

Mountains Beyond Mountains: The Quest of Dr. Paul Farmer, a Man Who Would Cure the World Tracy Kidder,2004-08

Mountains Beyond Mountains Tracy Kidder,Michael French,2013 This magnificent, inspiring account of Dr. Paul Farmer shows how

radical change can be fostered in situations that seem insurmountable, and how one person can make a difference in solving global health problems.

Mountains Beyond Mountains Tracy Kidder, 2013-08-15 Profound and powerful, *Mountains Beyond Mountains* takes us from Harvard to Haiti, Peru, Cuba and Russia, as the charismatic but flawed genius Dr Paul Farmer challenges widely-held preconceptions about poverty and healthcare. As a medical student, Farmer found his life's calling: to cure infectious diseases and to bring the lifesaving tools of modern medicine - so readily available in the developed world - to those who need them most. Beginning in Haiti, he tackles the conditions that contribute to so many unnecessary deaths with his trademark combination of world-class expertise, unlimited compassion, and the unstinting dedication of friends and colleagues. Tracy Kidder's magnificent and moving account shows how, from achieving this modest dream, one person can make a difference in solving global problems through a clear-eyed understanding of the interaction of politics, wealth, social systems and medicine.

God Knows There's Need Susan R. Holman, 2009-06-02 In this insightful volume, Susan R. Holman blends personal memoir and deep research into ancient writings to illuminate the age-old issues of need, poverty, and social justice in the history of the Christian tradition. Holman explores, for instance, the stories of fourth- and fifth-century bishops, showing how these early Christian writers can be allies for those who want to influence our contemporary dialogue about social justice. Throughout this deeply personal and richly scholarly work, Holman connects the ancient and the modern, helping readers understand more fully these age-old issues.

Family-Focused Nursing Care Sharon A. Denham, Sandra

Eggenberger, Patricia Young, Norma Krumwiede, 2015-02-16 Nurses have a unique role in redefining the way we view partnerships in healthcare— Transitioning from individualized to family-focused care is not only advocated by the Institute of Medicine; it's becoming a way of life. Families want their perspectives and choices for their loved ones to be heard.

Political and Civic Leadership Richard A. Couto, 2010-09-14 I jumped at the chance to shepherd this collection. This was personal for me. In the past, when I had prepared to teach courses on political leadership, I had come up with a dearth of recent scholarly attention to the topic. Perhaps my perspective on politics and leadership exacerbated the difficulty of my search. I had in mind a politics that touched all aspects of power and authority in our lives (not just government), encouraged the moral imagination, and affirmed human agency that could make the future better than the present. I searched with limited success for material that would explain how all of us shape and are shaped by politics. My perspective on leadership may have also hindered my search. I had in mind the simple notion of taking initiative on behalf of shared values. I found too little material about leadership that extended beyond the spectacle of authority and its assumption of hierarchy. I wanted to explain that each of us, regardless of our place in a hierarchy, has a calling to lead - to act on behalf of our moral imagination. Editing this volume permitted me the chance to develop the material I sought. I (as well as other teachers) no longer have a shortage of material relating politics and leadership with each other. Nine Pints Rose George, 2018-10-23 An eye-opening exploration of blood, the lifegiving substance with the power of taboo, the value of diamonds and the promise of breakthrough science Blood carries life, yet the sight of it makes people faint. It is a waste product and a commodity pricier than oil. It can save lives and transmit deadly infections. Each one of us has roughly nine pints of it, yet many don't even know their own blood type. And for all its ubiquitousness, the few tablespoons of blood discharged by 800 million women are still regarded as taboo: menstruation is perhaps the single most demonized biological event. Rose George, author of *The Big Necessity*, is renowned for her intrepid work on topics that are invisible but vitally important. In *Nine Pints*, she takes us from ancient practices of bloodletting to the breakthrough of the liquid biopsy, which promises to diagnose cancer and other diseases with a simple blood test. She introduces Janet Vaughan, who set up the world's first system of mass blood donation during the Blitz, and Arunachalam Muruganatham, known as "Menstrual Man" for his work on sanitary pads for developing countries. She probes the lucrative business of plasma

transfusions, in which the US is known as the “OPEC of plasma.” And she looks to the future, as researchers seek to bring synthetic blood to a hospital near you. Spanning science and politics, stories and global epidemics, *Nine Pints* reveals our life's blood in an entirely new light. *Nine Pints* was named one of Bill Gates recommended summer reading titles for 2019.

A Wrinkle in Time Madeleine L'Engle,2010-04-01 NEWBERY MEDAL WINNER • TIME MAGAZINE'S 100 BEST FANTASY BOOKS OF ALL TIME • NOW A MAJOR MOTION PICTURE FROM DISNEY Read the ground-breaking science fiction and fantasy classic that has delighted children for over 60 years! *A Wrinkle in Time* is one of my favorite books of all time. I've read it so often, I know it by heart. —Meg Cabot Late one night, three otherworldly creatures appear and sweep Meg Murry, her brother Charles Wallace, and their friend Calvin O'Keefe away on a mission to save Mr. Murray, who has gone missing while doing top-secret work for the government. They travel via tesseract--a wrinkle that transports one

across space and time--to the planet Camazotz, where Mr. Murray is being held captive. There they discover a dark force that threatens not only Mr. Murray but the safety of the whole universe. A Wrinkle in Time is the first book in Madeleine L'Engle's Time Quintet.

Sophie's World Jostein Gaarder,2007-03-20 One day Sophie comes home from school to find two questions in her mail: Who are you? and Where does the world come from? Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.
